INTRODUCTION

For an excellent summary of various *Raziel* manuscript traditions, see Stephen Skinner's foreword to *Sepher Raziel : Liber Salomonis, a sixteenth-century English Grimoire*, transcribed, annotated, and introduced by Don Karr, with a foreword and modern English version by Stephen Skinner (Singapore: Golden Hoard Press, 2010), pages 13-23.

Liber Salomonis comprises folio pages 2^r-57^r of British Library Sloane MS 3826; it contains seven treatises (as described in its own fo.3^v):

1. Clavis...“of astronomy and of the starres” (ff 5^v-11^v)
2. Ala...“the vertues of some stones of herbes and of beasts” (ff 12^r-27^r)
3. Tractatus Thymiamatus...of suffumigations and of allegations of them and divisions” (ff 27^r-34^r)
4. The “Treatise of tymes of the year of the day and of the night...when anything ought to be done by this booke” (ff 34^r-46^r)
5. The “Treatise of Cleanesse...of Abstinence” (ff 46^r-51^r)
6. “Samaim” which “nameth all the heavens and her angels and the operations or workings of them” (ff 51^v-53^v)
7. The “booke of Vertues...and miracles...the properties of the ark of magicke and of his figures and of the ordinance of same” (ff 53^v-57^v)

* These sections also appear in the edition prepared by Joseph H. Peterson from British Library Sloane MS 3846, at ESOTERIC ARCHIVES, “*Sepher Raziel* Book of the Angel Raziel” (© 1999, 2006) <http://www.esotericarchives.com/raziel/raziel.htm>.

Liber Salomonis refers to itself as “Cephar Raziel” (ff 2^v, 3^r, 4^r, 12^r, 34^r), “Sephar Raziel” (fo. 2^r), “booke of Raziel” (ff 20^r, 46^r, 57^r), and “booke of Razeelus” (fo. 3^v). Solomon is indicated as the recipient and redactor—not the author—of the book in the narrative which introduces the text (ff 2^v-3^v), though most instructions begin, “Salomon said...” Others begin, “Hermes said...” (ff 9^r, 11^r, 18^v, 24^r, 28^v, 30^r, 31^r, 32^r, 33^v), “Adam said...” (fo. 16^r), “Nathaniel said...” (fo. 47^r), “Moyses said...” (ff 4^r, 4^v), and “Raziel said...” (ff 6^r, 16^v, 22^r, 26^r, 28^v, 31^v, 34^v, 36^r, 37^r, 38^v). Narrative passages refer to Raziel as the source of the book (e.g., ff 34^r and 36^r).

The rest of Sloane MS 3826 consists of

1. *Incipit Canon*: The rule of the book of consecration, or the manner of working (ff 58^r-60^r)
2. Orisons (ff 60^r-65^r)
3. Magical directions (ff 65^r-83^v)
4. *Liber Lunæ* (ff 84^r-97^v)
5. *Raphael*: The Invocation of Oberon Concerning Physick &c (ff 98^r-99^r)
6. The Call of *Bilgal*, One of the 7 etc. (fo. 99^v)
7. An Experiment for a Fayry (fo. 100^r)
8. *Beleemus De imaginibus* (ff 100^v-101^r)

Sloane MS 3826 is in English, except for

- (i) the opening lines of paragraphs in *Liber Salomonis* and *Incipit Canon*
- (ii) the Orisons
- (iii) the invocation, constriction, ligation, and license of *Raphael*
- (iv) *Beleemus De imaginibus* (BELEEMUS REGARDING THE IMAGES [OF THE PLANETS])

In various papers and communications, I have expressed the opinion that Sloane 3826 was a sixteenth-century Christian product, though one which borrowed from Jewish, Arabic, and Græco-Roman scholastic and folk sources. In a note to me (January 28, 2007), Sophie Page offered an informed and most welcome emendation to my view in the form of an abridged segment from her article, “Uplifting Souls and Speaking with Spirits: The *Liber de essentia spirituum* and the *Liber Razielis*,” which was to be published in Claire Fanger (ed.), *Invoking Angels: Mystical Technologies in the Middle Ages*.[†]

The most explicit transmission of Jewish magical material into the Christian Latin tradition of magic was the translation of works associated with the name “Raziel,” an angel present in Jewish angelology and Arabic astrological texts who was said to have revealed a book of secrets to Adam. Various esoteric and magical treatises attributed to Raziel and based on the practical use of divine and angelic names circulated among late medieval Jews. The earliest known reference in Latin is a citation by the Christian convert Petrus Alfonsus [OR Alfonsi] (1062-1110) of a certain *Secretum secretorum*, which claimed to have been revealed to Seth, the son of Adam, by the angel Raziel. By the mid-thirteenth century, these magic texts were circulating more widely in Latin. In 1259, Alfonso [X, (1221-1284)] directed the translation of a work entitled *Liber Razielis* from Latin into Castilian by the cleric Juan d’Aspa. The Castilian version does not survive, but the Latin original put together by Alfonso survives in two complete and several partial copies, as well

[†] This was actually published as *Invoking Angels: Theurgic Ideas and Practices, Thirteenth to Sixteenth Centuries*, edited by Claire Fanger (University Park: The Pennsylvania State University Press, 2012). The passage quoted, with significant additions and modifications, occurs on pages 81-83.

as various early modern abridged vernacular versions. The Alfonsine *Liber Razielis* is structured in the form of seven books said to have been brought together by Solomon. Nine related texts from the Solomonic and Hermetic magical traditions were added by Alfonso's scribes as appendices. Although the preface cites a single Hebrew original for the seven volumes, it is likely that the structure was partly a creation of Alfonso himself and his translators.

The following post-1500 manuscripts contain abridged vernacular copies of the Alfonsine *Liber Razielis* or the *Liber Sameyn* only (the sixth book). This is not an exhaustive list, and I have only personally examined those in the British Library: MS Yale, Beinecke Rare Books Library Osborn MS fa. 7 (late s. xvi, English); British Library MSS Sloane 3826 (s. xvii, English), ff. 1-57, Sloane 3846 (s. xvi, English), ff. 127-55; MS Lyon 970 (s. xvii, xviii, French; MSS Alnwick Castle 596 (s. xviii, Italian, the *Liber Sameyn*), pp. 1-42 and 96 (Italian, Latin, English, the *Liber Sameyn* only); MS Lübeck, Bibliothek der Hansestadt, Math. 4o 10 (s. xvi/xvii, German); MS Dresden N. 36 (s. xviii, German); Prague, National Museum Library MS XVIIIF25 (1595, Czech, trans. Ioannes Polenarius). MS British Library Add. 16, 390 (s. xvii) has a Hebrew extract with a title in Italian. Where no folio references are given, the catalogue entry suggests that the *Liber Razielis* travels alone.

In her introduction to *The Watkins Dictionary of Angels* (London: Watkins Publishing, 2006), Julia Cresswell writes (page 9) of Sloane 3826,

I would suggest that although the manuscript may be sixteenth century, some of the language is rather old-fashioned for that date, except perhaps for an old person writing in the early sixteenth century. I would guess that the text is a reworking if an earlier one, pushing the origin of the material back into the Middle Ages.

Liber Salomonis is here literally transcribed, line-by-line; no changes in spelling or wording have been made. (Spelling in the MS is quite inconsistent; *e.g.*, within a few lines of each other, we find "wing," "winge," "wyng," and "wyng.") With the superscript and other features, I have imitated the look of the text. Note that superscripted letters belong to the text; superscripted numbers refer to footnotes. All Latin headings are in *italics*. Each page of text here represents a folio page of the MS; folio numbers are given in square brackets.

Liber Salomonis

[2^r] *In noie Dei potentis vibi et veri et aterni &c*

In the name of Almighty God living and very and ever=
lasting and wthout all and w^{ch} is said Adonay Saday
Ehye Asereye I begin to write this booke w^{ch} is said
Sephar Raziel wth all his appertenances in w^{ch} be seven
treatises complete or fulfilled that is vii bookes.

Dixit Salomon Gloria et laus et cu multo honore &c

Salomon said glory and praysing wth much honor be to
God of all Creatures, he that is singular w^{ch} made all
things at one tyme. And he is one God very mighty
he alone that is and that was and w^{ch} evermore
shall be, and w^{ch} has never an end or any like him
neither is he like to have. And he is singular wthout
end, Lord alone wthout corruption, holy cleane meeke
and great all things seeing and hearing and wise and
in all things mighty. And I begin this booke to put
an ynsample that whosoever that hath it blame it not
till he have red and heard all or somewhat of it, and
then prayse the God maker of all things.

These be the ix precepts *Incipiunt praecepta*
Heere beginneth the precepts

Ne credas esse plures nisi unu singulare &c

1. Ne trowe thou no to be mo[r]e or many but one singular
alone upon all things w^{ch} hath none like him and him
love wth all dread and honor wth all trust and wth good
will and stable and wth might and wth all they cleane
2. heart. Ne live thou not wthout lawe, and thou shall
3. be loved of God thy creator and of folks. Ne do thou
not to another man yf thou wouldest not the same. Ne
4. be thou not a lyer to the Lord neither to thy friend
and say thou such soothes that be to thy profit and not
5. harme. Ne love thou not neither fellowship thou more
wth unwise men then wth wisemen. And evermore love

[2^v]

- thou many wisdoms and good sciences and all thy will
6. and thy lyfe in them. Ne speakest thou not before thou have thought, and that thou do consider it in thine
 7. hart ere thou do it. Neither discover thou not thy privities to a woman, neither to a childe, neither to a foole, neither
 8. to a dronk^e woman. No prove thou not a medicine neither venym in thy self before thou provest it in an other. Ne
 9. blame thou not a booke before thou prophesy neither a wise man till thou have proved thou. And if thou wth holdest these ix precepts in thee evermore thou shalt profite more and more. *Postqua sensus et scire et posse vo=*

luntas vera &c After that witt and knowledge and might and very will overcometh all things wth good witt and good discretion. Therfore I will expound or make open his booke w^{ch} is of great power and of great vertue.

I, Salomon put such knowledge and such a distinction and explanation in this book^e to every man that readeth or studyeth in it, that he may know^e whereof he was and from whome he came. **Knowe** ye that after I Salomon had xxx yeeres wth in an half in the vth day of the month of Hebreys w^{ch} was the vith ferial day, the sonne being in the signe of Leonis. In that day was sent to me from Babilony of some prince that was greater and more worshipfuller then all men of this tyme some booke that is said Cephaz Raziel w^{ch} cont vii bookes and vii treatises.

Nota tempus in quo Salomon fuit p^o adeptus istu libre et quomodo et a quo venit sibi

Knowe thou the tyme in w^{ch} Salomon gott the booke and howe and of whom it came to him.

Iste liber est magna virtutis et magna secretia This booke is of great vertue and of great privity, the name of the prince that sent it to me was Sameton and of the two wise men that brought it to me was said Kamazan and the other Zazont.

[3]

The name of this booke expound^{ed} in Latine is Angelus magnus Secreti Creatoris That is to say the great Angel of the secret creator And in Hebrew Cephaz Raziel it is the book^e after Adam written in language of Caldey and afterward translated in Hebrew. And know each man that read^s it that in it all Semiforax that is to say the great name complete wth all his names whole and even. and wth his vertues and his sacraments And I found it in 7 bookes that is 7 treatises. And know ye that I found the first and the last full dark^e and the five middle more plain and although I found them dark^e I opened them as much as I could or might. And the 7 treatises of this book^e be these..

1. The first is said Clavis for that in it is determined of Astronomy and of the stares for wthout them we may do nothing.
2. The second is said Ala for that in it is determined of the vertues of some stones of herbes and of beasts
3. The third is said Tractatus Thymiamatu^s for that there is determined in it of suffumigations and of Allegations of them and divisions
4. The ivth is said the Treatise of tymes of the year of the day and of the night for that in it is determined when anything ought to be done by this book^e
5. The vth is said the Treatise of Cleanesse for that there is determined in it of Abstinence
6. The sixt^h is said Samaim for in that treatise it nameth all the heavens and her angels and the operations or workings of them
7. The viith is the book^e of Vertues for that there is determined in it of vertues and miracles for there be told the properties of the ark of magicke and of his figures and of the ordinance of same.

