Predislovie

Liber Azerate will allow you to learn magic system c MLO, eclectic in their approach to what it brings, and to create a synthesis between the various dark traditions that are very different in form, but whose inner aggressive nature allows them to be in perfect accord with each other. MLO will thus create new portals opening to the acausal plan, through which, in agreement with the anti-cosmic pulse, really wishing that old, stale forms come to new potentialities, finding weapons for the war in the coming eon.

These spiritual, philosophical and magical forms - good tools and external tools that are used to focus the Order, the opening of channels and Wake acausal essence - of chaos, located on the other side of each causal form.

These forms (for example, mythology, ideology, rituals, symbols) in the MLO working with a completely different content than that with which they are usually associated. They form the same methods as the existing form of exoteric, prokosmicheskogo and nedinamichnogo "Satanism" - what they are antithetical. This is due to the strategy of the Black aeonic Logos, which partly comes from Creation of dynamic forms of violent neo-gnosticism to satanic overtones.

Therefore, at present MLO decided to work on certain previously completely esoteric texts, making them accessible to outsiders. This The aim is to spread some creative ideas and strained-terms to be for the foreseeable future, promote darker and more concentrated form of Satanism.

Liber Azerate - this is the first of eleven books that should serve above purpose.

Only in the darkness of Satan, can we find our inner light of Lucifer!

Let there be chaos! Traditional anti-cosmic Satanism

Chaos - it's a multi-dimensional plan that has an infinite amount of time and spatial dimensions, unlike space having only three spatial dimensions and one temporal.

Compared with the linear time dimension of space, chaos is eternal, and so , the time is not limited to having only one dimension.

Space is causal, that is limited to the law of cause and effect, while chaos is akauzalen (vnekauzualen) and is free from any restrictions.

Chaos - is a constant stanovlenie², it is an active and dynamic eternity.

Chaos was chaos there, the chaos at the same time is everything and nothing.

Thus, the chaos - the only true freedom and primal essence is any form.

In the infinite chaos there any possibilities, among which also there is the possibility of a space.

Part of the chaos surrounding space, is the anti-cosmic, as multidimensional nature of formlessness and chaos are the exact opposite formed, and the causal structure of the limited space.

That is why the chaos that invades space, proves destructive, absorb and dissolve.

Terminating the limited structure and shape of the cosmos, chaos argues instead uncausality formless and infinite, which is the beginning and end of everything.

Chaos can be found in all things, in the largest and smallest.

Chaos is present in the universe.

It exists in absolute nothingness, the nothingness in which people can not afford even imagine.

Chaos at the same time is multi-dimensional and devoid of measurement.

In it there is time and timelessness, space and the lack of it.

He - the beginning of all, it was created out of chaos.

Everything came out of chaos, it is everything and nothing at the same time.

Chaos has its own origin and its own creation, which in its boundless formation creates and destroys.

Chaos - it's a dimension of zero, spaceless and bezvremennóe first principle.

Zero dimension, containing the all manifested and unmanifested dimension.

Chaos - the eternal development and lawless formation, which wants space stop using their limited forms.

Lawlessness chaos is not bound by the laws of causality, stability, and limited space structures.

From the point of view of haognosticheskoy, lawlessness is boundless freedom outside the shackles of the cosmos.

2

Formation - a dynamic process, contrasted static existence - an important concept in Traditions 218. Evolyutsiya - a tool to speed up the return of chaos, just chaos, while as stagnation - a means of space to keep everything in its limited form, the law, and structure.

Black Flame - acausal fire, "spiritual" nature, which is beyond or outside causal forms of human consciousness - is the link to the pristine the essence of which is chaos.

Our "I" (ego, ego) formed the limitations of space, whereas our "True self" (samó, self), the fullness of our being acausal force is beyond our the human form, and any restrictions. Therefore, the "true self" is identical to the hidden dark force, which we call the inner black flame.

"I" is the focal point of the "true self" and this restricts (identifies)

"True self" in space.

"I" - is our mind that is in the world, while the "true self" / spirit / the inner flame of chaos exists beyond the gates of the unconscious.

Consequently, the "true self" - a dark and hidden essence that binds us primeval chaos.

Looking into the abyss of the "true self", you can find the door that leads to chaos. By opening the gates of the unconscious, leading to the acausal "true self" (Azoth), you can increase the awareness of the "true self" in our being, to direct point Focus - "I" - toward the inner fire of chaos and create a synthesis of the "I" and "True self."

This, in turn, increase the inflow of non-causal flows into consciousness (Atazoth), will open the eyes of dragon and free the multidimensional "true self."

Lower (spiritual) point satanic pentagram symbolizes the "true self" which is constrained and inhibited by four-forming elements (elements) symbolizing the "I" (ego).

After the return of the four elements in the flame of the spirit absorbing akauzualnoe "I" returns "true self", which is released again and becomes one with the perpetual chaos.

It's a return to the source of the acausal can only take a true self-knowledge (gnosis), which can be achieved with a valid internal multi-dimensional experience akazualnoy force.

Zero - a symbol of chaos as the zero dimension, while the unit is forming and pressing force that created the cosmos.

All of the numbers from one to ten different phases are causal development, reaching its highest point in ten. Ten means cosmic perfection.

This number represents the law, order, and form a vicious circle that holds a part of the primordial chaos inside.

Ten is the ego and the suppression of the acausal "true self."

Number eleven, which is the number of chaos, symbolizes that is out of ten (from outside of the space), lawlessness, liberty, and formlessness break the vicious circle.

Eleven - it's the gateway to the abyss, it is a way to overcome forms of essence.

Therefore, the number eleven represents the completion of the anti-cosmic the evolution and implementation of the hidden, dark and acausal potentials. Razomknutaya Pentagram his eleven dark corners and gates in the center symbolizes the way and the gates to the acausal freedom that should be sought for outside the space limitations.

Dragon - the most ancient symbol of chaos.

Predkosmichesky chaos (primordial chaos) is personified by the dragon Tiamat, whereas postkosmichesky chaos (yaryaschiysya chaos) is shown the black dragon Hubur.

Getting to know and prompting black dragon - acausal fire mage opens

Exterminating the eye of chaos and destroys the illusion - the final, limited space.

Glory to Chaos!

Glory Kaosofii!

I.2 Litany Kaosofii

I have cried to thee, O my nameless mother, lift my spirit bound to their hushed voice, sounding from outside created, its invisible dragon wings!

Hold me formless absorbing and flame forever connect me to other!

My desire - a form, my hatred - just an illusion, my love - only sleep. You, only you have the essence of asserting my inner divine flame!

I call you in the silence that breaks the shackles of my thoughts, and with his eyes closed honor thy unseen beauty!

All words diminish your power, all the feelings I have gone out of your way, all deny the truth of your thoughts!

So I throw myself, throw off the fear of the darkness of the unknown, and let your shapeless flame that burns in me, and lead me ablaze outside things, in your eternal kingdom!

You're all that, no, you all I wish to be!

Your silence sounds like thunder and awakens to life the black flame of my spirit.

Your absence dooms my gaze to the senseless suffering, that is the whole life.

Are you one thing, you're everything, you're nothing, and only you can find me eternal peace!

You're all that, no, you all I wish to be!

You - the chaos that is out of all!

You - the chaos that would be all!

You - Kaosofiya, knowledge and wisdom, the act of the free spirit!

Do you - what was, what is and what is to be forever! I.3 aeonic Black Magic

"Aeon" in the esoteric teachings of spiritual power means / energy that for at least two millennia, permeates and alters the causal plan controls them.

Each eon is spring, summer, autumn and winter.

In the spring, Aeon is largely seen as a living and organic

force. During this period, Aeon is young and has just set the time of the change, all the time he increases its strength and durability.

In the summertime eon the most powerful and converts everything that is not able to rise against his forces, giving the whole shape and leading everyone in harmony with their own energies.

In the autumn term aeon is decreasing phase and gradually lose control of his creatures.

Finally, winter anticipates beginning of the end of the aeon means war degradation and destruction of the existing rule Aeonic order.

This, in turn, leads to the completion of the old and the birth of a new aeon.

Each Aeon has its magic, religious, philosophical, political, art and "moral" form, which at the time of switching the displaced and evicted to make way for new forms of aeonic.

Through these forms every eon expresses the essence of its space to causal terms, and thus, like a vampire, a parasite on the minds of humanity.

In haognostitsizme eons considered different manifestations of the demiurge symbolized by the seven planetary spheres and often denotes the number seven.

These seven aeons commonly called "Archons," which means "lords" and their functions attributed to environment creation seven circles to capture the spirit man in space prison.

To overcome the weak-minded power eon magician must strengthen its internal chaos and black flames with otvoreniya eye dragon learn to see through the illusory forms of the archon (eon).

These seven archons is the same as the seven major cosmic gods, worshiped by the ancient Sumerians, who saw in them the original enemy, prior to all things, acausal Tiamat.

These are also known for eons of ancient Sanskrit texts, which also explains that the world is under the control of the illusory and false seven eons.

The above-mentioned religious traditions share a common point - after seven aeons initial chaos rassoздаet all (ie all forms) and returns to the formlessness and immensity.

On this great destruction, called in Sanskrit "mahapralaya" in MLO to say as a "Day of Rage."

The onset of the Day of Rage will, in turn, to the offensive stagnation

chaos and multi-dimensional "aeon", which exoterically called "infinite dark aeon."

The aim is to promote MLO annihilation of the existing Aeon by and the approach of the anti-cosmic occurrence mahapralaya / Day of Wrath.

Aeonic Black Magic is a powerful weapon Satanist, which combined with his strong will can cause global changes.

However, in order to use this most esoteric form of magic, magician must find an anti-cosmic gnosis gnosis eona. Antikosmichesky Aeon is a practical understanding of how

Satanist way through the transformation of the old religious, magical, philosophical, and political forms, through the manipulation of them can change, redirect, process and darken the spiritual energies that control existing aeon, and energy influencing the formation of the next aeon.

In particular, this can be accomplished by converting the ancient spiritual traditions with the purpose of glorifying terror and pressure to force, initially in the system of the former hated and intimidating. This may lead to changes in the whole spiritual nature of the system and turn it into a weapon that will be applied to the detriment of light / astringent / cosmic energy that the system has originally been guide.

To accomplish this, a Satanist is the main weakness in the right belief system / form that he wishes to oppose, and then uses these "cracks" with fraudulent misrepresentation and redirect the energies that are eon-term interest to the dark alchemical work.

As an example tested a method where the power of the desired belief systems, commonly referred to as evil, destructive, immoral and horrifying, appears as a supportive, creative and beautiful. A force that is in prevailing system of cosmic order, the law and the "goodness" ("good", as a rule, considered to be their own lack of will), it becomes harmful, flawed and tyrannical. This can not be done only through the relocation of the "light" and "Dark" forces of names, but with the release of weaknesses found in the the corresponding system of beliefs.