And the I beganne to write all these treatises in a new^e volume for that one treatise wthout another serves not to the wholeness of the work^e Therefore I made an

[3^v]

whole book^e to be made of the treatises. Therefore Salomon said to his writer Clarifaton that he could write it, w^{ch} I know well the language of Caldly of Indy of Hebrew and of Syne and their right explanation. Methelis Salomon said that after Clarifaton had corrected it and had dressed it, it should be the better and ordained it in the best maner that he might. And Clarifaton said, w^{ch} was the writer of Salomon, that this booke is full of great privity and that it was sent of full great honor And that it was sent to Salomon for most price and most love. And everiche treatise of these vii was written by themselves. But although it be so that Clarifaton said that it ought to be but one booke alone by itself for none of these saith he should suffice wthout another, wherefore he said it were necessary that they were all together Whereupon Salomon ordained that all the said 7 treatises were but one book^e as they ought to be and as they ought to be read and wrought. And he ordayned it much better then the phil^{il}o^{[soph]le}rs ordayned, and also he taught how a man ought to do his work^e by it. And he put every treatise by itself and every chapter by itself and ordayned all till the end of the book^e. And he putt into this booke Semiforas that is the book^e of 17 vertues how it ought to be written and of w^{ch} Ink^e, and of w^{ch} parchment and wth what pen and wth what man, and in w^{ch} time and what day and in what night and in what hour. After that Salomon expounded in the book^e of Razeelus and how it ought to be kept Cleanly and wth great honor

Dixit Salomon qui videt et non cognoscit &c

Salomon said who so seeth and knoweth not is as he that is born^e blind^e and knoweth not colors and who that heareth and understandeth not is such as if he were a deaf^e man. And who so considereth and knoweth not the consideration is such as if it were of a dronkerd

[4]

And whom that speaketh and cannot expound the reason is as a dombe man. And who that readeth playne bookes and understandeth them not is as it were he dreameth. These proverbs Salomon said in this booke ffor as Salomon said in this booke is hit that Cephaz Raziel the angel said to Adam w^{ch} was the first man in this world and after it w^{ch} Moyses said to other prophets in soothes and we troweth it so.

Dixit angelus Salomoni vt d^{per} es tuæ operationes &c

The angel said to Salomon that all thy workhings and petitions and willes be fulfilled, and it shall be made in all hitt that thou shalt covet that it be in thy might It behoveth that when thou hast this book^e of this or of Another example or ensample that thou write it in Inst maner in virgin parchemt and that it be not filthy neither of a dead beast or in vealime (vitulino) or in parchmyn of sylke, or in samatyne¹, or in cleane clothe or in parchmyn of a lamb or of a virgin kidde or of a virgin ffawne, and this is better than any other.

And the Ink^e wth w^{ch} thou shalt write be it of cleane galles and let it be made wth good white wyne & whole and wth gum^e and vitriol and masticke & thyme and croco. And the third day when it hath taken residence and shall be censed putt² thou therein a little of Algaba and Almea³, and putt therein of good muske or muske more than of those three. And put thou therein Amber and Balsamu^s myrryam and lignus aloes and when the Inke shall be made, boyled wth masticke and wth thyme and wth lingo aloes and wth somewhat of Thymiamat and Muculazarat and thou cense it well wth a clean^e thinne cloth^e, and the cloth be it threefold. And afterward putt therein musk^e and Ambram and Almenus & Algana and Balsami^s and Myrrha^s all well grounden & then

¹ Above "samatyne" is written "sattin."

² Above "putt" is written "& strained."

³ A marginal note offers an alternative to Almea: Alinza.

[4^v] shalt meddle all this wth the Inke full well together
 And let the inke be so still for the space of 3 days well
 covered in a fayre place And know^e thou that wth this
 ynke thou shalt write all the holy names of God and
 of his angels and of his saints, and all things in w^{ch}
 his holy great name is⁴ nempned and written. And all
 things that thou willest truly to be fulfilled wth thy well
 pleasing or wth thy service. And what ere thou puttest
 in this ynke, be it newe and bright and pure and good
 pen And the penne that thou shalt write the holy names
 be it of a green^e reed^e gathered early ere the sunne
 5 arise. And he that shall gather it be he clene & washen
 & in running water or in a quicke well and also let
 him be clothed wth cleane clothes, and the moon^e being
 waxing wth Caput Draconis or wth Jove, for that
 they be true and very. And when thou shalt gather it, thou
 shalt behold of looke toward the East and thou shalt say
 thus *Adonai et Saday jubate me ad complendū voluntates meas eo^s axundine ista.* That is to say Help
 ye me to fulfill my willes wth this reed^e. and when this
 is said thou shalt cutt one reede or twayne or as many
 as thou wilt wth one stroke. And as Moyses said the knife
 be it well playne sharpe and whole as thoughe we should
 cutt of an neck^e wth it. And thou take the reed^e wth thy
 cleane hands, and make thou of it a gobbets. And when thou
 wilt cutt the penne, cutt it ere the sunne arise or when
 it ariseth. With this penne and wth this ynke thou shalt
 write all the names of God holy and severall. And as
 often as thou writest the name of the Creator be thou
 clean^e and⁶ solleme & serened & in a clean^e place. And
 thou shalt first ere thou write by iii dayes be bathed in
 clean^e water, but rather thou shalt be clean^e by 9 days
 an house or clean^e place made very clean^e wth beesoms

⁴ Above “is nempned” is written “named.”

⁵ A marginal note here reads:

it might be done / in the new of / the ((whiles / the ((dothe / increase when /

and washen watered and suffumed And ordeyne so that when thou writeth, hold thou thy face toward the East & write thou from morning till midday till that thou eate. And after that thou hast eaten and dronken thou shalt not write in it any thing. And if thou wilt write Semiforax wth his strengthes the number of the mone, be it even. And most in the day of the mone or of morning or of Jovis or dius. & be thou word of Saturne and of Sol upon all. And Salomon said If thou putttest into the ynke of the bloud of vower or of a turtur or of a gander (wholly or all white) the ynke shall be much the better and the more vertue

Also I say that if there were of Sapher powdered Sma=ragdo, gagnisia & topasia the ynke shall be complete or fulfilled. And wth this Inke and wth this penne ought to be written all the names of Semiforas and know^e thou yt he that shall write this book^e ought to be clean^e & fasting bathed and suffumed wth precious aromatickes, that is wth spices well smelling. And it shall be great profit to thee and to him that maketh it or writeth it. And each man yt hath written this booke or hath holden it in his house, ev'more hold^e he God in his mynde and his holy Angels & hit for w^{ch} he hath made it. & let him put in his mynde in w^{ch} tyme of the 4 tymes of the day wth his oughth or of the tymes of an hower And ev'more let him put in his mynde to his 4 tymes of an hower to w^{ch} they ought to be as *invenies in libro prophar^{um}*

Dixit Salomon sicut si esset castru^m etc

Salomon said as though there were a castle full strong and his highenes ful great and high and en=hansed and well on each side wth walles invironed and the gates in one place well strong and stable or fyrme and wth keyes closed and locked. Therefore it behoveth it who that would open the gates of that close castle and holsomly would enter into it both wthout travel of gyfte and wthout bruising of his body It is necessary to have the same

keyes and none other of this castle and of his gates & of his closings Thus I say this that it is for to knowe the starres and their names and their figures and their natures, and when they should be good and when they should be evill, And thus I say of the fixe and of the 7 erraticis neverthelesse Consider how evermore the nature of the Circle of the xii signes that is thee towards. And therefore it behoveth each man that hath this booke, that he holde it clenly and that he keep^e it wth great reverence & wth great hono^r. And who that hath it, and can reade it, let him not reade it, but if he were before full cleane of body and wth great witte.

And I make every man to knowe or weel that he ought not to worke by this booke^e in vayne, neither wthout wytte nor wthout lawe or reason. And this is when every man doth to the contrary, or when and Reptiles, or wood beasts should lett thee or do the harme. And knowe thou though^e thou have might and trust for to worke by this booke & although thou might have great trust in this, yet thou shalt not worke, but wth great right or lawe or wth much reason And understand thou of all the contrary, and if thou worchest otherwise by this booke then thou shouldest and much might let thee that is to say if thou worchest wthout reason, or if thou were uncleane or evill in thy self.

o—*Clavis istius libri est cognoscere et scire loca*

The key to this booke is to knowe and will the places of the vii bodyes above and their natures and their sciences and the domes, and all their vertues after yt it appeared in the earth to me

O *o formata debet esse omnis figura cu^s ex vero*

Eache figure ought to be formed wth very or true en=
sample therefore I put the figure of the key in this booke that no man true that wthout reason and profitt it be made. And I put in figure and key wth the shafte to the

[6]

similitude or likenes that there is one soleyme Lord one god w^{ch} never had neither shall have any even or like to him In the Quadriture or in that, yt is fower cornered yt signified that there be 4 elements and no moe. And in this key is one triangle w^{ch} signifyeth knowing might and will for whome these three no man may do any thing in the worlde neither attayne to any profit. And Salomon said that the shafte of this key is as Raziel said to Adam unite or one head, and the quadrate is as 4 vertues that be in herbes and words and beasts, and they be to the similitude of elemnts w^{ch} openeth and doeth all. And the 7 wards be 7 Angels w^{ch} have might in the 7 heavens, and in the 7 dayes of the weeke as furthermore I shall teache you.

And the triangle signifyeth man w^{ch} is in body and soule and spirit, and these above said leadeth together all the worlde as it was compounded in highnes & lownes.

Pastqua~ hucusq diximus oportetnos dicere &c

After that we have said hitherto it behoveth us now to say for this booke that w^{ch} is said of the key of the 7 brethren. And these 7 brethren have among themselves 12 realmes for to devide or to depart, and in each realme be 30 cityes, and in every city be 60 castles and in every eiche castle 60 Caldee yt is to say feeldy or wilde townes. And this ensample Salomon found and made distinction and said there is one father and he hath 7 sonnes and these 7 sonnes be germanyes ffor after that they be of the same father germanyn. And the Elder is most heavy among all the other. And the middle in the middle more ordinate then all. And thither lightly be in the middle in fellowshipping hit evermore, so they twene of these be not much severed from hit. And the 7 brethren Salomon said be Sabaday Saturnus. Zedel Jupiter

[6^v]

Madyn Mars Hamyna Sol Noga Venus Cocab
 Mercury Labana that is to say Luna Knowe thou
 the houses of the planetts. And Salomon putt names
 to the xii realmes of the of Germanyes and they be called
 signes and he beginneth to make distinction. And he
 gave to their fighter that is to say to Mars that he should
 rest, and that he should not fight in the realme of the
 signe of Arietis and of this vertue he is in the realme
 of the East, he gave him in the realme of the worlde
 the signe of Scorpionis that he should fight strongly
 and that he should never rest, and he is in the eight
 realme from the first. And afterward he gave to
 the fayre Noga that is to say Veneri twey realmes
 of w^{ch} one hath the half seale of Tauri that is
 from the highnes of his head wth his horns till to the
 navell. And their as the viith from the first that is
 Libra, and after while Venus is above that is in the
 Northe, and otherwhile beneath that is in the South.
 And so he hath inherited in twey parts And then he
 gave to the painter (w^{ch} is the writer) that is Mer=
 curius twey realmes of w^{ch} one hath twey men embraced
 that is clipping together himself, that other hath a
 fayre virgin winged and nevermore would be divided
 or departed from wemen for those Images be such
 and he displeaseth evermore to go much from the South
 into the Northe. And he gave to the Malix that is to
 say Lune for that he goeth evermore one realme
 And for that she will note stande much in her house
 & her signe is a fish that is said Cancer w^{ch} hath
 many feete, and signifyeth be this that he will go much
 for that he is under other brethren, this suffer alone
 And he gave to the middle brother, w^{ch} is the Lord of all

[7]

other, and he commandeth to all and is more adorned for fay=
 rer arrayed, therefore he gave to him one realme full strong in
 heate and his signe is as the Lion, that sheweth him Lord
 upon all beasts, so is he stronger and of more Lordshippe
 upon all his brethren. And then remayned twey brethren
 of the par^{ty} of the South and theld or tooke twey realmes, one
 about another for this that he should never overcome
 in the signe of the realme well meritionall or south, and
 he is one beast wth one forme in his front, and the signe of
 that other realme is a man that holdeth wth many waters
 and this brother is said the old Sabaday. And then ta=
 keth that other brother for heritage on his right syde
 the realme wth the signe of half a man and half a horse
 and it is said Sagittarius, and on the left syde of Pisces.

KNOWE you heere the natures of the Signes
 And Salomon said Aries is a sign fiery hot &
 dry, choleric, and so is Leo and Sagittarius and they
 have might in the East.
 Taurus is earthy, cold and dry, melancolious & so
 is Virgo and Capricornus and they have might in
 the South.
 Gemini is airy, hot and moist & sanguine and so is
 Libra & Aquarius & they have might in the West.
 And Cancer is watery feminine moist and flegmatic
 and so is Scorpio and Pisces & they have might in
 the North.

Iam diximus de naturis et signis et eor^{um} complexionib^{us}

Now we have said of natures and sign^es and of the
 complexions of them, so we meane to say of natures
 and of the complexions of germanyes and what they
 signifyeth.

The first higher that is said the old Sabaday is Satur=
 nis the nature of w^{ch} is cold and dry for that is

[7^v]

much straight and melancholious and signifyeth father and wroth and discord in lands.

The second is said Zedek and he is temperate for that he is betweene the old Sabady and the hott Madyn and Zedek is hott and moyst and sanguine in savor sweete & it draweth to good ayer, and it signifyeth good and honor and vertue.

The third is the fighter Madyn and he is hott and dry evill and lover and bremer, ravisher & a lyer.

The fowrth is Hamyna Sol middle among other hott and mighty and worshipfull and all thither brethren shameth or dreadeth him and he is much soothfast and strong.

The fifth is the fayre Noga colde and moyst, glad flegmaticke fatt and fleshy and well seeming in all her members and chere, and he signifyeth good soughts and he is much glad among wemen.

The sixt is the writer and the forespeaker Cocab, this holdeth himself wth all & serveth to all, and signifyeth writers and tydings and voyces after that he shall be wth it yt w^{ch} everich^e he holdeth him self, when he is wth it The viith brother is Labona & it is Malx and it is colde and moist and it signifyeth brethren and beareth each moneth and manndem^{ents} of brethren to brethren after that it is severed from them.

Deinde loquamur de septem fr̃ibus quare dicuntur

clavis &c And then speake we of the vii brethren why they be said the keyes of the world (and w^{ch} this world may not excuse neither excuseth) and these were formed as 4 brethren w^{ch} be said the 4 elements, and they have after signification witt and discretion & might complete and honesty and strength, and everiche may do in his hemisphere that is empire as an Emperor in his empyer, or as a prince in his Lordship. Also they have might over the 7 parts w^{ch} we sayen clymates. And

[8]

knowe thou that these be mighty upon all beasts heere formed.

And Salomon said prophets clippeth these brethren vii quicke spirits, and holy and wise men said that they were 7 lampes burning or 7 candlesticks of light & of life, and all prophets clipeth them 7 heavenly bodyes w^{ch} be vii planets and of commonalty they be said 7 starres. And the 7 brethren be kept of 4 beasts full of eyen before and behinde w^{ch} be the partyes of heaven East West north and South, and they have might in the 4 parts of the worlde and in 4 tymes and in 4 natures wth her complexions and wthal her parties and in all her 4 elements and wth these together is hed and meevd all things moveable by the Commandements of God that put them in their places.

Dixit Salomon sicut fuerunt semp status superius

Salomon said As there were evermore states above wthout corruption so know^e thou that there is nowe and shall be evermore. And for this we understand the bodyes above cleane and good and made wthout corruption. And that neather-bodyes uncleane evill treated and broken, and eache day they fayleth and bend corrupted And this corruption resteth not neither is made very of the w^{ch} we understand that the neatherbodyes might not excuse the over bodyes. And all things w^{ch} we seene beneath have roote and beginneth from things above ffor things above be wth lyfe and wthout dolor and things beneath be the contrary, have death and dolor And things above have during wthout corruption and things beneath each day fayleth and be corrupted and minished. All prophets seene that if there lacked any one of the over bodyes that is of these that be much above ten thousand betwixt those that we see and those that we not see. Knowe thou that it were a great precipitation and destruction and confusion in lande and in sea and in the 4 elements if

[8^v]

any of the bodyes above were broken or were evill treated And if there fayled one of the 7 brethren the earth shoulde come agayne to his first state, and all the elements were confused. And if any of them had corporally received corruption knowe thou that all things were destroyed that received soule or lyfe. And knowe thou that as the 4 elements be turned downeward so be they not turned wthout some reason of the 7 above And this sayeth the Phil^{ilosoph}er when the sonne is destroyed eache lyfe and eache soule is destroyed. And when the mone is destroyed the ligatures or buildings of the sea be destroyed. And knowe thou that Saturnus is earthly and holdeth all the earth in a ballance that is not moved. And Jupiter holdeth the ayer, and Mars the fyer, and Sol the day and men, And Venus holdeth the fayre parts of the worlde, and Mercurius reasons and Luna holdeth the hearts seas waters and their powers. And know^e thou that everiche (After that it were or shall be in this exaltation) ordeyned and bounden wth the sonne yt^s reasons and words and speches should be good betwixt men. And as often as Mercury were joined in Virgo in the same point wth Sol direct and not retrograde, make we subtill things and reasonable And as ofte as Sol were in Aries, so many yeeres unlike he giveth us. And as ofte as Saturnus were in Libra so many mutations he giveth in landes. And as ofte as Jupiter is ioyned wth Saturne in an earthly signe so many divers mutations or changings he giveth. And he changeth lawes & seates and Lordshippes and thus understand thou in other complexions of planetts after the states of them and their beholdings that is said Aspectus.

[9]

Ex dixit Hermes istam rationem super capita oia &

And Hermes said this reason upon the heads of beasts Saturnus hath the right eare, Venus the lefte and Sol the right eye and Luna the lefte. Mercurius the mouth. These 7 hooles have they in power above upon the head of a man. And Salomon said that a man is a measure w^{ch} is said Palmus made wth hande in w^{ch} bene all the vertues of the worlde and of the 7 planetts and that is only the head of a man wherefore everiche man is likened to his starre and to his elements.

And Salomon said when I founde a spirit above re= trograde or combust or evill treated thus I say that his body was evill treated beneath in w^{ch} it was like or he signified in it. And who that were so wise that he knowe his signe and his planet and his starre above and his signification he might do good and evill to himself & likewise so to other men. And as the nativities of beasts be denyed such wurchings you shall do wth helpe of God.

Postqua diximus de 12 signis et planetis &

After that he said of the 12 figures & planetts & of radiis of them we say that eche planet that were in Ascendent and if there be another in the same As= cendent it is named coniunction, and how much the latitude or bredth shall be lesse so much the coniunction is said to be stronger and if there be more latitude the coniunction is the feebler. And so I say to thee in the middle of heaven. And if the poynte of the 12 houses w^{ch} be in the stronger places of all houses I say the poynte of the first degree of the house, and eche starre that were lesse and hath upon himself another the like is said that it hath power and goeth upon another

[9^v]

from starre to starre And thus each starre that diverseth from another by 60 degrees before and after It is said aspectus sextilis that is the sixt beholding And each planet that differeth 90 degrees before and behinde It is said in aspectu quarto that is in the fourth beholding. And each planet that diverseth or differeth by 120 degrees before and behinde It is said in aspectu tertio, that is in the third beholding. And each planet that differeth by 180 degrees is in opposition in that that it is said in the contrary place. These be the 7 beholdings and no moe duo tertii, duo quarti & duo sextile and unus opposites that is to say twayne in the third, twey in the fourth, and twey in the sixt and one contrary against another. The coniunction is complete then they be in one degree Double coniunction if twey good or temperate sheweth double good, as twey evill by the contrary sheweth much evill The sextilis beholding the ascendent avayleth one good if trino and twey trino avayleth in the beholding ascendent one good fortunate in the ascendent. And twey quarties in the beholding the ascendent avayleth one greivous or heavy (if there were evill starres) and twey opposita avayleth one infortunate in the ascendent or in the opposite. And twey quarti avayleth as much as a starre falling or combust or retrograde this is letted in the Ascendent one fortunate or twey in the Ascendent and another of sextile and another of trine beholding the ascendent sheweth much good hasty or highing Twey evill in the ascendent or one wth another in opposito that is in the contrary or falling sheweth

[10^r]

grievous or long impediment. And if they be falling and
 letted it shall be worse. One fortunate in the Ascendent
 beholding of twey trinis it sheweth much good and how
 much there were no witnesses upon the figure of
 w^{ch} thou enquireth and searcheth or fo w^{ch} thou worchest
 so much it shall be the better And if three planets be=
 holden the Ascendent wth good beholding and twey evill
 the good shall overcome the evill and so of the other
 One infortunate in the Ascendent beholding twey quar=
 tis sheweth much greefe. Caput draconis is much
 better than Cauda Eache planet in his head of the same
 degree it more Lordship in the figure for that it is twey
 in latitude to the way of the sonne and it profiteth in
 going toward the party of the north. Eache planet in
 the taylor of the dragon is minishing of his worke yt
 goeth towards the south.

Luna coniunct or Joyned wth Saturne and Mars in
 the Ascendent it constrayneth and threatneth divels
 Satunus maketh divels strength & great power

Luna coniunct or Joyned wth Jove and Venus in the
 ascendent it sheweth great dilection and great love
 in every good thing.

Luna joyned wth Mars & Saturne in the ascendent it
 sheweth impediment except the planet were of good
 receiving.

Luna joyned wth Sol in the one poynt sheweth great
 grace and if that they were good

Luna ioyned in falling and to mercury in the
 Ascendent it sheweth the contrary

Luna in the ascendent by her self signifyeth after the
 planet to the w^{ch} she is Joyned

Luna wth Caput draconis in the ascendent sheweth good

Luna wth Cadua draconis or combust or ioyned wth

[10^v]

a starre letted or in evill sitting it sheweth much evill when caput draconis and Luna were wth capite Saturni or that Luna or Saturnis were there and that their werke of celson made it signifyeth upon buildings of devills fowle and evill.

Each planet that is wth dracon of another & both be ioyned together it sheweth a very soothe or try worke and more in the ascendent. And if caput draconis were of Jovis or Luna and these twey coniunct or Joyned in the ascendent it sheweth much good and in= ceasing of good and honor And if it were in Cauda not only when there were twey Cauda draconis that is of Luna and of other they be full evill when Luna were wth them. When Caput draconis Luna were wth Caput draconis Martis and Luna and Mars in the like poynt it sheweth strength and might. And if Cauda wth Cauda and Luna wth Mars together it is full greevous and evill after everiche is evill so is the place or beholding of one another.

Caput draconis and Luna in capite. Aries (Luna & Sol in Zamin) sheweth great might and great honor and by the contrary in Libra beneath wth Cauda dra= conis. Caput draconis wth capite veneris sheweth much love and cauda draconis the contrary Caput draconis that is to say mercury wth caput draconis and Luna sheweth werke of reason and of voice and many sounds, and in Cauda Luna wth Mercury & Saturne it sheweth us the beholding of many experiences.

Luna in capite sui draconis sheweth and if there Were Jupiter or Venus it shall do the werke of Jovis or of Venus and it shall profit in all good worke as these be good. Luna if it be in Cauda draconis and Mars

[11^r]

and Saturne wth it or that they beholdeth it wth evill be=
holding it sheweth as evill as we have said of Saturne
and Martis.

And we have said that Saturnis nourisheth devills and
Mars draweth and thresheth and figureth them. And
Saturnus gathereth together many divels Venus and
Saturnus gathereth together devills and wyndes from
beneath. A good starre in the ascendent and Luna
Joyned wth a good starre sheweth much good. And the
beginning in all hit in w^{ch} were d^eus quartæ that is
the Lord of the 4th house and if the 4th house is well
beholden of good, all the one of the thing shall be good
And when the Lord of the 4th house were evill and evill
intreated it sheweth noy and evill. The signe of the
Ascendent sheweth the body o— The Lord of the Ascen=
dent of the planet that is in the Ascendent or w^{ch} behol=
deth it sheweth his spirit and the Lord of the hower
signifyeth his soule and his will, and this understand
thou in other dones The body and soule and the
spirit for these three knowe thou that they maketh the
body of a man safe and whole.

Dixit Hermes Saturnus exaltatur in Libra &c

Hermes said Saturnus is enhanced in Libra, and
Jupiter in Cancer, and Mars in Capricorne and
Sol in Aries. And Venus in Pisces and Mercurius
in Virgo and Luna in Tauro.

And knowe thou that Saturnus gladdeth or Joyeth in
The xii house, and Mars in the vith and Sol in the
ixth and Venus in the vth and Mercurius in the Ascen=
dent that is the first house and Luna in the 3^d house
And the Ascendent hath 12 vertues, and each planet
that is in it upon eache place of the circle. The xth

[11^v]

house hath xi vertues. The xith house hath 10 vertues. The viith nine, the 4th eight vertues the vth house hath 7 vertues, the ixth house hath 6. The third 5. The second 4. The 8 three, the xiith two and the vi house hath one vertue. And evermore consider thou in all things, that thou shalt do upon the planets how it be in the xii houses & thou shalt profitt if thou choosest well. And Salomon said to eache man that worketh by this booke, It behoveth that he knowe all these things, that is reasons w^{ch} heere I will not expound to thee, that is thou knowe in w^{ch} tyme of the yeere thou were borne of the 4 tymes of the yeere. And in w^{ch} moneth of the moneth of Luna And begin thou from the Lunation of the moneth of Mercury (where ever Luna prima were) And all Secrets and privity be it asked in Saturne wth all deepenes, and honor and substance be it asked upon Jove. And all strifes and battaile and hasting be it asked upon Mars. And all cleannes & Lordship of sol. And all fayrenes and dilections or loves and fatnes be it asked of Venus. And all reasons & witts & subtiltyes of Mercury. And of these 7 thou shalt aske evermore counsel where thou findest them in their houses and signes And they shall shewe to thee so deeme thou upon them in all good and evill. Now we have fulfilled heere wth the helpe of God The treatisy that is said *Liber Clavis* That is the booke of the Key.

Heere endeth the first booke and heere
beginneth the second

[12^r]

Dixit Salomon sicut ala avium sunt membra &c

Salomon said as the wings of the fowles or byrds be members that leadeth the fowles to the place where they desire to be, so by the vertue of stones & of herbes and of beasts, that liveth in flying, in swimming in going and in creeping thou might attayne to that thou wilt if thou chooseth the nature of them.