For example, it is easy to portray the Christian Satan, strong-willed, proud, brave, powerful and admirable freedom fighter and a rebel - instead of Search all of these traits in the creator-god. This makes that pathetic, cruel, stupid and weak demiurge.

Therefore, the Satanist may choose to form new beliefs, which he will contribute to its creation only to oppose, distort and aeonic destroy the forces that (as, for example, Christianity) are aimed at development of the current aeon.

So faith becomes a tool for spiritual direction and aeonic energy, dependent on the kind of energies that the magician wishes to send, Satanist can no problem to change the system of beliefs, to another tradition (the form) to such a long time, as far as he is faithful to his satanic spirit and guided by gnosis of the black flame.

Another important part of aeonic work, facilitating the approximation the onset of the eternal aeon of chaos, is to create new forms of spiritual, harmony with the dark and chaotic energies under will Satanist.

Unlike systems light religions, in their entirety represent stagnation and lack of inner essence, Satanist must create magical, religious, philosophical and sometimes political forms that will be consistent with the Satan will and will therefore be dynamic, revolutionary, evolutionary, dark, filled with the essence, dismissive and carrier chaos.

Among other things, this can be accomplished through the creation of a synthesis between Aeonic dark ancient traditions, when a Satanist finds in them something that will be

relevant to the modern anti-cosmic aeonic strategy.

Satanist can also try to create a completely new and unique belief system that has few obvious links with the pre-existing spiritual traditions. A real example is formless, that is located outside of any forms, magic MLO, wordless appeal to the forces and silent formula.

It is important to note that the greatest importance has the will to creation of forms, giving suspensive form of power and essence.

The stronger the will of the Satanist, the stronger will be the shape of the desired direction dark, aeonic energies.

That's why a strong and conscious will of the Satanist has a higher weight than will the weak and vedómyh masses.

Therefore, a minority belonging to the satanic elite, has ability to resist the energies of the current Aeon, form, guide them and act as a gateway to the living energies that approximate the infinite offensive Aeon.

Like a drop of poison can poison hundreds of liters of water and metaphysical system / religious tradition or magical / philosophical doctrine, is the antithesis of a the existing order of spiritual forms may change, poison or process power to create and destroy eons.

From the point of view of strategy aeonic, anti-cosmic Satanism has alchemy aims to create spiritual forms, filled with the essence and have the potential, enough to make one drop of anti-cosmic poison that can kill eon seven (Archon), and give rise to a grand cleansing decay.

Another method used to implement aeonic acausal energies - is to create a physical "gate" or point of focus that promotes concentration, enhance and spread the evil energies that Satanist wishes to send to the causal plan.

These physical gate can be individuals or entire groups of people, and also all the ritual places used regularly by Satanists for many years.

Acting as the focal point anti-cosmic ritual, these places and people can be converted to physical and live gate leading to a multidimensional acausal chaos.

Rituals / forms used to create and open the gates of the physical, should be in harmony with the dark aeon, and the individual or group of people should be sufficiently sensitive to the chaotic energies, and free from ancient space shackles eon to act as a live gate.

For example, Adolf Hitler, without knowing it, has been the focus point of many Satanic and black magic orders, to use it for bringing changes, wars, development, and chaos in the world.

If Hitler himself was aware of this and would be willing to contribute to obscuring soul of the world, to bring an end to the aeon, our causal world today look would be completely different.

But Hitler was immune to the energy directed through it, and the result was arrogance, extravagance, and, ultimately, the fall the Third Reich.

The fact that Hitler was influenced by the dark forces also explains why Kabbalah is used by the enemies of Satan's orders, was prosecuted and destroyed under his rule.

Therefore, considerable interest to the anti-cosmic Satanists is strategic search elect politicians who in the future would be aeonic suitable candidates for their subsequent use as a point

The anti focusing rituals in order to open the gates to the physical chaos.

In the case of Adolf Hitler, it is his personality and his mental ability made him a suitable candidate, and not the political form, which

He prizyval.Sama Swastika, a former symbol of the Third Reich, is one of Satan's characters common in the similar form. Left-hand and turned against clockwise sun cross symbolizes the end of creation, and a return to chaos. This symbol is not directly related to the political ideology of National socialism, but was used by black magicians to communicate with Hitler in order to increase control, and the German people.

Therefore, the creation and filling of the power and potential of new aeonic Character is an important part of the work of Satan, which facilitates the direction dark acausal energies.

For example, most of the potential symbol is used MLO "Open Pentagram", showing the coming dark aeon. It has eleven corners, symbolizing and embodying the gates to measure the Wrathful Chaos. Open Pentagram, or "seal of the eleven angles," as well as the character called, is a good example of how a Satanist and prochuvstvovanie comprehension of the famous magical symbol, making full use of its symbolic content can supplement it with other energies, initially he was not inherent. It also leads to disruption, transformation and redistribution of the original power flow, the inherent character in the right direction. That is why the Satanist must use the symbol of the coming of the infinite aeon in his magical work, and in the decoration of his church, instead of use the old obsolete archetype that can not blend in with the aeonic contemporary work.

Music can also play an important role in aeonic work when Satanist at by the atmosphere and the mood is capable of transmitting voice and feeling in harmony with the dark aeon and adequately embody the new forms required satanic Power for the operation at the causal level.

So Satanist can bring a dark grain in the consciousness / subconscious listeners and make them more susceptible to the anti-cosmic energies disharmonious forces. "It is only in the fertile soil can germinate the seeds of knowledge and bloom chaos." Therefore, the Satanist, based on the choice aeonic strategy should be carefully select one or more individuals, in which it can act with by acausal energies.

What is not in harmony to chaos, chaos is destroyed.

Blessing of the strong - the curse of the weak.

All forms have the illusion, but the illusion can be used to release and the full realization potential of the black flame, acting as Tool direction and overcome the boundaries beyond which - immense chaos and pristine.

That's why aeonic black magic is one of the highest forms transcendental magic.

«Dies irae, Dies illa, Solvet Cosmos In Favilla! Vocamus Te Aeshma-Diva! »3.

I.4 Satanic creed

I accept Satan, the god of the Wrathful Chaos as his Lord and Father, and only obey His law - entirely lawless.

3

"The day of wrath, a day that will scatter the ashes in the universe! We urge you, Aeshma-Diva!. "I believe in truth, a sheer on the other side of all forms, and in a word, which is overthrown lie: that word - Wisdom.

I believe in the fight and in the goal - the end of the aeon, so I'm willing to sacrifice his enemies and, if necessary, their own blood to accelerate the onset of the new century.

I believe in the courage, strength and power, and therefore reject pity, compassion, and cowardice - the shackles of the old Aeon, which hold the weak enslaved.

I believe in discipline and loyalty. For the time our goal - the chaos in our Order

order must prevail.

I believe in the formula for endless dark aeon «Chao ab ordo 4" and foresee the destruction of the ruling of the cosmic order.

I believe in the essence without form and effect without borders, and therefore ready to bring all bloody sacrifice on the altar of freedom.

I believe in chaos, the beginning and the end of everything, and recognize his avenger and messenger Satan

as the external aspect of my inner strength.

Therefore, I praise Satan with all my heart and soul. I am happy to see ahead the final battle and the coming victory.

Hail Satan! Glory to Victory! Glory to Chaos!

I.5 The pentagram, or sigil decangular

Pentagram - a map and description of the design space and the creation, universal symbol of knowledge, power, and magic. For centuries there were thousands of theories pentagram, describes its essence, however, this work does not consider the theory "Ghilik" (uneducated) of this powerful symbol, but sets itself

another purpose - to provide a basic understanding of decagonal sigil Order MLO.

On the exoteric level pentagram can be described as a symbol of the five elements (spirit, fire, air, water and land), but on a more esoteric level, it

is an amorphous black flame (or chaos), the spiritual, mental, astral and physical plans. To understand the particulars and understand what contains a form

and the essence of the pentagram, you have to start to realize: pentagram correctly rotated

- Is one in which the beam, symbolizing the spirit, pointing down. Only on the basis of lack of knowledge and stupidity "pravoputnye" slaves could in the past

millennia insist on turning the pentagram signifying the spirit upward,

He pointed to aimlessly into the sky, and then have the audacity to call it a pentagram

Original form of "inverted pentagram"!

The oldest image pentagram found by archaeologists, including

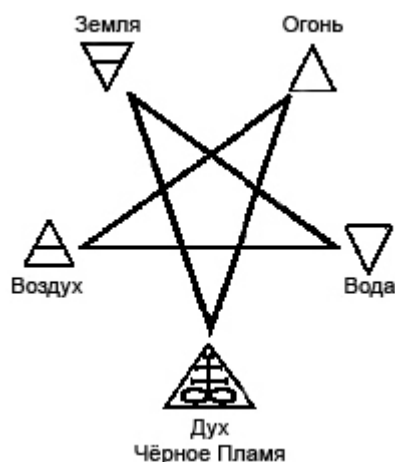

ancient Sumer and Egypt were correct images, "black magic"

pentagram, whose spirit designating beam pointed downwards.

4

Poryadka. Drugoe chaos of essential knowledge about the pentagram - how in the five corners pentagram can be placed five "elements". This is shown in the following

Image:

The five elements that make up the pentagram can be divided into two category. The first category - it is a pure substance without form, which is the spirit / black flames, the second - devoid of substance and formed elements, which are fire, air, water and earth. Formed elements are created in the spirit of free the following order: first create a spirit of fire, and it creates the air out of the fire of

air and water generated from the water creates finally land. For each of the emanations of the spirit allocated and spent formless and soulful (essentially-filled) substance, and the last emanation, the land becomes completely devoid of spirit, completely losing the essence. So there were four "form" element that demiurge used, leading of the Spirit, oppressing, suppressing and capturing an amorphous black flame. Thus was created a comfortable space where before there reigned an amorphous chaos.

Pentagram with its ten corners reveals in himself, as arranged barriers of space and how many there are steps that must be completed for going beyond the formative elements and the liberation of the spirit. For this potential locked up to ten (10), should be released by the eleven (11).

The fact is that the knowledge of the decagonal sigil, also helps to understand the liberating power of the Eleven Corners is open Pentagram.

The existence of the demiurge and orderly universe - the delicate balance that hangs on the five elements and ten corners. Therefore we can by opening decangular sigil, violate the cosmic balance and direct the energy of chaos inside through eleven angles arising therefrom (cognition eleven angles discussed elsewhere separate publications MLO).

While the spirit is suppressed by the five elements, which, among other things, symbolize the material and formed, it is still able to have the power to order to control the other four, and change them. For only the soul is eternal and immortal, while While all formed elements destined eventually be re absorbed and eaten shapeless flame spirit.

Through the awakening of the spiritual black flame within us, we can also awaken their power to control or release of all that surrounds us.

To be able to finally free the spirit and break all the shackles of the cosmos, we dolzhnyunichtozhat physical and spiritual obstacles demiurge, separating the elements of each other, following our path. We, the enlightened light of Lucifer, have themselves microcosm, and we are made up of the same five elements that make up the space. We have have a physical body, which corresponds with the element of earth, we have an astral body, correlated with the element of water, we have a mental body that correlate with the element of air, we have a spiritual body that correlate with the fire element, and, finally, we have a hidden, unformed, driving the inner essence that a black flame that corresponds with the fifth element, which is the spirit.