The properties and vertues. And therefore we clipeth this booke Ala that is wings for wthout wings neither fowles neither fishes mought move themselves, and so as winges beareth bodies to highnes upwards and to fundaments downwards and to Longitude and latitude that is to length and bredth, so by the vertue of stones and of herbes wth grace and wth much might of Semiforas Knowe thou that thou might attayne that thou coveteth to do as to heale and to make sicke or to stande or to goe.

Dixit Salomon sicut lapides sunt mundiores &c

Salomon said as stones be cleaner cleerer and fayrer then golde and in vii vertues of this worlde as be in stones herbes wordes and beasts, so I say that in the beginning of this booke Cephaz Raziel that was crowned wth vii stones of great power he put them in this booke The first was Rubinus – i – Carbunclo the second Smaragdus, the third Saphirus the fourth Berillus, the fifth Topasius, the sixt faguncia, the viith Adamas and the vertues of these stones Raziel hath spoken. And he said that they were crowned of 7 angells w^{ch} have might over the 7 heavens and of the 7 dayes of the weeke. And Raziel said knowe eache man that hath this booke that in this booke be the more vertues of this worlde And the first vertues of this booke that is said of 4 wings be the

[12^v]

vertues of stones whereof knowe thou that by stones alone thou might do wonderfull things if thou hast well knowen as thou shouldest doe wth all other Images and that thou keepe them clenely and reverently.

De prima ala

Et dixit Salomon scias quod in prima ala sunt &c

And Salomon said knowe thou that in the first ala or winge be 24 precious stones great and of great power to the similitude and signification that there be 24 howers in the day and night. And Salomon began & said I put and sett the first stone car=

- 1 bunculu Rubinus for that it is brighter and cleerer and fayrer and of more price above all other stones And I will say of his color and his power and his vertue, and of his seale and of his figure that might to be in it. And thus I shall say in all other stones, eache stone signifyeth durability or lastingnes wthout end. The color of Rubinus is as the color of fyre sparkling and his power is that he shineth by night as a starre or as a flame of fyre sparkling. And the vertue of it is that it maketh good color of men that beareth it reverently, and it encreaseth his goods of this worlde among other men, and the Image w^{ch} thou oughtest to putt in it ought to be a draco that is a Dragon well fayre wth dread.
- 2 The second stone is Topazins of w^{ch} the color is citrine as of golde. His power is that if it be put in a caldron wth fervent hott or boyling water it wthholdeth the water that it may not boyle, w^{ch} is for great power for making colde, and the vertue of it is that it maketh a man chaste that beareth it wth him and it giveth benevolence or well willing of great Lords and his figure is a falcon.

[13^r]

- 3 The third stone is Smaragdni and this stone is greene and fayre upon all greenenes, and it is not heavy as others are and his power is to keepe the light and it healeth the face and it doth many wonderfull things. And his vertue is to increase riches, and who that beareth it in golde prophesyeth things to come. And the signe of it is Scarabeus that is a maner of flye.
- 4 And the iiiiith stone is Faguncia the color of w^{ch} is redde as the graynes of an apple. Of these sothely there be well coloured some and some a little and some in the middle maner. His power is that beareth it is not infect wth alien infirmity, his vertue is that is that he giveth health and hono^r and keepeth the man that beareth it whole in wayes or in Journeys, and his figure is a Lyon well figured.
- 5 The vth stone is a crysopazine of w^{ch} the colo^r is greene and when it hath similitude as though it had golden drops, and his power is to defend a man from the Podagrie, and his vertue is that it maketh to prophesy things to come (if it were in the hand cleane and chast) and his figure is the image of an asse.
- 6 The sixt stone is Saphirus the color of w^{ch} is full leady and fayre (as the color of the pure cleane heaven) His power is that he healeth all infirmityes that axeth in men of Inflammation and greevance of the eye. And it clenseth them much. And if in this stone be graven the head of a man wth the beard it delivereth a man from prison and from all pressure and oppression and this stone accordeth to the great power of Lords & of kings If this stone be kept clenely reverently & chastly, & that it be good oriental wth it a man might attayne great honor and the profitt of it that he searcheth and coveteth And some man putteth therein the signe of a ram. Aries

[13^v]

- 7 The viith stone is Berillus the color of w^{ch} is of the eye or of sea water, and some of them be round and some of five corners. The stone ought to be cleere w^{thi} in and cleane. And his power is to chaffe the hand closed of him that beareth it. And if it be sett in golde it giveth great frindshippe betwixt twey men, if thou touchest them wth it. And his figure is Rana that is a ffrogge & it is of great power to make concord and love.
- 8 The viiith stone is Onyx this stone is full blacke and his power is to give him that beareth it many dreadfull dreames and dreads, and he that beholdeth himself in it hath power upon all divels in constra= ning them and in clipping and gathering them to= gither in speculo tabilio conjuring as it behoveth and his figure is the head of a camell or twey heads betwixt two eares that be said Mirti
- 9 The ixth stone is said sardius the color of w^{ch} is red and fayre, and his power is to make other stones fayrer his vertue is to give good color to him that beareth it. And it is putt in golde, and if there be graven in it Aquila that is an Eagle it giveth great hono^r
- 10 The xth stone is Crysolitus that is of golden color and sparkling as fier. His power is to gather together divels and windes and his vertue is to defend the place where it is from evill spirits and from dead men that they do not there any evill and that divels obey there. And his figure is Vultur that is a wontor
- 11 The xith stone is said Eliotopia. And it is a stone of great power of w^{ch} the color is greene and fayre shining and cleere wth drops like bloud well redde w^{thi} in this stone is said the stone of wisemen of prophets

[14^r]

- and of philosophers. And this is honoured for twey things for the color is like Smaragdo in greenenes and in rednes to rubine. The price of this stone overcometh the price of other and of his vertues and propertyes. The power of this stone is that if it be put in any broad vessell full of water to the sonne it resolveth the water into vapor And it maketh it to be rayseed upward till that into the forme of rayne it be converted downeward. His vertue is that who that beareth it in his mouth or in his hand closed he may not be seene of any man, wth this stone a man may have power upon all divels, and make eache Incantation or Inchantment that he will. And in this stone ought to be graven Vespertino thus he sayth. But I trowe it be Vespertilio that is a Backe or a rermouse.
- 12 The xiith stone is Cristallus of w^{ch} the color is of water congealed wth colde. his power is that he putteth abstray of fyer from him. and his vertue is that he increaseth to nourishe much mylke and good. and thou may take in it what vertue thou wilt, after as the hower shall be in w^{ch} thou shalt work^e. and after as the Image shall be w^{ch} thou hast made (although they be many) and yet be seene easily. Knowe thou that it hath many vertues. and his figure is a gryffon that is a fowle and a beast that he hath 4 feete & 2 wings and he is a great beast.

This is full dreadfull and greevous and strong in worke. And if thou takest the Joyce of it and the Joice of cicuta and Jusquiami and sapsi barbate and san= dalu~ rubr~ papaver nigr~ wth confection made fume thou what thou wolt and thou shalt see devills and things and strannge figures And if Apin were wth this Knowe thou that from eache place suffumed devills should flye, and if thou wolt thou might de= stroy evill spirits. Heere endeth the 24 reasons upon the vertues of herbes of the second wyng and these experiments were new writen on party in Raziel although Salomon put two of these three of the sawes of hermes And the herbes be put in the booke of Raziel for that wth them we may be excused and worke wth herbes as wth Semiforas wth fasting and wth words in good and in evill And let no man Joyne himself to Semiforas till he knowe himself the first and in the second And thus we shall say all thing that shall be to us necessary wth the helpe of God.

De tertia ala

Dixit Salomon super ala tertia sicut corpus solis &c

Salomon said upon the third wyng as the body of the sonne is more appeering and mighty upon all other bodyes and brighter and fayrer and cleener So the vertues of sensible beasts w^{ch} flyeth and sendeth out

[20^v]

voices and sayeth And so beasts of the third wyng have power upon the twey first wyngs of stones and of herbes And he put therefore in the Raziel 24 beasts wth their names and vertues and states. And the figures be 24 distincte or departed a twey. And I would putt upon eache Element 6 beasts everiche distinct from other and everiche of his kynde. And as the fyer is the high Lord and distinct from the 4 elements so the lese of them all is purer and Cle=ner among them. Therfore I beginne to say upon the beasts of fyer ffor as everiche of the 4 ele=ments hath his beast beneath so the fyer hath his above pure and cleane wthout corruption And this fyer that is above is not expounded of wax trees neither of oyle neither of other composition but it is simple And the things that liveth in it beth angels cleane and cleere and bright like to the beames of the sonne or of a starre, and like to the flame of fyer or of a sparke of fyer or to the colo^r of quikesilver or of pure golde. And this similitude is naturall in the beasts of the fyer And the figures of them bene seeme such as the lightening in similitude and in deed for as an Evrizon is a messenger to the creator so they be ready anon to good and evill and they seme like things & prophets that upon the 4 elements be heavens wth their beasts of w^{ch} we should say furthermore.

The second spirit is much cleane but darker then The overer and it is likened to the wynde & his figure Is after that he would take after some of the 4

[21^r]

- Elements to w^{ch} he is Joyned. And he formeth himself in this maner either by water or by cloude or by moistnes or by thicknes of some darkenes or he receiveth some body as fume of some kynde by falling on it either by voce or by shape of a beast elemented by these he taketh forme after that the nature above disposeth
- 3 The third beast of w^{ch} wise men sayne is that evermore he fellowshippe a spirit And most the corpulent and thicke of the spirit And therefore his figure is found by night in places of dread and it is heard and seene and that ofte tyme and the color of it is like to tpari 1 after the nature of hower ere it is made, otherwise to the similitude of the body of w^{ch} it went out of, wherfore some men seith otherwhiles the soules of bodyes in church hayes And of these soules said the wise Hermes and the prophet that the soule that goeth out & hath might is not neither was but a man or a woman And upon such maner of soules speaketh wisemen and clepeth them spirituall for goodness heavenly fro[~] symplenes.
- 4 The iiiiith beast is the wynde eache day we heare that we seyne not although we other & hearen not. And the worke of the wynde be seene of the eyne after the part from w^{ch} they cometh And he hath such nature that if he be orientall or meridionall that is East or south he is hott And if he is occidentall or septentrionall that is west or north he is colde This we seene to have great power for it beareth cloudes and waters and tempests and gayles and it stirreth and troubleth the seas and breaketh tree, and this is said quicke ayer as the fyer above is said quicke fyer and simple. And therefore the elementes above said double or twey folde That is to say fixe &

[21^v]

moveable, moveable it is because it dwelleth in the corners of the earth although it descendeth from above ffor the 7 above byndeth and loseth it for of them it descendeth and of them it was formed & this is a great figure in sea in Ayre and in land as it cometh temperate.

- 5 The vth beast or vision is a fantasy that is a shade to the similitude of divers colors or maners come pounded of divers together And this forme is made in desert place or in a corrupte ayre or otherwhile it descendeth from hills to the similitude or lightnes of knights, and they be said exercitus antiquus, that is an olde house And otherwise upon matters to similitude of fayre women and well clothed or in medes, and some say that they be face^s. And otherwhiles this befalleth in a man, for corruption or malice of complexions and of humo^{rs} that be in a man And they be said Demoniaci for that it ascendeth the head and falleth upon the eyne and such corruption maketh to see many fantasies
- 6 The sixt beast is said Demon this descendeth in highnes to lownes ad he was formed of pure matter wthout corruption wherfore he fayleth not but shall evermore dure although he hath taken thicknes in darknes of the lownes of the earth. And he is pure in matter and strong in body And of this sayth the wise man that he knoweth all things that is, And by him Philosophers have answers and wise men all things of w^{ch} they would knowe the soothernes and he dwelleth evermore in darknes and in obscurity and he is never severed from them

[22^r]

And of this sayth the prophet that he hath power of taking away forme and shapes of w^{ch} he would in the earth after the will of the creato^r And he said a bright angell mighty and fayre as the forme of the sonne and of the mone and of the starres or of an angell or of a cloude or of a fowle or of a fyshe or of a man or of a beast or of a reptile that is a creeping beast or any other forme w^{ch} he woulde And all these abovesaid wthout them knowe thou that they be impalpable or unhappy to be felt. That is that they neither may be taken wth hand nor towched wth foote for they be spirits or wyndes And knowe thou that everiche of the abovesaid when it befalleth in the elements he taketh a body of them although the lyfe of them be of fyer And the dwelling of them in the fyer and their deads fury for they be fury. And Raziel said upon these vi that invocation of them and opening and constrayneth and bynding and losing and also to do good and evill by them All is made wth cleanes and therefore who that would clepe them or have the service of them & wth orison and fasting and fumigation and wth praysing of God must do as Heere= after thou shalt heare furthermore.

 the property of him is that whoever taketh the hart of
 him and wrappeth it in hony, and the assoone as he may
 swallowe it and drinke the mylke of a white cow of a
 red or of a blacke. Know thou that it maketh a man to
 say things to come. And he hath another vertue for
 who that cutteth the necke where the cocke croweth
 not neither may be hard neither the voice of an hound
 neither where wheate is sowen and when he cutteth
 if his necke inclepe he devils, and then bear^e he wth
 him the half deale of the bloud and of that other half
 deale anynt he himself and evermore shall go wth

[23^v]

- him one of the devills that is to witt he whome he
 can inlepe w^{ch} shall say to him many things
- 6 The vith is said Ciconia that is an haysoucke who
 that fleyeth him in the day of Luna and taketh the
 bloud of the hart of him and anoynt himself wth it
 And eateth the flesh with somine fæminli and wth
 cardamoms and garyophillo And eare he eate it
 suffume he himself wth good odors and wth thure
 masticke and cinamom and other such. And know
 thou that he shall have grace of enchanting
 w^{ch} he woll and of coniuring and constraining
 the spirits of the ayer and other spirits that goeth
 upon rivers and wells These vi fowles abovesaid
 bene ensample upon all other And when thou wilt
 knowe the vertue of any fowle do thou after the
 precept of this booke.