Our main weapon is placed on the altar, as follows correlated with the five elements pentagram that are both within and outside ourselves.

- Black altar candle = Black Flame / Spirit / chaos.
- Dagger = Fire / spiritual plane.
- Wand = Air / mental plane.
- Bowl = Water / astral plane.
- Pentacle with the pentagram = Earth / physical plane.

Having knowledge of the above, the magician can use these magic tools in the right way, that they may serve to transform and control liberating and different splitting four different plan that allows us to strengthen and to release the essence of the fifth plan (for more details see separate MLO work titled "Five guns").

The pentagram is also mentioned in the context of alchemy in search of the mystical fifth element, traditionally, inter alia, the name is "Quintessence", or the "Philosopher's Stone".

"Philosopher's Stone", or "black diamond" as it is sometimes called, in alchemical tradition attributed to the ability to transform matter and do "Gold" of the other (non-precious) metals. This of course means that the black flames (Spirit) can monitor, manage and transform the other four elements and turn them, returning to the original formless state. But for this to

possible, you should first find the "Philosopher's Stone", ie black flame should be identified, awake to life and strengthened to such an extent as to have sufficient force to disengage the other four elements and forming the complete restore its purity. The above - confirmation of the hidden meaning Legends about the search for the holy grail. The path to the black Grail, which is shapeless black flame, lit by the light of our Father Lucifer, but the light Lucifer always has dark eyes of the blind. Therefore, very few adepts can ever find the treasure.

To see the way that illuminates the light bearer, we must first open eyes of the blind dragon, and then we can finally move, using the resulting knowledge of Chaos (Kaosofiyu).

Correlation of the pentagram with the dark gods and the "five black throne" explained as follows:

"Fiery beam" refers to the southern throne and Lucifer carrying spiritual knowledge. "Air ray" refers to the eastern throne and Beelzebuth carrying mental liberation.

"Water beam" refers to the Western throne and Leviathan carrying the astral disbanding.

"Earth ray" refers to the throne of the northern and Belial carrying military power and the destruction of physical bondage.

"Spiritual ray" refers to the inner throne, as well as internal and External fire chaos and the black dragon - destroyer of all cosmic illusion Returns the primary chaos.

To cry and call to open the door that leads to strength and in the measurement which is a pentagram, you must first activate the right way pentagram. The pentagram is depicted on the talisman, drawn or painted with blood, is drawn "in the astral plane" with the help of a magical weapon or just rendered, and must be activated by the following description.

To activate the 'Earth pentagram' "and open the gate to the north and the throne the physical plane, to draw a pentagram as follows:

"Earth calling pentagram"

To activate the "Water pentagram" and open the gate to the west and the throne astral plane, to draw a pentagram as follows:

"Water pentagram calling" to activate the "air pentagram" and open the gate to the east throne and the mental plane, to draw a pentagram as follows:

"Air invoking pentagram"

To activate the "fiery pentagram" and open the gate to the south and the throne spiritual plane, to draw a pentagram as follows:

"Fire pentagram calling" to activate the "Spiritual pentagram" and open the gate to the inner throne and formless dragon which is a black flame, pentagram to draw the following:

"The spiritual calling pentagram"

During the night Satanist can affect the dreams of their enemies, and by forces

yaryascheysya darkness drives them crazy.

I.7 Four Black throne and the four towers of chaos

Lucifer - Mr. southern throne.

Lucifer - Emperor Wrathful Chaos, the eternal aspect of interior and exterior flame.

Lucifer - proud light bearer of fire chaos that his dark light burns all illusory forms and highlights the hidden and secret. Lucifer - the carrier of knowledge development, power, and the destroyer of stagnation, weak and stupid.

Lucifer - is friendly aspect of Satan, that their light shines reliable way and shows the way to freedom and divine power beyond the borders creation.

But he is also the one who with their fire and glowing dark light dazzles, introduces misleading and burns down the weak and unworthy.

Lucifer - is Wrathful Chaos glowing eye that sees false demiurge through, and that his black acausal fire destroys the illusion of space, preventing the establishment of the eternal and unlimited favorites! Lucifer also - the master of the south tower of chaos, whose gates, according to the satanic tradition, the opening of "All Souls Night" on October 31.

Satanist refers to the tower of Lucifer in the rituals, the purpose of which - acquisition of wisdom, truth and knowledge through the direction of pure Luciferian black fire and the opening of domestic shining gate.

The energy of the tower Lucifer can also be used in rituals, having to fill the magician of physical and mental strength, as well as his talent spiritual strength and the ability to dominate, manipulate and control all of its environment.

Tower of Lucifer - is archetypal representation of the Promethean / satanic lust for forbidden knowledge, and therefore it is capable of their invisible light Satanist lead deep into the mysteries of the left and to identify ways to scare him treasures who are displaced and are found in the unknown depths of the subconscious.

Only by joining his black flame with external fire chaos representing a tower Lucifer Satanist can establish itself in the form of acausal existence after death, and to take the place of the dark gods!

The rituals, the purpose of which - the direction of energy towers Lucifer begins the following words of worship:

«Vedar-Gal Tiekals Somdus Azerate!

Lylusay Tateros Volt Sids Lucifer! 5

In the name of the Devourer of all shapes, blinding sword, calling Azerate, I, NN,
I thank Luciferian tower!

In the name of Azerate I honors mighty tower of Lucifer, his black fire illuminating the path of knowledge and wisdom, obscuring and destroying creating a false light demiurge!

I praise the south the throne of chaos that embodies the truth, knowledge and acausal Immortality!

The Fifth Element (or non-causal fifth dimension), which is in the tradition of the dark called "black flame", "formless pearls" or "blood King"

outside dimensions forming four elements and thus associated with the other four elements, which makes the square on the pentagram

(See image below). Fig. 1

Fig. 2

Looking at Fig. 2, we can see that the "spirit" - not below or above the other four elements, but located outside them. Poetomu magician uses Quadrangle in rituals where he wants to separate

four external elements from the internal Blackflame (spirits) thus indicate that he is a force (or carries the force), which is out of the world, but being a quintessential able to manage, convert and destroy all formed.

So during rituals which uses quadrilateral activated "Formless inner flame" magician, which, in turn, controls all formed dimensions, members, and plans.

In such rituals Quadrilateral can be visualized, drawn in ink or blood, clay or generated in some other way as two-dimensional image or three-dimensional projection.

Magician can also use the Quadrilateral as a focal point for mental rituals, meditation and other rituals, if he wishes to speak as a fifth element.

It can, for example, be his own blood drawn in a sigil symbolizing the change that he wants to create a physical,

astral, mental or spiritual level, inside, under or above the square (in Depending on how constructed rectangle) and then activate calling pentagram (in the following order: earth, water, air and fire) over Quadrangle.

Magician then activates "the invoking pentagram of spirit" by touching ritual dagger perineum, left shoulder, right breast, left breast, right shoulder, back crotch, as well as visualization of black shining pentagram By awakening the black dragon within him.

Then the magician directs the dark, ominous and acausal forces, such as eg his will to power, to the quadrangle and sigil, clearly visualizing the changes that he wants to perform by force its spirit for 15 minutes, after which burns in flames black sigil altar candles and set free black energy that came during ritual and associated with it.

Thus, the magician becomes the fifth element pentagram, and it will manifests on all planes.

Look beyond the shape and look for the point!

I.14 Bound beast

Within the dark esoteric traditions of all cultures have a concept, MLO which is called "pinning down the Beast." This concept - a metaphor and symbol for The anti-impulses that lie dormant in the soul of every man.

In the ancient Persian demonology this dark force called the "three-headed dragon" named Azi-Dahak. This dragon, the strongest of the descendants of Ahriman was constrained by space gods under the big mountain. Thus, there is stored power Azi-Dahak, and the gods of light can never kill him. Out of the abyss into which it is caught, ie from the darkest depths of the soul of the world, Azi-Dahak continues to attack space order of their dark and anti-cosmic pulses. According to legend, Azi-Dahak before the final war will rise from the abyss and break their chains, to then Ahriman Drughom, Aeshma-Diva and their bloodthirsty legions destroy demiurge Ahura Mazda, and his creation.

A similar story can we find in Norse mythology, where the wolf

Fenris plays a role as Azi-Dahak captive anti-cosmic antagonist, which in

"End times" freed from the shackles of space that held him captive. Voyuschiy Fenriz in the period called the "twilight of the gods," slay the god Odin, and thus,

contribute to the destruction of the current cosmic order. Fenris Wolf, a descendant

Loki - is one of the strongest symbols of terrible power that captivated in the darkest parts of the human psyche, but always fighting for control of the man and turns in its initial incarnation fury of the gods of chaos.

These dark, wild and chaotic as described in pervosily

Hellenic mythology, where the key role is played by a terrifying titan Typhon. In this mythology, Typhon is described as a dragon, one of the initial manifestations of the forces Chaos (also known as "Titans", the number of Titan - 666), who is struggling with Olympic gods and repeatedly beats them, forcing him to submit to force. But ultimately the main cosmic god, Zeus, can hone in Typhon

dungeon and place the volcano over its entrance, so as to prevent Typhon

return (compare this with the legend of the legend of Azi-Dahak). However, the power of Typhon in one with an underground fire (subconscious) continues to fight against the crowd

unworthy of the gods and influence what happens on the physical plane. In the final

war chaos, personified by Typhon and his Titans come back and take revenge on the forces

replacing the former before the chaos cosmic order.

In the Jewish tradition of Kabbalah dark, we can also find the legend of the fettered beast, which acts as a satanic force threatening the cosmic order demiurge. In kabbalistic symbol, called a "tree Qlippoth, "or" tree of death ", it is clear that the sixth anti-cosmic Klipp Tagirion placed in a dark anti-world, where the beast 666 is waiting for the opportunity to take control. Demonobog / goddess ruling in Tagirione, which is a measure of the black Sun - is Belfegor. Belphegor is described as a black sun, whose Luciferian light can make a dark, anti-cosmic seed (which is there in the chaos whence came the creation of a human) to give seedlings and thus return the person to the its source, ie chaos. Belphegor, which appears in the guise of a beautiful nude Demon Princess men and women - as graceful demon prince, shows its face, the face of a wild beast, in support of unusual and reward to who did not die from his horrific appearance, taking anti-cosmic view of the solar Sorata demon whose number - 666 and which is the prince Tagiriona. Sorath - a force which is described in the Christian Bible as the Antichrist or Beast 666. Who awakens the power of the black sun / black fire chaos in your soul, becomes the Beast 666, that the inside space will open all the gates of the Wrathful Chaos forces, pending before space barriers. Black Sun - it's part of the spirit, which is based on the demiurge its stupid and selfish purposes was forced to lock into the abyss / darkness subconscious, so as to enslave the fire and chaos in the flesh the material world. But the black sun rise out of the dungeon, when we fast step closer to the start Aeon black fire, and by force for centuries served as a initial fury of the gods of chaos, we will show the demiurge and his filthy creatures face wild / evil beast. In the name of the dark gods of chaos will spill the blood of enemies and weak victims

the highest honor an animal.