Raziel upon the booke of visions of Angells upon
 the beginning of tymes in the 12 months as heere
 after thou shalt see furthermore

Dicamus de visibus mavis et alys &c

- Say we of fishes of the sea and others upon vi of
 Them that is to witt of the more and the middle that
 I should shew the vertues of them.
- 1 The first fishe is Balena the fatnes of w^{ch} made
 liquid and kepte by the space of vii yeeres & more
 for how much it is thelder so much it is the better
 it healeth a man from eache gowte and evill mynde
 if he anoynt himself wth it. And if he annoynteth his
 head wth the bloud of him it helpeth him much and
 yeeldeth him strong and more whole and it maketh

[24^r]

- him to see true visions. The sperma of him is said Ambra
 If they suffumeth tombs wth this it gathereth together
 The spirits above downwords and each petition & axing
 It maketh to give answeare. And Hermes said There is not
 suffumigacions for to inlepe spirits as Ambra & lignum
 aloes, costus, muscus' crucus and bloud of lapwing wth
 thymyamati for these be meat and drinke & gladnes
 of spirits of the ayre, and these things gathers them to-
 gither strongly and full soone. And wise men sayne that
 the sperme and bloud and hart of a Balene be princi=
 palls for to command the wyndes & spirits
- 2 The second fish is said Dolphin And he is the king of
 the sea ffor as the eagle hath might among fowles
 and the Lion among beasts so in this maner hath the
 dolphin in the sea. And who that annoynteth wth the bloud
 of the clothes of twey friends it maketh them enemyes
 or casteth the dry bloud upon them. And who that bea=
 reth the hart of him maketh him hardy
- 3 The third fishe is Cancer this hath vi feete take
 and brenne him in panno livido and wth the powder
 frote thy teeth softly it healeth them and maketh them
 fayer, and cureth the canker in the mouth, if thou
 casteth it upon the fyer wth somewhat of Stercoris
 humani combusti it gathereth together spirits.
- 4 The fourth is bright as an horne betwixt palemes
 and whitenes that is to say piscus candis or sepia
 This fish hath many propertyes and that knoweth well
 enchantments and prophets w^{ch} made wth this their
 enchantments and transfigurations so that when
 they would that a house should seem full of water
 or that a river should enter by the gate They tooke

[24^v]

this fish and wth thymyamati and ligno aloes and roses they fumed an house and they cast therein of the water of the sea, and then it seemed that the house were filled wth water And if they cast bloud therein then it seemed all bloud, and so if they cast snowe there= in it seemeth snowe. And when they would that the earth shoulde seeme to quake then they cast therein the earth of a plowe, and so the made there divers similitudes in all things according or after the thing w^{ch} they put in the fumigacion. And knowe thou that it dweth so much and so long as the suffumigacions is or lasteth in the house. And wth the gall of him also they made many enchantments, ffor that this beast is much unlike to other.

5 The vth fishe is Murena and he is lentigous the vertue of it is that enchanter beareth the powder of him wth them to make enchantments wth.

6 The vith fishe is Rama viridis And if thou take it or touché it upon what woman thou wilte and nempnest the names of the Angells of the moneth in w^{ch} thou werthe borne as I thinke w^{ch} be furthermore wthin in libro visionn^{is} thou might do both good and evill of what woman thou wilte, and know thou that of these fishes and of all other thou maist knowe the vertues of moneths and understand thou by like things in all other things.

Primie animal est leo ista bestia est valde fortis

The first beast is a Lyon This beast is full strong in The brest and in the cheeks And he is of strong beholding

[25^r]

and looking so that when other beasts seeth him they be moved together wth dread and the skynne of him is of full vertue that if it be putt with other skynnes it destroyeth them and maketh them bare. And who that taketh the biting toothe of him that is cleped dens caninus and putteth it in golde it is good to take away and to take alyen things and the same doth wolfes toothe. And if thou maketh a purse of the harte of a Lyon full of bloud musco & almea et ligno aloes thymyinati and it were gathered & put upon whome thou wylt and thou maketh it hott. Know thou that in that hower he shall love the much and shall doe thy bidding. And if thou inclepest wth the bloud of a goate the prince of Divels he shall be ready anone to do thy commandement and so more kynge or he for whome thou doest, and the same I say for great women.

- 2 The second beast is Elephant that is an Oliphant and He is ful great, and when he is risen of hard he lyeth & when he falleth of hard re riseth, for that thereto he hath no knees disposed well, and the bone of the teeth of him is said Ebur that is Ivory. And if it be put in electna= ryes it comfoteth the feebleness of the hart as much as margarita and more. And the bloud of him wth the liver comfoteth much fasting.
- 3 The third beast is Cerbus that is an hart w^{ch} liveth long for that he remayneth as the moone or as an egle who that maketh fumigacions of the hornes it chaseth away serpents, by it self it chaseth away devills.
- 4 The ivth beast is Catus that is a catte and he seith better by the night then by the day, and who that ta= keth of him and of an Irchen and of a rearemouse and maketh of Alcofol & Alcofolizeth or noynteth his eyne he seith well by night and by day. And if thou putteth

[25^v]

- therein the eyne of an asse thou mightest see whether the spirits and devills of the ayer goen
- 5 The vth beast is Mustela that is a wesell, this bringeth forth her Issue at her moneth after the sayeng of the poets but not of philosophers, this helpeth much when he is brent, and the skynne of him is written for to cause love betwixt tweyne
- 6 The vith beast is Talpa that is a molewarpe and dwelleth under the earth and is likened to a mouse wth this beast thou mayest make to come tempests pestilence, hailes and lightnings & cornflations and many evill things if thou putteth him bare or naked upon the earth dead and overturned, and wth this beast thou mayest make discorde and concord wth whome thou wilte, for he is a cursed beast, he healeth a man of the festure when he is burnt or powder and Cast in it.

— And when thou wilt knowe the vertue of other beasts do as it is said in libro visionn^{is} upon w^{ch} aske thou this of the Lord of the vision that is that it appears to thee that thou askest and covetest to knowe of beasts w^{ch} thou wylte.

This beast seith not neyther hath eyne. And know thou that the vision of moneths is upon all things that thou askest or would knowe. And God shall be wth thee if of right thou aske. And knowe thou that heere is fulfilled the third wyng And now begin we the fourth wing w^{ch} is complete or fulfilled upon all the elements.

Dixit Salomon sicut corpus vivu~ &c

Salomon said as a quicke body mylde or great is

[26^r]

not moved with their feete neither any fowle lesse then wth two wings, neither the world is governed with lesse then wth fowre elements may not neither might not be lesse then wth 4 wyngs w^{ch} be said to be 4 vertues wherefore Raziel said that who that shall be filled wth this booke shall be as one of the prophets, he shall understand all vertues of things and powers of them and if he wthholdeth and worcheth he shall be as an angel. And therefore he putt in this booke 22 elements of great vertue that is 22 letters or figures w^{ch} the sonnes of Adam might not excuse.

Now we have said upon the fowre wyngs upon the
22 letters that be upon the lawes of the table written
And know thou that there be no moe but onlye 22 letters
W^{ch} be the roote of Semiforas for wth them it is formed
And is caused and is made and wthout them I may not be

¹⁶ Two forms of *peh* (*peh* and *peh dagesh*) are given, but no *shin*.

Now we have said upon the forew^e wynges upon the
 22 letters that be upon the lawes of the table written
 and knowe thou that there be no mo^r but onlye 22 letters
 not be the wote of Semiforas for out of them it is formed
 and is consod and is made, and what bym it may not be

[27^r]

And some men said that Camalie found them. But it is not sooth ffor the angell Raziel gave them written to Adam in this booke that is said liber ignis, and wth them all the booke of Semiforas written. And knowe eache man that readeth this booke that the Creator said to Raziel to be the names of Semiforas wherfore if thou canst transpose these 22 letters or figures as it beseemeth thou shalt attayne the great name of thy Creator and wth it thou might do what thou wilt evermore wth Cleanesse and wth the helpe of the Creator. Now we have fulfilled this booke of the wing like to the angels that is Pantaseron Mucraton Sandalon for everich of these hath 4 wings by commandement of the benigne angell w^{ch} the Creator sent to me that this booke were better compounded and well ordeyned.

Heere endeth the second booke & beginneth
the third book of Thymiamatibus

Dixit angelus Adæ fac Thymiamata &c

The Angell said to Adam make thymiamata
Thymiamata be confections of good odors wth w^{ch} thou shalt suffume (and thou shalt please to Creacion) and thou shalt attayne what thou wylt by this
And they of w^{ch} they be made be petition things w^{ch} thou shalt fynde and of good odor and of good nature, and of cleane things. And when thou wilt do it be thou cleane of wth out all fylthe and then the angell rested in that hower And Adam remayned and did what he might And this Salomon expounded and said I marvaile why this is the booke

[27^v]

of Moyses also ffor the Creato^r said to Moyses
 make thou Thymiamata and suffume thou in the
 hill when thou wilt speake wth me wherfore Salo=
 mon said suffumigacions sacrifice & unction maketh
 to be opened the gates of the aire and of the fyre
 and of all other heavens. And by suffumigacions a
 man may see heavenly things and privatyes of the
 Creato^r And each man knowe that they thirleth
 The earth water and lownesse And Salomon said
 As there be 7 heavens, 7 starres & 7 dayes in
 the weeke of w^{ch} everiche is distinct and is not likened
 to his even. So knowe each man that there be 7
 suffumigacions w^{ch} wth holdeth wth them the vertue
 of the 7 starres, and maketh glad the spirits of the
 ayre and the angels of heaven and Divels of angels
 of the worlde. And therefore for a man yeeldeth to
 them hit, that is theirs. Therefore they be pleased
 and well apaid for the words w^{ch} thou sayest of
 sayest the names of them or of the Creato^r. And for
 this that thou doest when thou washest thee and
 for the gift that thou givest to them when thou
 suffumest, and these things yeeldeth them earthly
 and appearing to thee. And that spirituall & invisible
 that is, that neither evill men neither beasts
 mongst see thee if thou doest it strongly about thee
 and about whome thou doest it.
 Thymiamata is made of many things, and these be
 Principally upon the vii dayes of the weeke And first
 say we of thymiamata of the Saturday for the starre
 of him is higher & the angell of him is mighty in y^e earth

[28^r]

- 1 The first Thymiamata ~~is~~¹⁷ of the Saturday ought to be of good things and well smelling rootes as is costus and herba thuris. And that is thymiamata for good, and so I shall shewe all other as it be seemeth to good and Thymiamata to another I shall say in another place
- 2 Thymiamata of the Sondag is thus Mastick muscus and other such and all other good gumes and of good odor in all good and by the Contrary in all evill
- 3 Thymiamata of the Monday is foli^s myrti and lauri and leaves of good odor and so understand thou in his contrary.
- 4 Thymiamata of the Tuesday is Sandalus rubeus niger and albus and all such trees and eche tree of Aloes & cypresse and so understand thou of each tree.
- 5 Thymiamata of Wednesday is made of all rindes as cinamon cassia lignea & cortices lanri & muris and so understand thou in the other
- 6 Thymiamata of Thursday is nux muscata gari⁼ ophylli and citruli and the rinde of Aurangiar[~] siccar[~] & pulverizatar[~] that is the rynde of Oranges dry and powdered & all other fruits of good odor
- 7 Thymiamata of the Friday is moas rosa viola & crocus and all other flowers of good odor and in the contrary to the contrary put yow all Thymi⁼ amata stinking
And knowe thou that each Thymiamata of good odor Gathereth together his spirits after that his nature & his color ~~he~~¹⁸ & his strength is Thus I sayd for good good, for better better.

¹⁷ The word "is" is crossed out.

¹⁸ The word "he" is crossed out.