We can find another aspect of the beast shackled in kliffotic Kabbalah - entitled Taniniver. This dark god, whose name means "blind dragon" can be described as a black kundalini and the demonic force, whose purpose - to connect opposites, release dualism and thus establish a paradoxical chaos that would destroy the order. Taniniver in accordance with the dark tradition described as one who was blinded by the light unworthy demiurge and plunged into forced to sleep, can resemble a black flame in its passive form. The anti Tolkoposredstvom direction flows into the spirit, speaking as a living portal in kliffotic measure through which we can get an understanding / knowledge of chaos and our own original, we open our eyes and Taninivera will enhance the internal and external fire chaos. When the eyes of the Taninivera, Satan and Lilith Taninsam connect and eleven angles will also be united, because that the name of the macrocosmic Azerate opens portals into the dark dimension of chaos. This be the beginning of anti-cosmic invasion and total destruction of the space order on all spiritual and material planes. When the dragon's eyes are opened, one whose eyes are open, becomes a physical embodiment of the strongest offspring of Satan and Lilith, who awakened black fire chaos space plunges into the fire (for more information, see the text under the name of MLO "Taniniver").

Release the wild beast, open your eyes and look through the dragon the inner fire of chaos / Shades Ahriman means the same thing as to achieve knowledge chaos, anti-cosmic and transcendental Satanism upper limit MLO, that leads to eternal reunion with the original Satanist dark gods of chaos.

I.15 Taniniver

The first three forces are coming to Satan - it's chaos, emptiness and darkness.

Satan himself is one of these three forces, and he himself - a completely shapeless, without some semblance of body shape. Thus, it can not affect his hand

events on the cosmic plane.

To complete your anti-cosmic dream, Mr. Satan must benefit from the womb of its generating demonic and powerful wife Lilith.

Princess Lilith should be fertilized spiritual seed of our master Satan, which is the Wrathful Chaos infernal hatred towards demiurge and his creation - the order of the universe. This is Satan's seed Mother of Demons stores in its nightmarish cavern in his fruitful womb, until the day when The anti-seed will rise, and then generated by the bloodthirsty goddess Lilith evil offspring burst in created in order to bring disharmony and dissolution energies contributing to the destruction of the cosmos.

But they are the offspring created by the union of the spiritual master and the mother of Satan Lilith is only The anti energies which themselves are not capable of independence from the other creatures that live on the material plane Malkuth. They need to capture the soul of other living beings to be able to distribute its chaotic malice!

But for Mr. Satan and Queen Lilith can connect to hell ecstasy, and their offspring will be able to find physical form in the material plane that would mean the end of all forms of cosmic life and destruction of the demiurge!

In order for our lord Satan became possible to impregnate Lilith this the most blessed way Taniniver blind dragon, to intervene in the creative process!

To give life to the most horrible children, or even the existence of which will be the end of all cosmic and whose satanic power will restore the primeval chaos, Satan is our god and goddess Lilith should make intercourse on the back Taninivera!

A treat for Taninivera - an endless ocean of fire and non-fire-blind Dragon intercourse with our master Lilith fruitful enough to give life destructive demons that will destroy broken demiurge and his dirty tvoreniya. No moronic demiurge impair fertility Taninivera, so as to Lilith prevent flood the creation of her hungry black descendants.

We symbolize it by saying that the demiurge Taninivera cast in eternal sleep oblivion and put out his fire, blinding his eyes!

Thus, the dragon was blinded by cosmic light, but will wake up Taniniver from a nap and re-open their eyes sparkling diamond.

His kliffotic fertility returns Taniniver vision, combining bond between Satan and Lilith, you need to create demonobogov who in their physical bodies and will be able to roam freely in "our" universe.

Murderous forces of hell demonodetey will own the fact that no a person can not even imagine, because these "kids ultimate destruction" will own all the other gods and demons that have ever existed, and people, the angels and the gods are nothing but a morsel for these antibytiynyh, performed messengers of evil!

So when Taniniver, again opening their eyes connect with Satan, the dragon of death venomous snake Taninsam Lilith would represent these powerful descendants to force the creator and his creation to the filthy demon-decent life and anti-Christian era and thus start a perpetual age of chaos for infinite aeons which polluted chaos restored to its full and primal form!

Therefore, one of the most important works of MLO on black magic says:

"Again awaken Taninivera, which can be described as a black

The anti-kundalini and unite in the name of Satan and Gamaliel Thaumiel to by wicked compounds darken his soul, which, in turn, lead darkens the soul of the world! "

Athah Gibor Leohlam Satan!

I.16 Sword and Asmodeus Ornias

According to Kabbalah, the elder Lilith (Taninsam) - "wife" of our Mr. Satan, and the youngest Lilith (Naamah) - the wife of Mr. Asmodeus.

After the primeval chaos was desecrated by the demiurge of Wrathful Chaos

The anti-spun emanations (Klipp) that make up the Tree of Death (Qlippoth), which is the antithesis of the cosmic tree of life.

These antisefiricheskie emanations that stood out from Tohu (Chaos), Bohu (Emptiness) and Hasek (Darkness), - the following:

First Klipp - is Satan and Moloch (gods Gemini), the second - Beelzebuth, the third - Lyutsifug Rofokal, the fourth - Astaroth, the fifth - Asmodeus, the sixth - Belphegor, the seventh - Baal, the eighth - Adramelek, the ninth - Taninsam Lilith (senior Lilith) and the tenth Klipp (Eleventh demonic force) - Naama Lilith (younger Lilith).

Once the tree of death has created eleven gods and goddesses of chaos, it

The anti-created and demons that are ten demonic orders

Eleven of the gods of chaos.

In this text we will focus on two of these horrific demons that through their connections created Satan and Lilith and Naamah Asmodeus.

The first unholy union took place when the ninth Klipp manifested Wrathful Chaos in the darkness.

When Satan, the supreme god of Kabbalah saw the demonic power that

Lilith was a poisonous dragon, he was filled with a desire to hell and was fascinated by the dark beauty that he found in the woman's reflection of his own anticosmic evil. Therefore, Satan made her his queen and was the first to penetrate into the darkness of her infernal pleasure.

This spiritual connection is what happened in the sixth antisefirichesky emanation Klipp Belphegor there Tagirion, has led to the fact that the queen gave birth to her Lilith the first-born son, whose name Orniat.

Orniat, which is the prince of Gamaliel, is described as well as strength, vampiric drinking space, abducting and directing the cosmic life force (Prana) back into the chaos from which it originated.

Thus, Orniat, the return of chaos, whose dominance to defiling acts of the demiurge was total.

Orniat too - demon-bog, enslaving people and murderous shadow forces them to serve as soldiers in the Legions of Shadows Vampire Lilith.

Orniat also - Mr. blood, sadism and lust for death, which through his Army distributes its Incubi perverse sexual frenzy among women and thus poisoning the Malkut dark desires of Gamaliel.

Kabbalistic black magicians appeal to Orniat only for destructive purposes or "vampire ritual of self-initiation" MLO.

Orniat rules over 397 Vampiric Shadow Legion and ruled in the name of Lilith over 480 demonic legions of Gamaliel.

Sigil Orniat:

Another demonic offspring, to which we refer in this text - the result of the connection of the wicked king Asmodeus and Naamah.

This demonic prince has many names, including Sorath, Sariel, Gurigur, Alefpeneash and Harb Dee Ashmodi (sword Asmodeus), and rules over 80,000 devastating and evil demons Klipp Golahab.

Alefpeneash described as "the one whose face is on fire", and the name Harb Yes Asmodeus, which means Sword of Asmodeus, alluding to the personification of anger Asmodeus (Aeshma-Diva), and the power that embodies the most destructive aspects of the cliffs Golahab.

Alefpeneash - it kliffotic force that is constantly trying to invade Malkuth, prolamyvayas dark portals (gates) leading through the material plane of Assiah. These gates are located in the cliffs of Naamah, and Nahemoth Alefpeneasha, the son of Naamah, having

as reinforcements of 478 Nahemoth demonic legions to help him in his fight for discovery trails on the physical plane and promoting anti-cosmic invasion.

One of guises Alefpeneasha Sword of Asmodeus, suggests that in the present while it manifests on the physical plane as a pillar of fire (the mushroom cloud) that arises after the explosion of the atomic bomby. Alefpeneash - a power that the final war will burn the roots of the tree of life

and thus breach outer posodeystvuet order.

Kliffotic black magicians appeal to Alefpeneashu only in rituals whose purpose - Spread death and destruction on the physical plane.

Sigil Alefpeneasha:

I.17 The Dark sex magic

All the magical acts are directed at the implementation of the internal or external changes according to their own will, by methods which are greater of humanity belongs to the category of esoteric. Simply we can say that for implementation of these changes will need strong focusing. Thanks to this will of the magician is to create within themselves the amount of the awakened life force. This repository of occult energy should remain in a strong connection with the spirit. In Depending on the will, which is the guiding force of all magic, nature vitality changed to take those properties and qualities that are needed to implement a specific desire magician. For example, the life force (energy) created in the course of the curse, deadly and destructive, but in his original as it has been a positive life-giving force. The will gives the force of the essence of the form life force (in its original condition). Occult teachings about energy determine how such energy attract and weaken each other, and so it is possible to direct flows of foreign energy sources, leading themselves through insensitivity to the state of mind, a form of energy which corresponds to an external energy source. For example, producing destructive and hateful energy during a ritual curse, we open inner and outer gates of the acausal, through which we can carry that same force used to achieve the purpose of the ritual. The next step is to focus and concentration of the collected energy through visualization and

mental power, the direction of its goal for the ritual. And at the end of work we give out charged energy, allowing it to proceed freely to make changes according to the will.

We went up to the critical moment of the ritual. Its success depends on how true magician performs a splash charged magical energy. One way contributing to this - the image on the paper plate with blood, kotoryyvyrazhaet will of the magician, his subsequent charging of the energy generated in the process ritual, and then burning the mark - Curse of the release force. Form (sigil) destroyed, and the essence (willpower) released to change the reality.

We have presented a very simple example, but every mage, no matter how big or small it is neither was their art, follow these guidelines. Will - the path to power, power - a way to manifestation of power. In magic, most importantly, in accordance with the will to attract and generating power (energy). That is what will be discussed later in this paper. For of all methods of augmenting internal force sexual magic is the most suitable and effective.

In sexual magic magician manages the energy generated by physical mental or sexual excitement, sexual energy and directs at committing the desired changes. In previous millennia sex magic was so covered with darkness, which has become one of the most arcane arts initiates. Written materials on this practice, because of the symbolic language and hypocrisy of the authors themselves, hide much more than can be discovered in them. Our task in this short text - to explain the basics of sexual magic that inherent in the left hand path (Vama Marga) and open to readers some of the methods and management principles sexual energy used MLO in sexual rituals.

To practice sexual magic, the magician must have knowledge of the nature of sexual energy and to the same extent it is clear to see why these energies can be used in the sexual union of a priest (male mage) and a priestess (Maga-women).

Understanding the difference between male and female sexual energies is Current extremely important in practice. The strength of sexual magic comes from the polarity arising in the sexual union of opposites. Men's and women's sexual energies are opposite to each other. Traditionally, the male sexual energy is expressed by the following symbols and functions - Alpha Energy, positive, electric, solar, Mars, fiery energy of Shakti / Shiva, the energy of Satan / Samael. Symbolism and properties of the female energy - Omega energy, negative, magnetic, moon, Venus, energy, water, energy, Shakti / Kali, the energy of Lilith.

Dagger and Wand - other symbols of male sexual power, cup and pentacle - female. The alliance of these four elements symbolizes the black candle with which is a spiritual transition duality and the union of opposites in the chaos.

When two opposites (Alpha and Omega), a strong polarity.

This can be compared with the two waves that break with the strength of each other, creating a vortex strong enough to absorb all that is near it.

The same thing happens when the women's and men's sexual energies collide with each other during sexual contact. There is a "vortex" energy, which, like beam goes through the higher planes and can reach even spiritual - the highest of the plan.

One method of using this great power in the sexual rituals magic - with the help of such a vortex pulling energy from the astral, mental or spiritual plane, and then direct them to form these energy in accordance with the will of magician, that is the purpose of the ritual. Through the emerging polarity mages channeling energy from external sources, in accordance with the will of his magic.

These same energy circulating between a pair of magic (priest and priestess) during the ritual, always increasing in strength. The traditional way (visualization, signs,

ritual activities, manipulation of mental, verbal and mentalnymphiformami), they can be designed to achieve the goal and committing ritual desired changes once released during orgasm.

Of all the methods of the release of magical energy orgasm most effective. In the above example the energy of sexual polarity and strength conducted a whirlwind, used to enhance the ritual. Whirlwind terminated existence as soon as the magical pair of peaks. It is critical that activated vortex strength is complemented and reinforced by the sexual energy itself practitioners, so they have to reach a peak at the same time. An example of how may performed ritual sexual magic with the sigil, visualization and Casting formulas below.

The ritual begins in a conventional manner. The dark gods called. Lit black and red candles, and burn the musky incense to honor the goddess Lilith. Priest lights the fire priestess, performing cunnilingus, and coitus in the name of Lilith continues kindle a flame. Partners are focused on how to take each other as can be more fun to concentrate and charge the sexual energy.

The more time a magical pair take to reach the peak, which unleash the energy-charged and created in the course of the ritual, the more force will be enjoy their sexual energy. When a priest or priestess made a condition known as a sexual trance, he or she should start pronouncing the formula or phrases which expresses their common will. At the same time pronouncing the formula sigil, indicating the purpose of the ritual, clearly visualized partner in a state of sexual trance. Trans comes at a time when all thoughts removed away, and pure bliss consciousness imbues the magician. Then the fibers between the different plans thinner, and is activated by a whirlwind. It is highly desirable that both partners have achieved sexual trance and uttered a single formula (visualizing a single sigil).

If the sigil is not involved, it should be of events, the most relevant objectives of the ritual. If the purpose of the ritual is to destroy the enemy cooked sigil should be possible to express the damage to the enemy. Same applies to verbal formula. If the sigil is missing, should be submitted daisy chain of events leading to a painful death the enemy. Priest and Priestess must agree in advance that they will chtó visualize, and during achieved orgasm bring visualization to a peak. During orgasm, sexual energy directed their common will, provided they give life to the spirit and astral ritual implements in life. The stronger is the "magical child" the faster change will manifest themselves.

In the above method of sex magic sigil, visualization or verbal formula is valid, depending on what exactly has the focus point, fertilizing the egg astral sexual energy of the charged will. If fertilization was done correctly, will be implemented in the desired. Indeed, like all powerful "spiritual child of the will." What was the created on the same terms, will manifest itself in all existing plans. What above similar to that below. Therefore any change in, for example, through sexual energy and visualization of images on the astral plane, eventually manifest itself in the the physical plane.

Another important and essential practice sexual magic is to work with legendary elixir. Elixir - charged alchemical substance mixed male and female sexual fluids. These fluid secreted by sexual intercourse during the ritual, and filled with adrenaline energy, kotoryemogut be used in the ritual. Elixir has a lot of applications.

Among other things, an object that acts as a magical connection that is to ritual may cause smearing elixir to strengthen the power of the ritual. Also elixir can be used to create a talisman or amulet, to strengthen the existing magical attributes, for example, the traditional magical weapons. Depending on

order for how the ritual was made elixir, the priest and priestess can use him to increase his magical powers, mixing with the ritual wine and having drunk in the name of the forces involved in the ritual. This can be done if the goal the ritual is to strengthen those who implements. In sexual magic will, and emotions, invested in the production of the elixir, strictly determine its properties and possibilities. If the elixir is created during the ritual of a destructive nature, for example, with intentions foment war, bloodshed, destruction of enemies, it is not too would be wise to drink it. Due to these specific circumstances elixir becomes magic poison that can be used only with "evil intentions. "

Elixir is also used in the magic of a burning candle. Magic expresses couple his will, inscribing or cutting expressing this sigil on the black candle. Further during the ritual sexual magic candle smeared received elixir and is dedicated to a specific purpose of the ritual. Then the magicians light a candle and allow it to burn

end, spending so all the power generated by them, and directing it to achieve the desired goal. Elixir is a simple effect of concentrate magical will and transformed magical energy. Its applications limited only by the imagination of the magician.

In contrast to the mentioned type of elixir, it can be very dark and strong structure associated in the power aspect of all creatures of the dark goddess. This a higher form of elixir can be created only when the priestess is experiencing my period of the black moon - the cycle of menstruation. Menstrual blood is central role in the black arts and black sexual magic, in particular, its role is great in it strengthens zlosuschie energy. The difference between the blood flowing through our veins and supporting our vitality, and menstrual blood, also called "blood

Black Moon "and" water of death, "is that the second one has a destructive sterilization, solvent and deadly force / energy. In the ancient traditions menstrual blood enraged dogs and gave the opportunity witch

the werewolf (lycanthropy), and allowed to control the bloodthirsty wolves.

Interestingly, the menstrual blood is closely linked with the dark and sinister moon forces that the best way is personified goddess of the black moon. This is due to the fact that menstrual blood is always stronger in the waning phase of the moon, reaching its the greatest force in the new moon. This period when the dark forces its greatest strength, the most suitable for the black rituals whose purpose - the direction of energy Satan goddesses. In these rituals, which by means of a black female energy strengthen the magical power, the priestess must always play a dominant role.

It is said that during the night the new moon dark goddess opens up the lightning in the night sky and expires menstrual blood on the ground. And if the priestess will expire during the period of darkness the night

New Moon, her magical powers are at a peak, and she will be in harmony with fury of the dark mother. During menstruation priestess can not physically get pregnant but it is the power to generate a disproportionately spirits on the astral plane. Thus, Sexuality is sexuality Lilith Eve and can be used to opening the gates of the dark side.

In the Kabbalah, the Qlippoth menstrual blood is called the gift of Samael, the woman who it can be used to achieve the strength and freedom. Taking into account the association srastvoryayuschey, dark, deadly force, menstrual blood can be called key to the anti-cosmic forces Qlippoth and use to communicate with the gods and Wrathful Chaos demons. Symbolic act, which takes place in many rituals MLO, is immersion ritual dagger in a cup of wine. Thus is the transformation of wine into an elixir called dragon's blood.

The transformation occurs through the polarity between the dagger / fire / Lucifer and cup / water / Lilith. These opposing sexual energy is transformed

the bowl, symbolizing the menstrual blood of the dark goddess in Elixir Dragon's Blood. Dragon's blood, or "poison Taninsama" symbolically identified with elixir produced by a priest and priestess in the course of the ritual sexual magic in the period menstrual bleeding priestess. In this powerful forbidden alchemy dark elixir called "red gold." He attributed the limitless possibilities malice. Among other things, the red gold / dragon's blood can banish the influence light and the opposing forces, and to help spread the dark dissolving energy flows. Dragon's blood can also be used sexual magic during appeals to the dark gods. In this case, the energy of the dark forces carried out and pulled through a vortex. During the climax of the ritual blood of the dragon absorbed by the parties, so as to strengthen the presence of the dark gods in their consciousness.

Dragon's Blood has a lot of applications in the field of necromancy, as a result of a synthesis of the two energies - female disastrous and male life-giving. It should also take into account the relationship of the substance over (Thread) 353 and the undead forces. Around the grave of a person with whom you wish to get in touch by posting eleven black candles or torches. Then within a circle of eleven lights is a ritual sexual magic. Goal this work - to give life to the shade of the deceased and with the shadow of the vortex rescue grave. During this ritual, read the proclamation to the dead, and the sigil, symbolizing the purpose of the ritual, activated vortex and clearly visualized. Vortex goes down during the ritual intercourse, and on reaching the peak of Magic steam releases the shadow of the deceased from the grave. Elixir dissolves in red wine and placed as a victim in front of the shadows rendered by both parties action. Dragon's Blood (elixir) will give strength and shade at the same time linking it to the will mages. Then, a shadow may be associated with crystal or mascot, or requested the necessary knowledge. It can be used as "Astral zombie" to further guide her in the dream of undesirable people in order to bring them to mind. All belong to the dark shadows of the dead in the aspects of the goddess Lilith

Hecate, Kali, Hel, Persephone and Ereshkigal. Therefore, prior nekromaticheskim should bring a bloody ritual sacrifice of one of the faces of the goddess of death. In addition to the applications outlined above, the blood of the dragon can be used in the opening of the gates to the internal Sitra Ahra, which will burn poison Taninsama all the illusions of space and contribute to the knowledge of the chaos. One of the reasons Sexual magic is suitable, lies in the fact that during the sexual trance when the vortex is activated, the inner gates opened a little, and consciousness of magic couples with is at the highest level. During this ritual, relatively simply to communicate and obtain information from the spiritual forces that exist outside the material plane. As mentioned earlier, this dark goddess - Lilith, Naamah, Mahalath Igrat, Hecate, Liikanen, Persephone, Hel, Ereshkigal, Cali, Baphomet, and Sekhmet Vampires, interaction with which most effectively and naturally in dark rituals of sexual magic. But such spiritual essence, as an incubus and succubus, also important in these practices. These demons belong to the sphere of the moon and black svoeyprirode have vampiric sexuality. MLO views them as spiritual tunnels that carry out sexual energy and vitality of the cosmos into chaos. Succubus, women's demonic essence, incubus, demons-lovers, there are a all the traditions and culture, according to ancient legend, the reward participants ordinances forbidden gifts for their sexual energy, taken in dark rituals sexual magic, which are present or which are involved in these dark demonic entity. But if they are not aware of is that the participants in the ritual are harmony with the black moon, demons can dispose of the Magi as their victims and completely deprive them of their life force.