[28^v]

And Hermes said of Thymiatibus that
 Thymiamata of Luna is cinamonis & ligno
 aloes et mastix et crocus et costus, et macis
 et myrtus we putteth this that each of the pla=
 nets have a parte in it, and all this may be Luna
 good and well fortunate by good spices & sharpe
 although Salomon made distinction upon the daies
 and planette of the spices wth the w^{ch} a man ought
 to make thymiamata And he said that of Sa=
 turne is each good roote in good and evill in evill
 And of Jovis all fruite, and of martis eche tree
 And of solis eche gume and of veneris eche
 flower, and of mercury each rinde, and of Luna
 eache leafe, and thus understand thou of all other
 and eche odoriferous herbe is of veneris. And
 Raziel said to Adam that he should make good
 Thymiamata. And therefore said Hermes, understand
 That eache Thymiamata is made of all good things
 as of roote tree rinde leafe flower fruite & gumes
 and yet seeds be put in it as Baccæ & Cardamomu~
 and waxe, and put thou in it all good thing and
 precious, and sithen he said Thymiamata completu~
 And there is some Thymiamata gracu~ or of greeke
 by w^{ch} heather men were wont to suffume Idols
 wth. And yet to this day Churches and Altars be
 suffumed wth it, and it is said Thymaimata Jovis.
 And in soothernes who that useth this Thymiamatibus
 must be cleane and chaste and of all good lyfe and
 will to the Creato^r and he shall profit.

[29^r]

- Dixit Salomon super suffumigata Hermetis q¹⁹ dur &c*
 Salomon said upon the suffumigations of Hermes w^{ch}
 be said beneath and they be seven maners wth w^{ch} be
- 1 made sacrifices some be (and the first) w^{ch} fastesth and
 giveth tei things to the Creato^r, and therefore they
 trust that they attayne to that that they desire And
 it is soothe
 - 2 The second is that they washen & clenseth them
 selves and dwelleth cleane and therefore they trow
 to attayne their petition & axing & it is soothe
 - 3 The iii^d is that they do almes of God and for the
 holy angels of him
 - 4 The iiiiith is that they sleyeth and casteth the bloud
 in the fyer.
 - 5 The fifth is that they sleyeth and burneth all
 - 6 The sixt is that they prayeth much in howers or=
 deyned 7 tymes in the day, and 3 in the night
 - 7 The viith is to make suffumigacion wth good things
 and well smelling and everiche of these did this
 that he might attayne the sothenes of it that he asked
 and so he attained hit by the Commandement of the
 Creato^r.

And know thou that suffumigacion overcometh in all
 Sothely who that suffumeth best to the eye it proveth
 and wth this the wisemen excuseth all other. And wit
 thou that who can well knowe the natures of suffu=
 migacions he might easily nigh thilk spirits w^{ch}
 he would enlepe according to the nature of suffumi=
 gacion And evermore consider thou the nature of
 the spirit and of the suffumigacion, and the spirits be
 constrained by the contrary and be comforted by

¹⁹ The *q* has ^{*a*} written above it.

[29^v]

like things And it is to wytt that as a wise leache
 in giving a medecine to a sicke man removeth
 the sickenes and inleadeth health. So suffumigacion
 if it be good remeveth the contrary from the place
 And wth evill suffumigacion be remeved good spi=
 rits, evill and ill spirits also dreadeth for eache
 thing more loveth health then sickenesse. And ther=
 fore it is said that Sulphur remeveth both good
 spirits and evill, and this is approbation or profitt
 way And there is another way for lignu~ aloes
 and none other, and Sulphur chaseth them
 away and this is very reason And then I say
 that Sulphur gathereth together his proper spirits
 and none other And they be full strong & penetra=
 tive and thicke and be not severed or departed so
 soone from a place But although a place were
 suffumed wth Sulphur, and then were washen
 wth water and suffumed wth lignu~ aloes yet it
 draweth away the spirits of Sulphur or endureth
 or leadeth in his owne. And knowe thou also that
 the spirit of Azet that is quicksilver and the
 spirit of Thuris be contrary Although spirits
 both yet therwth all devills entereth and thirleth
 rather or sooner then the spirit of Thuris, wher=
 fore everich hath full great might, yet and if
 thou wilte wth drawe the spirits suffume thou wth
 thure and they shall go out And so understand thou
 of all other spirits good and evill.
 And Salomon said that as a physicion putteth
 a man pure good oyntmente and cleane and

[30^r]

they thirleth the body of a man and healeth so suffumigations thirleth the 4 elemts and maketh to see and knowe heavenly things w^{ch} were evermore heavenly and w^{ch} descendeth from heavens as be angells & spirits of the ayre and the soules of dead men and divels and windes of spelunke and of deepenes and fantasies of desert place And wherfore knowe thou that all spiritualls wth right fumigacon shall obey to thee, and shall come to thee and they shall do thy co~mandement And Hermes said that all things that was or is present or shall be that the overnature Joyned wth the neather by ordinance or tyme and hower maketh one body and understanding that he can understand and knowe thilke things whereof creatures have to live and themselves to governe. Therfore know thou that there be fumes that Chaseth away spirits and other some that steyeth them and constreyneth them to come, and other that quickeneth them and strengthneth them, and giveth them might, and so by the contrary there be some that destroyeth them and taketh away their might, and this is the probacion of this for the fume of an hare chaseth them away and this he said upon serpents and that chaseth them away w^{ch} is fumus amnecæ that is the fume of feces of oyle and that steyeth them is the spittle of a fasting man. And therefore he said suffumigacion sufficeth to us in all things beneath. And Raziel said knowe thou that as water washeth all uncleanesse and fire maketh liquid or melteth all mettalls & maketh cleane and fyneth. And as the aire is the lyfe of a man

[30^v]

living, and the earth sustaineth or beareth eche body and nourisheth each plant, to understand thou that good thymiamata – i – suffumigacions is fulfilling in the worke to the Invocations of spirits and of other things and well proporcioned wth the w^{ch} Thymiamata is confect or medled, and were in eache hower convenient of according.

Dixit Salomon propter hoc pono hora et tempus &c

Salomon sayeth ffor this I put the hower and the

tyme in this worke for in all howers in w^{ch} a man will speake to a kinge or to a prince he may not speake to them neither in eache hower w^{ch} a sonne asketh of the father any thing he giveth to him. Therefore it is darke to thee to choose the tyme and the hower upon these that thou askest. This is therefore tempus quoddam that is some tyme of Jovis be it done in the day of Jovis and of Veneris in the day of Veneris and Martis. And of Saturne in the day of Saturne. And so of other that be done in Invocations of spirits and in all prayings of Angells. And the fumigacion of w^{ch} is pure and cleane. Knowe thou that it is a spirituall thing and living and fellowshiping to heavenly things. And now said Veallia Knowe thou that no man ought to make suffumigacion of precious things but if it were before cleane, and wth cleane waters well washen and annoynted wth precious oyntments w^{ch} he made cleanly and wth precious things as cera alba, balsamo croco and musco abiatmeca algalia, almea Thure myrrha. Oleo olivary. And this oyntment be it well kept and well warded in a cleane

[31]

place of him after that also the clothings be cleane white newe and good, not broken neither blacke. And the suffume he himself worshipfully, and the maner of suffuming himself ought to be made in vii maners towards the East the North the West and the south, and towards the heaven above, and towards the earth beneath, and the viith tyme all about. And as offe as thou doest this evermore dresse thy mynde unto God evermore, and pray that he fulfill thy will. And knowe thou that I founde in some olde booke that these were the more suffumigations. Thus thymiamata gracul^m masticke, sandulus galbanus^s Muschalazerat myrrha and Ambra and these be collectors of spirits and placators of them. And Salomon said when thou wilt gather together the spirits of the ayre do thou in this maner. Clense thou thy self in the better maner that thou canst and go to a pitt where thou wilt knowen to thee and suffume it and enleape him by his owne proper name and lathe him or pray him and that by three nights, and if he answereth not to thee neither appeareth send thou him to a certaine place or to an house or to a quadrive that is a place where 4 wayes meeteth or to a yard or gardeine And suffume thou the pitt towards the vii parts and in the place where thou bathest also, as I have said And then knowe thou that he shall come, and he shall appeere to thee that thou shalt do this.

Ex dixit Hermes quod spirit qui apparent &c

And Hermes said that the spirits w^{ch} appeareth

[31^v]

in this worlde be these. Some sothely be heaven=
ly and the prophet clepeth them Angels, and
they be bright and cleere as flame or a starre
as we have said. Other be aire and of the aire
and of many colors greene bright and other such
& of many figures. And other be fiery and they be
bright and red. And other be watery and they be
white and as bright as tinne or Iron burnished
or quickesilver Other be that neigheth to men &
be like to a white cloude or to a white clothe
And other be darke and dime and of divers formes
w^{ch} be said Divels w^{ch} be said wth the wynde, and
they be in the deepenesse of the sea and of lownesse
Spirits that bring wth hailes & lightnings
And wisemen clepeth these huge spirits & strong
Now we have said of the nature of spirits and
putt to thy mynde and thou shalt attayne wth the
helpe of God.

Dixit Raziel sicut in are puro claro &c

Raziell said as in the pure cleere and bright &
cleane and peciable aire all things gladdeth
a wyeth of it. So knowe thou that from fasting
and cleannes and washing of water & prayers
luck and orison of the Creator. And for naturall and
cleane suffumigacion and very faith or trust thou
might please them w^{ch} we have said above. And
Raziel said to Adam knowe thou that in all maner
te life of Angells be holy & cleane And the
suffuming or suffumigacion is bread of w^{ch} spirits

[32^r]

liveth And fasting and Cleannesse and Clarity sacrificice wth orison be the house of holy altar soules and trust in the author of good. Wherfore each man that hath these abovesaid in himself he shall attaine or neigh and he shall have profitt.

And Salomon said these be that befalleth in suffumigacions, anon shall come to us fume and then odor and of the fume a cloude ^{^20} of the cloud an high cloude and wynde, and of the wynde ascendeth the cloude higher and of the Cloude an high winde ascendeth higher and is made a soule And of this the spirit is made higher and of the spirit and angell of heaven, and of angells light. And these be caused by cleane suffumigacion. And know thou that suffumigacions be of vii maners. Some sothely sharpe, and other penetrative or percing. Other sweete smelling other stinking, other simple, other meke other of greefe other sothely of peace, or everich of these or of these manners is after his odor savor nature and complexion. Wherfore Hermes said that as coldenes congealeth water w^{ch} is colde, and as water of the sea is congealed wth great, and as Azertacona congealeth the water of wells, and everiche of these congealeth the water one wth coldenes another wth hotnes another by arte another by nature, and the matter is made one body and one gobbet. And knowe thou that good suffumigacion gathereth together and constrayneth and maketh spirits to appeare in the aire, and secret or privy things And it maketh them to take a body wth out eyne seeth.

And Salomon said that as the Adamant draweth

Iron to himself, so knowe thou that suffumigacion gathereth together and draweth the spirits of the ayre, and maketh them to come to the place where thou doest it and will gather them together. And the wiseman said suffumigacion is like to the roote of Arzolle ffor as it Joyneth together gobbette of flesh into one. So suffumigacions gathereth together spirits of heaven or heavenly w^{ch} the 4 elements and they make that they taketh a body, and spirits taketh fulfilleth that be axed of them and that to likenes of a mirror to w^{ch} if there be sett before what figure thou wylte a like appeareth wth in the fumigacion made Cleanly and invocation in the hower after the spirits proporcionall. And Salomon said I will touché somewhat to thee of the nature of suffumigacions, who that useth it much it maketh to see in sleepe or in sothenes grene things and yellowe and divers colors melancholious fumigacion sheweth leady things Sanguine fumigacion sheweth red things, and otherwise it is shewing of purpure color fflegmaticke fumigacion sheweth white things and fayre. *Heere beginneth the fourth booke that
speaketh upon tymes of y^e yeare*

In Dei noie py incipio scribere libris istu &c

In the name of the meeke God I beginne to write this booke that is said or called Cephaz Raziel w^{ch} the Angell Raziel gave to Adam. And it shall speake upon the 4 tymes of the yeere & moneths & dayes wth his night how we should nemepe each thing and knowe each man. That this is said the booke of tymes, and the Angell gave it that is said might and great b²¹ by the manndement of the Creator quicke God & in all things mighty. And for that Adam should knowe all things by w^{ch} he would knowe in this worlde what it is what it was and what it should be in all things in the 12 moneths of the yeere and dayes & howers and that by order and similitude of Cleane fastings and of washings of sacrifice of suffumigacions made by 7 dayes or the

first mone were, and ere the sonne should assende
 his taile the ascendent, and ere the sonne should
 ascend upon his starre Zedek Jovis and they should
 be nempned in this booke by monthe of holy angells
 that have might upon the 7 heavens formed of fyer
 and the beholding of them is of fyer and the life of
 him is fyer. And they seemed clothed wth fyer And they
 be covered wth fyer. And from the fyer the went out
 and in the fyer they dwelleth and they be of great fellow=
 ships mighty upon the xii moneths of the yeere by the
 precept of the Creato^r of it w^{ch} said the world be it and
 all angels be, and were before it, and there be vii
 powers before the face of it, and to eache of them is
 given might and hath a day of the moneth and of the
 weeke. And of them some be standing in environ and
 some be sitting in chaires wth great honor serving
 to the Creato^r, and they be evermore ready and
 bound to go out and to enter, to come and to go and
 to do all good and evill whatsoever is made and to
 enchant and to put downe and to cover prily things
 and to discover or make revelacion. And all this that
 we have said by the manndmt of God, and all the
 more angells and lesse, and the princes of them
 wth their powers wth their odors or wth their fellowships
 they clipeth themselves everiche wth their names
 and w^{ch} be selly . i . heigh or soveraigne evermore
 they praise God the Creato^r w^{ch} formed them. And also
 all the powers of all heavens in the moneth and
 in the day in w^{ch} he formed them and they all
 speaking to himself together as men. And Raziel said
 that these angells wrote these names and this booke.