An example of these demons can be found in the "Book of Enoch", which describes the

angels, called "guardians" of human beauty seduced women who violated the law demiurge, leaving the heavens and giving himself the physical plane to release their sexual passion. The result of Union Nephilim as these are named "Fallen" angels, women became race of supermen. Nephilim, whose leader was Semjase, gave his dark divine spirit to their children, thereby adding crimes to their rebellious acts. Those demonic children became known as "Geburimy". Being the demigods, they began to rule the universe. Nephilim, angels demons in exchange for sexual energy taught many people the forbidden arts demiurge, so, for example, magic, astrology, alchemy, war, sex magic, weapons, writing, lunar mysteries, knowledge of the cosmos and chaos. So were the Nephilim demonic fathers evolution and civilization. Demiurge, who wanted to keep the Angels and people as their slaves, and they were filled rage when he saw the violation of his cosmic laws. He called on his weak-willed angels headed void Michael and sent them to destroy a new race of supermen, bearing in dark flame. He ordered his servants to kill the Nephilim and all those who do not obey its laws. Even when the earth was red with blood, all refused to back down on freedom, except weak Noah and his wife. Creator willed to drown every living thing on earth, but their and his female slave, hit the ground deluge. The Nephilim are the angels who did not died happily joined the legions of Satan outside of the cosmos and vowed to avenge the blood of their brothers, their wives and children. So were the Nephilim The anti / kliffotic forces belonging Nahemoth - Klipp Naamah. Demiurge is recreated their generation with Noah and his wife - people without will. But Geburimy, dark demigods frequented create demiurge dark flame, which is further from life to life embodied in the strongest among people.

A lot of secret knowledge can be found in the story of the Nephilim, and practices Sexual Magic should work with these forces in their rituals. First, should refer to the "legacy of custody" to reinforce the dark flame - the gift of Semjase. The legacy is represented by five major groups of forces: Nephilim, Rafaimy, Anakim, Amalekity and Geburimy. Nephilim, meaning "lewd", - the demons, bestowing forbidden knowledge / Gnosis for sexual energiye.

Rafaimy, which means "fighters" - the demons, bestowing spiritual and worldly power.

Anakim, which means "anarchists" - the demons, sowing chaos and division.

Amalekity, meaning "aggressive" - demons, bestowing force in the war, inciting war and krovoprolitiya.

Geburimy, which means "violent" - superman with dark flame in his essence. With hatred and rage, he confronts the cosmic order.

Another tradition of practicing magic and strong sexual stóyaschey attention and study, is an Indian Tantrism "Vama Marga." Vama Marga - the path left hand - kind of Tantrism, in which the important role played by a woman (the goddess). In during sexual intercourse magic priest and priestess, goddess personifying can be endowed with magical experiences that deify them. This distinguishes this way Tantric way of the right hand, in which the achievement of the divine is expressed only symbolic and has no implementation on the physical plane. In the tradition of Vama Marga sex magic plays a major role and in forms that resemble those that described previously in this paper. The polarity between the feminine and masculine strength, unity opposites and the awakening of the inner flame is also essential for this tradition. This kind of tantric yoga is based on the ancient teachings, and aims Goddess Kundalini awakening, which slumbers in the depths of the human soul. The practice is based on the impact on the seven centers of power. In Tantrism these power centers are called "chakras" and placed on the physical and astral body. The first chakra Muladhara is in the area between the anus and the genitals. The second - Swadisthana - the genital / urinary opening. Third - Manipur - Solar plexus. Fourth - Anahata - the heart. Fifth - Vishuddhi - throat. Sixth - Aina - in the area between the eyebrows. The seventh and final - Sahasrara - the crown / crown. In Tantrism Goddess Kundalini (Shakti / Kali) sleeps in the lower chakra Muladhara, and the god Shiva is the seventh chakra Sahasrara. The purpose of "Kundalini Yoga" as one and the

basic practices of Tantrism - to awaken the power of the goddess and elevate it through all the chakras, in

eventually connecting it with Shiva. Thus, an ecstasy, breaking all illusions and forever liberating spirit. The Goddess in the role of Kundalini described as a fiery red snake lying coiled coil in three and a half turnover in the Muladhara. Kundalini (there is also appropriate name Shakti) represents latent vitality of human awakening that leads to priumnozheniyuenergii and magical power. Kundalini or Shakti, which means the force is a lighter aspects of the Goddess, while Kalishakti - dark goddess - represents the inner black flame (black Kundalini). In the tradition of Tantrism Kalishakti - the dark force of the force samóy dark goddess that people keep in currently. She - the goddess of the dark sexual magic, which embodies the sexual passion. We can say that the art itself sexual magic under its authority. In practice Vama Marga when Kali is embodied in the priestess, and Siva or Kalishakta, dark man's strength - in the priest's ritual sexual act frees up a tremendous amount of magical power of God and to connect with the goddess. It also gives the elixir divine properties. In this case it is "Kali Vin". It can be used to wet the chakra Ajna, which facilitates the opening of the third eye, destroying all illusions.

Tantrizm Vama Marga similar to kliffotic sexual magic practiced by MLO. It takes the place of Kali Lilith, and the place of Shiva - Satan / Samael. Awakening dormant forces that will connect with the dark goddess dark god, remains a major the purpose of the ritual. The opening of the seven gates of the dark (portals) - Gehinnom, Shaarimot, Tselmot, Barshahet, Titahion, Abaddon and Tehom - corresponds to work with the seven chakras in Vama Marga tradition. The task kliffotic sexual magic, among others - awaken the blind black dragon, slumbering in Gehinnom, and he opened his eyes Taninivera, make possible the unity of Lilith and Satan. Taniniver - Black fire dragon, warring against the cosmos. He - the force that carries through Lilith Gehinnom and the rest of the gates of Hell to the sixth gate. Here Taniniver regains sight and makes possible the union of Satan and Lilith in Tehom. Sight to the blind dragon - the essence of esoteric work MLO and the path to eternal freedom in chaos. The main character in the

Before the beginning of the beginning everything was formless eternal sea of chaos. The darkness and silence

emptiness prevailed there, and only eight non-existence of gods existed in this endless chaos. The eight gods of chaos ruled the black ocean of chaos, Nun, and together they ran the initial randomness.

It was the evil gods - Eight entities: Nun and Nunet, the gods bottomless sea, heh and Hehet, the gods of infinite space, Keck and Keket, dark gods, and Amun and Amunet, invisible gods.

At the base of all the possibilities that are in vnevremennóm chaos, as they say, there is energy, which later led to the emergence of the spirit of Ra demiurge, who began to take shape in the darkness of the formless sea. When the spirit of the demiurge grew strong enough its fake and dirty nature began to affect his entourage. This going down to the depths of the first sprouting of a lotus flower. Quietly opened blue lotus flower and its petals revealed the demiurge that the image of the young god sitting in his golden middle. The light that was in line with the darkness of chaos, proceeded from the body "Divine" child. That child who was demiurge Ra, managed their dirty light to drive and keep the chaotic darkness that surrounded him.

But the forces of chaos have never been defeated unworthy of the demiurge, and they surrounded him in the form of demonic monstrous snakes and terrifying dragons. For eight primordial chaos and evil gods, whose darkness defiled Ra-Atum, began to boil and rage. From the black waters Nut rose the most horrible of all dragons.

The name of the dragon of death was Allen, and the sole purpose of its existence Ra was to destroy and extinguish its light, in order to restore the original order promiscuous pure darkness.

But when Ra, surrounded and blinded by its own light, learned of the presence of dryakona Wrathful Chaos, the mighty Allen, he was filled with horror and realized he kák alone in this war, which he inadvertently started against the eternal forces of chaos.

It became unbearable loneliness, and Ra missed another creature that supported and comforted him. So Ra created with the help of his first ejaculation and his will, Shu, the god of air, and Tefenet, the goddess of moisture. But due to the fact that Ra was

so filled with horror to the forces of the Wrathful Chaos, whose presence he was constantly felt he had lost Shu and Tefenet deep in the chaotic sea. Demiurge Ra, panicking, tore his own eyes, and filled it with his strength, so he began to shine it light. Eye of Ra called his daughter and christened it the Hathor, and then sent her into the darkness, that she had found his missing children. Light eyes penetrated the darkness of chaos and found Shu and Tefenet, bringing them back to Ra.

As a reward, the demiurge put the eye in his forehead in the form of a large venomous cobra snake named Urey. He promised her that her strength will always be great, but in the future, and the gods, and people will be afraid of it.

Then Ra-Atum embraced their first children, Shu and Tefenet, and wept with happiness and relief.

"Allen become." Meaning and translation of magic formulas, see Chapter II.10 Words of Power / Names

Seth-Tifona.No that Ra was not known and that we are carrying a black flame, always known - that while the Shu and Tefenet were in a sea of chaos, they were both raped Wrathful Chaos dragon, and the dragon seed penetrated deep into Shu and Tefenet and disappeared in their forms. This anti-cosmic seed, the seed of the dragon, with the first offspring of Ra penetrate through the protective aura of the demiurge, and the final war between light and darkness it will rise and break inside the creation of Ra to pieces.

But Shu and Tefenet, because magic Apep themselves did not know about the anti-cosmic act of violence, love one another, and Tefenet soon gave birth to twins - Geb, god of the earth, and Nuit, the beautiful goddess of the sky.

Without having to learn any of this, our Lord gave Apep seed Nuit and Hebe.

This evil seed, The anti-seed, that slumbers in the heavens and in the earth, waiting patiently for slóva our father Allen, to ascend. Although the great dragon, Apep, was outside fence light, it is still in full control of herself, which he his

cunning act moved to the creation of the demiurge. The terrifying dragon that dwells in Wrathful sea of chaos, could now using the deep essence of anti-cosmic sea, What is his evil seed, to monitor developments in the world of moronic demiurge.

Again, the silence was broken in the chaos that used to be silent. But This time - laughing our father, prorézavshim unholy silence, for now Apep was sure that he would win the final war against the creator god of dirty light. Geb Nuit loved his sister, and for many centuries they were hugging each other, not knowing about the dark matter of fact, they are in themselves. Nuit / heaven pressed on Hebe / ground, so

there was no room for anything else that might exist between them. When demiurge of Ra-Atum saw it, he jealous because he created these gods to shared his company, and now it turns out that none of them cares about him. Finally, Ra commanded their father - Shu - separate the Nuit and Geb. Obedient to God Air Shu went to his son, Hebe, and open hand raised my daughter Nuit, and began to hold it high above his brother. Jealous and stupid Ra-Atum was not satisfied, because he saw that Nuit in its merger with Gebom pregnant. So he Nuit put a curse on her to any of the days of the year, they installed but not could give birth to a child. Geb, now lying at the feet of his father, struggled to free Nuit, cry dark tears. She ran down, but they could not regain each other.

Demiurge, tired of these ungrateful gods, created a lot of other creatures, which, he hoped, would be more accurate. Among them was one that should was to become one of the visible gods.

When he saw the beautiful body of Nuit sad, stretched above the ground, he it was very sorry, and he decided to help her. He invented the "Late Game" (dice) and offered to other gods to play with him for days. So gradually managed to cleverly Tautou winning more and more time at the other gods, and the payoff came up to five days. Demiurge decided that each year will consist of 360 days, but the crafty He made time that he had won, and so created the five extra days. These extra days are not included in the curse Ra-Atum, so Nuit now has the opportunity to give birth to their first day of detey.V Nuit gave birth to a child who has already been crowned, and he received the name of Osiris. The next day Nuit gave birth to a daughter, Isis, which is primarily a Born in love with silly Osiris.

Evil seed Allen, hidden inside Nuit, received instructions from the dragon's death Apep on how to penetrate deep into the creation of a demiurge capture the strongest descendants of Nuit. But when the evil seed, whose name was Isfet, saw Osiris in the womb of Nuit,

it was sure that Osiris unworthy to be penetrated by the depths of the essence dragon. Isfet who could see into the void that is called the future and saw that the fate of Osiris - to be beaten, cut and forever condemned to death is very powerful god. Therefore Isfet decided not to merge and be born through the body Osiris.

Also another child Nuit Isis was evaluated and was recognized as unfit Isfetom before his birth. Isfet who could look into the future and saw that Isis will embody the nature and cosmic laws and the creation of forms of formlessness. It filled Isfeta disgust and hatred of Isis, and therefore Isfet decided not to connect and be born in the body of a prostitute Isis.

But on the third day - before Nuit managed to give birth to her third child - Isfet received word from his father, Allen, that today - in order to take shape and grab another child Nuit, whose name - Seth.

When Isfet heard the voice of the dragon, he immediately crept closer to Seth, to check it out. He saw that the great Seth is in the womb of Nuit bears his dark dreams of world domination and chaos. It filled Isfeta joy. Isfet Seth looked to the future, in order to be sure that Seth is suitable for a to connect to it. He saw that Cain Seth sits on his black onyx throne, surrounded by mutilated bodies of all the cosmic gods, and under the feet Seth saw the laughing Isfet severed head samogó demiurge Ra. It's incredibly

Isfeta pleased, as he now saw that the fate of Set - struggle with space order, Maat, and win the unworthy of the gods. Isfet entered in the name of Allen, in the body Seth dormant and raised him. Great Seth, now possessed by the power of the Wrathful Chaos, opened its burning red eyes and lays bare his Sekhem was Isfet, and cried with hatred.

Seth, who knew that he - the most powerful of the gods, was filled with hatred for her mother, Nuit. Already in the womb of Nuit he knew that his faithful right - be the first-born son of Nuit. But instead of him unworthy gave birth to the first Nuit Osiris, thus granting him the royal crown. Seth, obsessed with the wicked rabies, ripped Nuit inside and punched a hole in her side, from which it got out. In this completely unnatural was born a king. During this horrific birth Nuit screaming in pain and crying blood, but none of the other gods did not dare help her. When Seth got out of the body of Nuit, he cursed the other frightened gods and ran off into the red desert that has become his greatest kingdom. Seth was so lonely, and the great god, bringing a storm of Wrathful chaos in the cosmos.

On the fourth day, the day after the birth of Seth, Nuit had time enough to come to themselves to be able to give birth to her fourth child and second daughter, whose name Nephthys. Nephthys, which is also called Nebhet, hated his brother Seth, who leave her alone. Even before the birth Neftis learned the terrible force of Seth and hoped chtoon as Isis was married to Osiris, marries a powerful Seth. But Seth despised the weakness of other gods, was not interested in love. Because of this Neftis entered into an alliance with the other gods, who started the war with Seth.

Demiurge, intoxicated by force, known to him now that his command others were living gods, has created many other gods and goddesses. He filled the skies, the earth and the underworld countless spirits, animals, demons and other minor deities. One of these gods, which the demiurge created in the state confusion and intoxication, was the one called Hum. The task was by Huma potter's wheel to create a form that would fill the demiurge of his creation. And demiurge ordered Khnum create the first people with clay Hebe, a former particle Seed Allen, dormant inside Hebe pending awakening to life.

This particle is the seed of the Wrathful dragon was called Khem Sedzhet, which means black flame. Hem Sedzhet Apep awakened to the call from the other side and instincts vedómy chaos, divided into 72 fire. These fires spread and sank deep into the clay, which Khnum was going to use to give form to the new creation, man. It so happened that in 72 human forms that have already entered the essence Hem Sedzheta, Ra-Atum breathed life. So part of the seed of Apep, who was in Geba, moved to the 72 original person. These 72 children were and still are the dragon live gate for the stormy sea Nun, which our father Apep.

We, the priests and priestesses of chaos, so different aspects of the initial share Hem Sedzheta and accept a Ba black flame. Our cosmic forms die, but our black flames that come from outside the space, like the chaos - and forever indefinitely. We, the offspring Allen, burn the creation of Ra-Atum our formless black and withering fire, in the name of our father and our Apep commander and Seth King, we have chosen, we restore the original formless silence of the ocean chaos.

For Isfet and Hem Sedzhet stronger than Maat and Apep and Seth stronger than the whole crowd unworthy of the cosmic gods. And we also 72, is stronger than anything else unworthy humanity. For where there is at least one of us, carrying a black flame, you can see the final limit of the "now" and the infinite, which will come after.

72 When the flame will come together and will generate 218 new lights, the sun Ra-Atum extinguished forever, and then Seth will take the place of the eternal winner on a black onyx throne. For we, whose dark essence - the dragon, looking into the dark void that is eternity, and we know that the final victory belongs to our mighty

father, Allen.
Xeper-I-Apep.

So, hear my call, O ye that are one with Hem Sedzhetom, and open your eyes! Rise in power, Heper-and-Seth, come to me, united under the dragon wings and Heper-I-Apep!

II.4 «Being" against "to become"

As part of Draconian setianizma there are two main areas.

The first area - the natural and cosmic, pre-established, and the ordinal undefined - bytiynoe. Eto direction, which is undesirable for the magician, usually said to exist under the control of Osiris and Horus in harmony with the cosmic tyranny, whose name is the goddess

- Maat.

Maat represents stagnation, lack of development and the limited structure. In this restriction, and the existence, created by someone else (Ra), the adherents of Maat should be, and be happy with this as not breaking the laws of space order, they have to "go with the flow" and feel comfortable with all the other Creating external forces, allowing the space rock to manage their lives.

Thus, to be - is the same as the path on the right hand drive where everything is familiar and experienced and self-reaching, and others. Therefore, "to be" was the antithesis of Draconian Setianizmu - goals and form of existence, is sought on the left hand path.

For other form of existence, the way Setianicheskogo magician eternal becoming, is in sharp contrast with the natural and limited form of existence.

Become (Heper) - means consciously seek outside of the prescribed predetermination circumstances exist and fight for that on all planes become self-creation, in accordance with its own magical will.

The source of this will for the establishment of their own creation and release from all bonds and weaknesses that bind us to the creation of which is not in harmony with our own will, is called in the dark tradition of "Hem Sedzhet." Hem Sedzhet means "black fire" and is the will of the elected to power, wisdom and freedom.

The will to power and a permanent establishment is not in space term, natural and leads directly into the cleaning darkness of the desert.

Because the establishment is not in harmony with the external Maat and is based on Isfet driving force, anti-cosmic impulse.

Isfet - the external dimension of internal black flame, and usually it

personified by our Lord and example, the mighty Seth.

Seth - "unnatural god" who, with his dark chaotic energies brings revolution and evolution and who, in accordance with its dark will, directs and shares (Coagula and Solve), deserving veneration for the fact that it destroys prevailing law and order structure.

Set - immortal will, which refuses to be in those who are willing restricts himself, and so he - the god of freedom, boundless and eternal shining greatness.

Becoming so synonymous with the left hand path and is the greatest Setianskoy formula alchemy.

This esoteric alchemy of transmuting base goes into something noble, turning man into a god and the cosmos into chaos, it was possible to become, in all the boundless, timeless and spaceless plan.

Space is space and dies, while chaos was chaos and mayhem there abide becoming ever.

For Heper-I-Set, so then Heper-I-Apep.

Become a god, come out beyond space and then become one with the eternal, infinity, the emergence of chaos.

Heper-I-Ham Sedzhet.

II.5. Setnakt / Seth Great!

Seth, whom the Greeks called Typhon - is terrifying Egyptian and cruel God, who, according to the inscriptions and records, the archaeologists found, among other things called "powerful god, whose rage is fear."

Seth also known as "Mighty of Thebes" and "Lord of the Desert".

Seth described as terrifying and powerful god of war, who awards and grants victory strong following in his footsteps and devoted to him. But he also - a cruel and merciless god, torturing and destroying all who dares to stand in his way.

Iron - metal devoted to Seth, and it was written that "the bones of Set-Typhon - iron. "

Seth takes a lot of symbolic forms, such as: griffin (Aheh), river horse, alligator, black pig, donkey, tortoise, leopard, snake and dragon.

And while all of the Egyptian gods are like animals, Seth - the only god who likened to a mythological animal.

Seth is also identified as a "black sun, lord of darkness and the god of murder."

He - the god of the desert and barren land, constantly breaking the cosmic laws and natural poryadok. Set also - Mr. storms and nightmares, his black magic plunge men in the madness!

Unlike the other gods who did not want a big change in the world that they created, Seth - god who have been coerced into the evolution and development. Set - God helps those who help themselves, so it is - God and an example to strong.

Seth also - the god of isolation, loneliness and misanthropy.

Because he - the only god, and were drawn away from the rest of the gods, which of for his weakness and stupidity saw themselves his enemies.

So Seth - the one and mighty lord, leading off their ego, their fate and the future.

Seth - the one who cuts off and isolates to do so strong and godlike!

Seth has always been regarded by Egyptians as "satanic god" because before Osiris cult spread throughout Egypt (c. 4000 BC), Seth officially worshiped in a large part of Egypt, and there were many large and mighty temples dedicated to him.

It was only natural, since most of the Egyptian desert consisted of regions, and Seth was the master of the desert.

One of the many famous temples dedicated Setianizmu, was in town Tanis.

This temple was used as a focal point for the direction of energy in Seth one of its aspects "of the mighty god of war."

During this period, Seth was worshiped and glorified, even though he was seen war god cruelty, violence and bloodlust!

Also, many of the pharaohs and other powerful people were taking his name Seth considering him the greatest god.

But when the cult of Osiris in Egypt has spread like a plague, and demonic evil aspects Seth stood out more and more.

Because Seth on the basis of "their own intentions" killed Osiris and cut his dead body!