[35^r]

And he said that there be 7 angells mighty upon vii starres and these bene potestates or powers mighty upon vvi dayes of the weeke And they be keepers of them and of the xxiiii howers of the day and of the vii heavens and of the xii signes and of all other things that governeth the worlde. And Raziel said to Adam beholde knowe and wthhold these vii powers or potestates w^{ch} have power in the vii heavens and the vii starres. The names of w^{ch} be these Sabaday that is Saturnus. Zedek that is Jupiter. Madin that is Mars. Hanina that is Sol. Noga that is Venus Cocab . i . Mercurius. Labana . i . Luna. The names of the vii heavens in w^{ch} they be borne be these Samin raquia Siagum Mahum. Macon. Zebul. Arabeck upon Samyn goeth Luna. Upon Raquia goeth Mercu=rius and upon Arabeck Saturnus and so understand thou of other

The names of Angells that have power upon the vii starres and goeth upon the vii heavens and other while in their chaires be these Capziel. Satquel Samael. Raphael. Amael. Michael. Gabriel.

And the power of these is that Capziel is the power of Sabaday. Satquel of Zedek. And Mamael of Madyn and Raphael of Hanina. Amael of Noga. Michael of Cocab. Gabriel of Lubona. And everiche of these sytteth in his heaven. And the meynes of them all about and there be divers colors as white blacke red yellow greene leady pardi viati medled overgilt and of the color of a pecocke fether and of many other colors These be the Angels that have power upon the 12 moneths of the yeere. The names of the moneths

[35^v]

be these Nisan yar zinantamus abelul Tisirin
 Marquesuam quislep tobez or thebeth Sabat adar
 pladar postm⁹ The names of potestates be these
 And they be 12 capitalls, that is one upon everiche
 moneth of Luna and the rather that is the other is

 helpers more or greater as there be sayes in the
 moneth or many other servants of them. And the afore=
 said Angells a man may knowe all things that is
 to come in everiche yeere, and in everiche tyme and
 in everiche moneth and everiche day and everiche
 hower wth the proper signes of them who that knoweth
 them well if he will knowe of many reynes or fewe
 or when they shallbe or if they shall be or no. and
 the day and hower when they shall fall. And a man
 may knowe by them w^{ch} is his signe and his starre
 and he may knowe of his lyfe if it shall be of long
 tyme or of shorte in the worlde sand other things
 either for a sicke man or an whole, either for a man
 either from a woman. Or he may knowe a subtill un=
 derstanding or sharpe he may knowe what is to
 come and do wth it what he will. And the dayes of
 the yeere or of Solis alone (in w^{ch} may be done the
 worching of this booke) 365 and the 4th parte of one
 day in the week of dayes. the yeere of Luna be other=
 wise 360 dayes or four howers and 46 minutes
 after the yeere of Luna. And the fulfilling of tyme
 in this. In one tyme be 3 monethes, and when the tymes

[36^r]

befower sothely till to 12. And knowe thou that Nisan
 that is the first moneth entereth in the first day of the
 first mone whereat were Luna prima of the moneth
 of Martii and so of other. and the first very tyme is
 from the first poynt into the w^{ch} the sonne entereth into
 Arietem, till it enter the first poynt of Cancer. And
 The 2 from Cancer in Libran, And the third from
 Libra to Capricornu[~]. And the 4th from Capricorno
 into Arientes^s. And this is the better distinction of tymes
 And in the hower w^{ch} Raziel gave the booke to Adam
 of tymes of moneths and names of things then was Adam
 comforted onely wherin thilk day fillen lightnings meved
 and thunders and Coruscations appeariden, and there
 was in that day great tempest in all the worlde both in the
 lande and in the ayre, and in the sea. And in the hower
 in w^{ch} the Angell Raziel opened this booke and gave it
 to Adam. Then he gave to him might and strength & surety
 in all the words of this booke and myracles that be in it.
 And when this booke fell before the face of Adam, then
 Adam dread full muche and quoke of great dread And
 fell downe unto the earth as though he had bene dead
 Then the Angell Raziel said to Adam Rise and
 be thou comforted for knowe thou that a very soothfast
 spirit hath descended in thee from the hight heavens
 w^{ch} hath lightned thee and hath putt in this hower
 in thee knwing and might, and that thou sahl attaine
 that that thou shalt aske. And I say to thee that thou
 consider in this booke and beholde in it and by it thou
 shalt knowe and understand whatere was and that is

[36^v]

and that shall be after thee And in that hower in
 w^{ch} this booke was given to Adam fier fell upon the
 brinke of the fload of paradice And the Angell
 ascended by the flame of the fier to the heavens And
 an Angell descended in similitude of a white cloude
 and spake wth him plainely and came to him as a
 man well bright and cleere like to the cleerenes
 of a starre in his body and full of many other all about
 And in ascending when he was severed evermore
 Adam was like to a lambe w^{ch} formed well bright
 as the flame of fyre and cleere then the fyre of a
 fornace in w^{ch} golde is purged And then Adam sawe
 this and found and knewe that of the Lord of all
 worlds w^{ch} is a great king and mighty things.

This booke was sent for him. And then he considered
 and looked in it wth holynes and Cleannesse. And
 then he beheld in it all things that he would know
 in this worlde. And this was the first word that
 Adam had wth the Angell Raziell And therefore he
 considered in it and governed himself by it.

Salomon said upon the foresaid reason above
 after that the Angell Raziell said unto Adam that
 it behoveth to knowe the tymes and one hower before
 another and one tyme before another ffor who that
 soweth wheat in Ver it may mot be gathered on
 the same Ver. And this is after the temperament
 of the party of the northe. And therefore it is necessary
 or needful to divide the yeere into 4 parts and a
 moneth into 4 partes and an hower into fowre partes

[37^r]

And if thou keepest these divisions and understandest thou shalt profitt in all that thou wilt, for this is sothe and all naturall things is made in the tyme and in the day and in the hower according as the higher or sove= reigne Creato^r hath ordeyned. Raziel said of thou wilt knowe any thing of this worlde that is of other that be in the heaven or heavens w^{ch} be fellowshipped wth the first heavens. Or if thou wilt do any thing yt be fulfilled to thy will cense thou thy body by 7 daies that is washe thee and eat thou not a thing of cheste neither of raven, neither of evill party neither a thing uncleane neither that is fallen to death, neither a beast of 4 feete neither other. And eschewe thou thee from malice and falsenes, and thou shalt not drinke wyne neither shalt thou eat fishes or any thing w^{ch} bloud goeth out. And ioyne thou thee not to a woman pollute neither menstruate neither enter thou into an house where is a dead man neither go thou beside the pitt of a dead man. neither by him that suffereth gonorrhoea and eschewe thou and be thou ware of night lest thou fall into pollution and keepe thee from lechery and evill pride. And do thou that thou be evermore cleane and be thou in Orison or prayer, and keepe thy tong from saying evill and leasing and fast thou clenely And keepe thou thy body from doing evill and sinne And lighten thou the house wth orison and prayse the angells and do thou almes to needy men and charity and be not thou ioynd to evill men neither to uncleane and clothe thou thee wth cleane clothes the larger that thou mightest and evermore trust thou unto God and

[37^v]

rise thou early and pray to the Creato^r that he
dresse thee and washe thee and fulfill thy petition
and thou shalt attayne to that thou askest wth God

and goeth in the 7 heavens everiche by himself Sabaday
 Zedek Madyn Hanina noga Cocab Labana And ewiche
 of these hath his owne proper name upon the fowre
 tymes of the yeere as we shall shewe in this chapter
 beneath. And Salomon said in explanation of
 this place. Wherfore everiche planet and eche
 thing beforesaid changeth his name in each tyme
 for his thing ffor heere standeth some tree and
 from thilk tree cometh to us fowre things. And of
 these fower things the first is when it burgeoneth
 the second is the flower. The third is the fruite
 — the fourth is the seed when it is in it. Therefore the
 sonne is said in the first tyme hott and moist. In
 the second hott and dry In the third Colde & dry
 in the fourth Colde and moyst. These be the worchings
 of the sonne, and the propertyes of it upon all things
 for another reason the names of things abovesaid
 — be changed in fower parts of the yeere, for ewiche
 tyme hath his nature and his Complexion by him=
 self as we have said of water w^{ch} is in the first
 tyme temperate and in the second heat and in the
 third rotton and in the fourth Congealed And so other
 things of the worlde ewiche by himself. The exam=
 ple whie Raziel put his name to eache thing. In
 everiche thing be the 4 lords that have might in eche
 thing and everiche in his tyme. And it is said that
 there be 4 elements whereof one is fyer that hath
 might in the first tyme and so other. Wherfore
 knowe thou that everiche thing changeth his name

[45^v]

As first we say a man a childe and then a yong=
 ling and then a middle man in the fourth tyme
 an old man. And so things changeth their names
 who will cleape them a leader and this is in a man
 And so understand thou of Mettaile and in all things
 that waxeth and liveth. And Salomon said and
 all other that it was more inst that eache thing
 should have 7 names then 4 for that all they
 might descend of 4 bodyes, and to them is given
 all the might Sothely they put 4 names to
 everiche thing that it were more easy to worche
 these 4 names be assigned upon the city of David
 my fathers and myne w^{ch} had many names. Sothly
 the wiseman Isaac the wiseman said that the
 first name was Remusale, and then Jebusale
 Jeroboam Jerusalem. And these names this
 City received for 4 Lords that were in yt And
 everiche putt to his proper name And for this
 like things of this worlde receiveth 4 names
 in themselves or 7 or more after that God hath
 ordeyned. And therefore no man marvaile of these
 names of things in 4 tymes. In the higher heaven
 that is the first from the ou/²⁶ party and it is the 7
 from the neather in it serveth Sabaday and his
 angell Capciel. In the first tyme Sabaday is
 said Cuerues. In the second Palicos. In the third
 Quirtipos in the fourth Panpotes. In the sixth ser=

 name Jovis In the first tyme it is amonor. In

In the first heaven serveth Labana and his angell Anael. In the first Luna is said Salmi in the second Sarico. In the third Naspilij. In the fourth Afriqnym. And knowe thou that thou shalt nempne the names in their fowre tymes and thou shalt profitt when thou shalt knowe any thing of them.

and vertues and matter and strength of the potestates above, and that by the manndement and obedience of the Creato^r or maker of the worlde And they said thus Salomon thou hast asked witt and wisdom and fairenes and might in will com=
pleate and named full great for evermore upon earthes.

And knowe that all kings and lesse men shall come after thee and w^{ch} should heere speake of thee should love thee and worshippe thee and should set price of thee and should prayse thee and keepe thou this booke, and worche thou wth it wth reverence and cleannesse. And Salomon said to the benigne angell Natanael w^{ch} hath might in thaire and this evermore ~~was~~²⁷ was fellowshipped to Salomon w^{ch} be thilke 7 bodyes w^{ch} we seene above bright fayre cleane and cleere w^h ceaseth never to go neither the wayes of them be void and they fayleth never but evermore dureth going their wayes. And it that farryeth more in going his way fulfilleth it in 30 yeeres. And then they appeareth such as they were before and w^{ch} went before thus they sawe. And thus it us said that they should be how long God would. And thus I say of an hundreth yeeres and a 1000 that they never be changed neither in meving but we have found them as the Prophets and other olde men founden. And the angell Natanael said to Sa=
lomon. The 7 bright bodyes w^{ch} thou seest above

²⁷ This word "was" is crossed out.

[47^r]

above be put beneath And they in going upwards holdeth in balance or in rule the 4 elemts beneath And therefore the meving of them ceaseth not for such might the Creato^r gave to them. And knoweth thou that the matter of them is simple and pure wthout cor= ruption and evermore durable. And the state of them is likenes to the Lord that formed although they obey to him in all things. And Natanael said further= more to Salomon knowe thou that in the heavens of the 7 bright bodyes be angels wthout number mighty in all thing, and everiche of them hath his proper mighte and his strength and vertue. And they be unlike among themselves as men together or other beasts And everiche serveth of his office to the creato^r that formed them or made them. And Salomon said to Nathaniel w^{ch} is the lyfe or the might or the service that these angells doth. And Nathaniel said the lyfe of them is of cleannesse of Orison and of trustines and the might of them is of suffumigii holocausti et sacrificii. And the service of the is when the Creato^r woll they go from place to place when any cleane man hath prayed to the Creato^r as it beseemeth And then they do good or evill as the creato^r will for in them is power science & will complete And Salomon said w^{ch} be these 7 bright bodies and how be they named and of what thing serveth everiche And Nathaniel said that same that Raziel said to Adam, the higher of these that goeth slower is said Sabaday and all the realmes of his heaven be

[47^v]

full of Ice snowe and haile and wrothe ranco^r
 and Coldenes And all the angells that bene there
 bene clothed wth darkenes full darke. And the great=
 nes of them be full high and full long and small
 and upon the earthes and upon divels and upon dark=
 nesse and coldeness and drinesse. And this hath
 power upon wyndes of this nature And they have
 power of doing good and evill And the angell of it
 is Beel crowned upon all other. In the second heaven
 standeth Zedek and all the realmes of him.

Dixit Salomon rex filius regis David &c

Salomon the king said the sonne of David that
 was king of Jerusalem of Jury and Damaske
 of Egypt Lord of Babilony prince of science
 covetouse of cleannesse ensearcher of privities
 keeper of good true men, avoider of leasing of
 poore men, of vertues desire upon l^re vertues and
 speedfulnes of words busily thinking and most
 subtilly in mynde insearching. I have enquired and
 knowe that in wordes of power vertue and effecte
 and of all humo^{rs} whole and health and there may
 be sufficient fulfilling. And he said I see that
 the most fame is of wise men and prophetts by
 words and books w^{ch} they have left into testimony
 of them And I see that the sonnes of Adam and
 of Hermes and of Noe and their sonnes & many
 other prophets have left books by their death by
 w^{ch} they should clarify their fame and anents men

[48^r]

glory should remayne. And I see that my father
king David compowned or made some booke in w^{ch} be
conteyned all orisons w^{ch} he might knowe and fynde
w^{ch} sothely latin men that is Romanes clipeth the
psalter w^{ch} sothe it is if prayers alone and of holt
names of the creato^r it is names the head of Orisons.
In the same booke king David wrote all things that
ever he might knowe of patriarke and of old wise men
to the praising of the creato^r And I king Salomon
sothely long studyeng in holy words wth vertues and
miracles I founde to be while there is fulfilled in eche
thing worching trust and will sawe in the books in w^{ch}
while I studies long found and knowe that Adam and
Hermes and Noe and Moyses and many other most wise
men had great privities & vertues in their bookes.

Cu ergo veteres et antiquos Sapientes &c

When therfore I understand old wise men to have
made bookes how or wth what wytt or wth what arte
I might knowe the sciences of all the aforesaid
I enquired and there answered unto mean old man of
good mynde and understanding w^{ch} was cleped zebraymayl
And I said Adam had a maker and a m^r that is to say
o^r Lord his maker and gabriell to m^r ffurthermore
Hermes the discreet and most wise man and Moyses
had a master and a friend that is to witt Cretu^s Also
Aaron sothely had a friend of w^{ch} therfore is made
resistance that a wise man may not be wthout a m^r
how arresteth it thou in thee that two may be wise wthout
one m^r But that thou be wise these I knowe to be

[48^v]

necessary to thee. A wise m^r and discrete long and continuall study many olde bookes of great wise men made oft and ofter over red profitt & amended glad and continuall health of thy body long lyfe wthout cares and travailes quiet. The Salomon said to the wise man Is not this possible to be done by a shorter way then that thou hast said above Zebraimayl answered king by a lighter & shorter way then this ne unknowe thou not to may be done To whom Salomon said How therefore to whome the wise man answered agayne saying Open thou privily and fully the arke of the Testant no man knowing or understanding in w^{ch} all secrets or privities and olde wisdomes and words of great power and of vertue thou shalt fynde By w^{ch} not only thou shalt knowe things passed but these also that be present and likewise these that be to come. The Salomon answered agayne saying for this that thou hast answered to me I give thanks to that high and blessed creato^r w^{ch} reigneth after that it pleased to him all things wth word alone he formed or made. And there is not any more noble or mightier then he wthout whome no vertue or power is w^{ch} giveth wisdomes to wise men, he is that is of all things the fyrste sithe he is wthout beginning and of all things the last sith there is no end of him. This is of all thinges

[49^r]

maker and none ymade of whome the raigne or raigning is and shall be and of whome all worke be good and of whome he will over all is free sith there is none that may againe say to him. Whereupon Salomon trowing or trusting to Zebraymayl made the arke of the testament to be brought before him. And he sought all the bookes of Moyses and of Aaron of Adam and of Noe and of their sonnes and of Hermes and of other prophetts, and of others w^{ch} he might finde of the miracle of words and the vertues of them And he sought all the old Idolls of heathen men & Images of divers tongs having writings and all things graven w^{ch} might be founde by all the parts of the worlds And he made them to be gathered togethers into his pallace, and he brought forth M^{rs} of everiche one of the 72 w^{ch} should expound to him privy l^{res} or hid Y. C. M. Hebrew Caldy Syriacke greeke writing and that they should expound to him that w^{ch} were hidde. And when the l^{res} were expounded he sawe the more party to accord wth hit in vertues of words.

Rex ergo Salomon fecit arca nocte quadam ape-
riri &c therefore King Salomon made the arke
 some might privily to be opened that in the arke wth
 reasons afterward he should be learned. And
 Salomon said After that the sovreigne and Almighty
 Creato^r had infused that grace of his spirit in me
 I opened the arke of the testament in w^{ch} I found all

[49^v]

things w^{ch} long and studiously before I had sought
 Among w^{ch} I found the booke w^{ch} is cleped Raziel
 w^{ch} the creato^r sent to Ada^m by the angell Raziel when
 upon the brinke of the flood of paradice weeping
 thilke creato^r he prayed and of him forgivenes of
 his sinnes he besought. And I found the booke w^{ch}
 the creator gave to Moyses in the hill when he
 made him partner of his privities In w^{ch} three
 bookes that is three Orisons I found.

The first the prophets clepeth Semiforas w^{ch}
 the creato^r gave to Adam in Paradice

The second booke is w^{ch} the creato^r gave to Adam
 in paradice in the hower of necessity or need

The third is w^{ch} the creato^r gave to Moyses
 in the hill of Sinay after that he had ful=
 filled the fasting.

And Salomon said I found in the arke a pott
 full of manna, and the yard of Moyses w^{ch} was
 changed into a serpent and efte from a serpent
 into a yard And the tables of the lawe and peeces
 of the first l^cres w^{ch} Moyses for the sinnes of the
 people in his wrothe he broke in the ground sothely
 of the arke I found some golden tables quadtrate
 or fowre cornered In w^{ch} were 15 precious stones
 twelve tribes or lynages of Israell by similitude
 likened And in everiche stone were written the
 holy highe names of the creato^r of the booke
 Semiforas out drawen And I found a boxe of
 marble having greene colo^r as Jaspis coloured

[50^r]

And in this boxe were 7 figures, and in each figure
 7 great and virtuous names of the Creato^r to Moyses
 tolde and other 7 w^{ch} the creato^r taught Adam in para=
 dice. And this is a secret or privity w^{ch} much leaned
 and covered ought worshipfully to be kept. I found also
 about the extremities of arke 24 vertuous rings wth
 names and figures of the creato^r writt in Semiforas
 wth divers colo^{rs} written or figured And I myself
 Salomon had one of thilk rings having mynde to the same
 In w^{ch} I knowe to have founden such vertue that when
 I said make it to rayne and it rayned And when I said
 eft as thou hast made it to rayne so make thilk rayne
 to cease agayne and it ceased. And beside Jerusalem
 the same realme aswell of tempests as of raines it did
 or made And Salomon said I found Semiforas wth w^{ch}
 Moyses made the plagues in Egypt, and wth w^{ch} he dryed the
 red sea, and wth w^{ch} also he drewe out water out of the
 stone, and wth w^{ch} also he knewe all the cleannesse of his
 people, and wth w^{ch} also overcame princes and kings and
 mighty men, and wth w^{ch} whatever he would do he did
 and that w^{ch} he would destroy he destroyed And wth w^{ch}
 fulfilled it at his owne will

Capitulum explanationis hujus nois Semiforas &c

The chapter of explanation of this name semiforam
 And it is that that all divells and wynds and men as
 well quicke as dead, and all spirits and all bodyes
 dreadeth. Wherefore sothely Semiforas is said or
 nempned the first secret or privity and of great old
 and much yleaned and hidde and of great vertue and
 power to gett what ever he would. Semiforas is a word

[50^v]

w^{ch} ought not to be shewed to all men, neither by hit (but wth great necessity or anguish) ought any man to worche. And then wth dread of the creato^r he ought cleanely and meekely and devoutly to nempne it. Also Semiforas is roote and beginning and fundament of oryson, ensample of good lyfe trust of mans body the oryson or prayer of a Just man thilk creator dreading. And Salomon said about Semiforas These be necessary wth mekeness fasting, with oryson trust wth clarity cleannesse, wth patience meekenes and constancy of a man wthout w^{ch} yow might worche nothing. And wth the w^{ch} whatever thou wilt thou shalt gett. When all vertues in worching by Semi= foras ought to be nethelesse these 7 that is meke= ness trueth patience abstinence trust clarity mercy ought in him principally to be had or to abound.

Si ergo per Semiforas operari volumes oportet quod simus &c If therfore we will worche by Semiforas it behoveth that we be bright or cleane of body and in trust stedfast and from falsenesse and leasing fully departed. It behoveth also to dread the creator and the creatures of him among w^{ch} we ought to dread most the sonne w^{ch} giveth to us light and darkenes colde and hott w^{ch} is cause of changing of tymes and of temperment of the aire and of herbes. We ought also to knowe the beholdings of the moone and the moneths w^{ch} by hit 12 and 5, 13 by accounted as the said nyssan yar tina &c And we ought to knowe the waxing

[51^r]

and decreasing of the mone when by it all creatures as the sea flouds and welles and all the neather bodyes waxing and decreasing taken bloud in the veynes and marrowe in the head and the bones. After that the mone taketh waxing & decreasing they be nourished in thilk Also the enfusiall or melting of metalls ne doubt thou not the vertue of the mone to worche. We ought also to knowe Sabaday .i. Saturne by whome hunger and dearth and all anguish in londs befalleth. We ought also to knowe & dread Zedek .i. Jove by whome honor and health and righteousness and a;; good is had. We should also knowe and dread Madin .i. Martem of whome chollers & strifes and hate and battailes and leasing and all evills cometh. We ought also to knowe and dread Hanina .i. solem by whome we have light and darkenes & cleerenes and by whome tymes as evill unto good into evill be transmuted or changed. We ought also to drede and know Nogam .i. Venerem by whom^e we have meate and drinke and all necessaries or things that be needful by whome peace and love and dilection among men is made fast and stable. We ought also to dread Cocab .i. Mercury for he is nigher to us then all except the mone by whome merchandise and venditions or sellings and all seculer things be exercised. Therefore behold y^{ow} those that be said and most the spirits abovesaid and thus thou shalt profitt And whatever thou shalt axe of the creator rightfully thou shalt have it.

Heere beginneth the Sixth book that
treateth of the names of heavens

Dixit Salomon õ es coiter horas et malas &c

Salomon said All men commonly good howers and
evill, and good dayes and evill, good signes and evil
to be they affirmeth And this wth many reasons
they Confirmeth And I my self Salomon have
proved the dayes and howers of madin & Sabaday
w^{ch} I found full greevous for to worche. I have
proved also the howers of zedek and Noga And I
sawe what ever I would worche of them lightly
I wrought. The howers of Cocab and Labana
otherwhile greevous otherwhile good I have proved
to be And I sawe that in the day and in the hower
co^{ia} nothing of my will I might fulfill. And know
thou that the spirits abovesaid anentis divers
men diversty be nempned ffor the first in Hebrew
is Sabaday in Arabicke zoal, in greeke orgrue
fenes in Latin Saturnus it is cleped or nempned
And I say therfore that the first hower of the
day of Sabaday is said Sabaday the second zedek
the third Madyn the fourth Hanina the fifth
Noga. the sixth Cocab the 7th Labana And
the howers of the might ought to be nempned to
them. And knowe thou that by the starres above
said and dayes and howers whatever thou wilte
thou shalt understande And thou shalt knowe the
hidde and privy willes of men.

²⁸ Since no transliteration is given, it is impossible to determine with certainty which letters are intended, given the similarities among the Hebrew letters *heb* (ה), *chet* (ח), and *tav* (ת), and, if badly written, between *vav* (ו) and *yud* (י)—even final *nun* (ן) and *zain* (ז). My best guess is that the letters are supposed to show the *tetragrammaton* forward and backward: YHVHHVHY (יהוהיהוה).