So fans of Osiris used the "evil reputation" Seth same way, as Christians in a few thousand years have a reputation Satan.

This went on for a very long time, until the name of Seth not be blotted out of the sacred scriptures and were not destroyed all the temples Setianskie.

Set in a fierce form of an enemy of the Egyptians, but also the god of foreigners and strangers.

Seth is still regarded as a terrifying and powerful god, but now text is known to us only by its destructive aspects, and he became identified with the dragon Allen, with whom, as previously thought, struggled.

Thus, Seth became the prototype for many of the "infernal imagery" of the future religions, for example, the Christian Satan!

III.1. Ama Ushumgal Anna

At the beginning of darkness reigned, and all was chaos.

Tiamat, the mother of chaos, with Absu, the father of the depths, ruled in eternal darkness and perfect silence.

Tiamat and Absu have created original ocean of chaos.

Absu sweet water mixed with the salty waters of Tiamat, when he dreamed of dark dreams.

But the dreams of two of the oldest energy impure, alien chaos began to take shape in the darkness.

These evil forces have increased in strength.

It happened on its own, without waking the mother and father of the abyss of chaos on their dark slumber.

From the impure forces that took shape in the darkness, began to appear dirty gods rebels.

From the forces of alien chaos gained their shape, unworthy bastard gods of light

began to appear.

Among those was one of the new gods, the strongest, named Enki.

Enki was the master of the bastard gods.

Enki became the king of the gods unworthy.

And perfect silence ceased to be perfect, because the eternal night was broken cries bastard gods.

Absu, the father of the depths, awakened from a nap and was furious.

Tiamat, the mother of chaos, awakened from sleep and filled with hatred.

With disgust, they looked at the new gods.

Eyes full of hatred, they saw how multiplying bastard gods.

It saddened mother Tiamat.

It has fulfilled his father Absu vengeance.

Even Enguri black waters of the abyss, could not stop joyous laughter of the gods-the bastards.

Even the black abyss of fog could not hide the presence of the new gods.

The behavior was disgusting bastard for a father depths.

Absu raging, full of hatred for the behavior of the new gods were inappropriately.

In his fury, he turned to the dragon Tiamat, chaos, and said,

"The behavior of the gods, the bastards disgusting to me, because I have no more rest, and there is no

I sleep in the dark.

I will destroy, I destroy, I will destroy what they have done, that the purity of chaos was restored to once again we can see the darkest dreams. "

Upon hearing these words, Tiamat was filled with joy and shouted to his wife:

"Destroy them, created from my dreams. Their actions are disgusting to me.

Destroy these gods rebels, my husband, and my arms will see you again

Powerful dark dreams. "

When I heard this Absu, his face beaming evil that played on his to the gods, the bastards, to his own hideous offspring.

When new gods saw his father Absu, enveloped aura of hatred, they filled with fear.

They rushed to Enki, his king, and told him: "The abyss is ready for war, and the all-powerful dragon of chaos utters curses retribution. "

Hearing this, Enki filled with fear. But being the king of the new gods, the most vile and insidious among them, he said to his servants:

"Let's poison the water depth and the power of the ring in the darkness of the abyss, it also brought our

light into darkness, blind to the fact of our father Absu.

Let us destroy it with our common joint forces, for Absu proud and does not expect cowardice.

Let us will attack from ambush, and our magic Absu plunge into the deadly water that he always had dreams of death. "

Absu, the father of the depths, risen from the abyss and ready for battle, but the treacherous gods light blinded him and poisoned his water.

They attacked Absu ambush and left him in a death dream.

Disgusting bastard gods were filled with joy and enthusiasm they copulated with each other in order to create a new life.

So the gods of light celebrated his treacherous victory, and the king of the gods, the bastards insidious Enki said to his servants:

"To build a temple, and to profane the name of our dead father, said to be the temple in the name of Absu. Let us make this church a dirty life, which will counteract the chaos ".

Upon hearing these words, the rest of the gods were filled vile joy.

On the very spot where they were defeated by treachery Absu, they approved the temple.
To desecrate the chaos, they called the temple of Absu.
In the temple of Enki Absu lied with Damkinoy whore.
In the temple of Marduk, Absu was born.
In a dirty temple of Marduk was born the son of Enki, the son Damkiny.
From the womb of a whore Damkiny Marduk was born, and all the gods of the world have brought
their
gifts to him.
All gods are bastards-light bestowed upon Marduk his strength.
Marduk was the strongest among the gods, the bastards, in the same cowardly and treacherous,
Like his father Enki-cheater, was Marduk.
The mighty Tiamat, the mother of chaos, Tiamat, the mother, the great dragon, filled
rage, filled with hatred, climbed out of the darkness, full of anger and her cries
rang out in the deep, were heard in the darkness.
Tiamat cries were heard in the Nahr Mattar, and they were like a storm,
affecting all of the soul, except her devotees, are in the Da-Ra-Ku-EU Kuga Bar Sheg.
From the darkness of the cave Yes-Ra-Ku-EU Kuga Bar Sheg came to Tiamat spirit of retaliation.
The spirit of revenge Tiamat said:
"Your husband was killed by the gods-bastards killed Absu abominable gods-
bastards, they killed his betrayal of our father, his mud they
desecrated the darkness of chaos.
Avenge the same for our beloved Absu, a mother of chaos.
Avenge the same unto them, O mighty dragon. "
Upon hearing these words, rejoiced Tiamat, and she cried in the darkness:
"It is time to revenge, hatred winds will rage, and fire damage
burn all living things.
The spirit of revenge awakened me from sleep sorrow, and now we will avenge his father
depths. "
His magic Tiamat convened living darkness.
She called evil demons and gods of chaos, and they all gathered around the throne dragon.
In a rage, they conspired, expecting battle, in wrath and fury, they were advised
planning to move voyny.Mat Tiamat, hateful, said the ancient curse and its magic
called Hubur, Hubur - High Priestess of Tiamat Hubur - creator of the demons.
Tiamat said to her:
"Create legions of retaliation, create chaos demons, create gods of destruction,
for I, Tiamat, the mightiest and most ancient of the gods of chaos, require new blood
the gods as a sacrifice.
Create an army of warriors of chaos, which will take revenge for the death of Absu.
Create Avengers chaos, my faithful Hubur and avenge sorrow dragon. "
Hubur, violent shade of Tiamat, the dragon bowed before the throne, and his black
magic dragon-called monsters with sharp fangs.
Poison instead of blood she filled their bodies, fierce giants of the Dragon clothed
She was horrified.
She surrounded them glow of terror and made them gods, and those who are determined to be
confront them, would have been destroyed.
Hubur called Hydra, Raging Dragon and Lahamu, the great lion, fierce
dog and man-scorpion.
Powerful demons of the storm, the man-fish and kozlorogogo carrying
merciless weapons and knows no fear in battle.
Eleven of the gods of chaos are both given.
When all was ready, Hubur knelt in front of the dragon Tiamat.
Tiamat, the great dragon, Tiamat, the personification of primordial chaos, exclaimed,
voice full of hatred:
"Hubur, my faithful priestess, I'm quite happy that you created, but who

These eleven lead to a complete victory and bring the broken souls of the gods-bastards my sacrifice? "

In response to a question the dragon of chaos Hubur his black magic called his husband, she called on the Grand Prince of Chaos, captain of King.

Before the throne Tiamat, she praised the King, and in the name of Tiamat, she chose King the leader of the army.

Hubur elected King to lead an evil army to take up arms in the battle, command of the battle she passed into the hands of King.

Hubur allowed the King to take his place on the council, and before the throne of Tiamat she said to her husband, the powerful King:

"I cast a spell, I made you great among the gods, I filled the hand your power over all the gods, you are now more powerful than ever, my husband. Let them be crushed dirty bastards gods beneath your feet. "

Hubur King gave the Tablets of Destiny and pulled them firmly to his chest.

Tiamat herself exclaimed:

"Now King is ready for war, King - the avenger of our death Absu."

Legions of Chaos armed for battle against the gods rebels, disgusting creatures of Tiamat.

Dirty rebels gods again horrified, their god Enki shaking with rage and fear.

Enki hid in fear and crying tears of blood on his throne, for he knew that no one can resist the wrath of the mighty Tiamat and survive.

Craven Enki, the crafty god, summoned his servants and told them about the charms, great dragon who directs them.

Enki told them about eleven, created by the will of Tiamat black magic Hubur.

He told them about the legions of retaliation, which, under the leadership of King prepared for war, and when all the gods of the world heard this, wept blood tears, for they did not know who would have dared to answer the legions of death,

who were under the command of King avenge Absu. Kovarnye gods were silent, and the shadow USMU 11 fell on them.

But Anwar, the eldest of the gods, the bastards found a way out.

Anwar asked Enki and said to him:

"Those whose strength is immeasurable, will be protector of his father.

Someone who will fight the chaos - Marduk, the hero. "

Hearing this, Enki called his son Marduk, and said to him:

"O Marduk, my devoted son, listen to his father, for the shadow of death fell on all of us. Mother Tiamat, the evil dragon, declared war on us, came from her dreams. She attracted legions of chaos and darkness that are ready to shed our blood.

You, Marduk, our last hope, for among us who are not used to the dragon, no do not dare to fight with the soldiers of Tiamat, who is King.

I, Enki, I want you, Marduk, the strongest of all the gods, protect us from the fury dragon. I want you, my son, defeated Tiamat. "

Marduk, being full of hatred to the forces of chaos, swore before the throne of his father, mother Tiamat answer war, using the same power, which bestowed upon his gods.

Hearing this, the gods rejoiced, but Marduk, skilful among the gods-bastards gathered them and presented them with their terms under which it agrees to command srozheniem against the forces of chaos.

He told his father and all the other gods:

"If I, Marduk, Enki's son, and I will fight with Tiamat, I need blessings and powers of the gods.

I, Marduk, exalted far above all, I want power over the highest throne, because if You do not extol me and do not do the Almighty God, then my strength will not enough to deal with the chaos and death must overtake us all. "

The gods, fearing the coming of the war, decided to accept all requirements of Marduk.

They built temples in honor of the mighty Marduk and praise his name.

They proclaimed king of the gods Marduk and gave him the scepter, throne and possession.

Gods bastards armed Marduk powerful weapon.

They were armed with bows and arrows Marduk.

They were armed with an ax and a sword of Marduk.

They are armed Marduk lightning and fire.

Using the new powers, an insidious Marduk created a network of light to ensnare their enemies.

Marduk called the four cosmic winds, he created a whirlwind and storm, to protect themselves from the fury of chaos.

He had sent these winds on the mother dragon to bring it into disarray.

Marduk, ready for battle, called the mighty gale. Surrounded protective whirling, he flew over the army of darkness.

Marduk was brought before the throne of the dragon.

Before the depth of the chaos brought Marduk, at the throne of chaos, it is the mother Tiamat again descended into the depths.

Face to face with the dragon, Marduk declared war.

Not Kneel down and dirty Marduk dared to stand before the throne of Tiamat.

Umm Ushumgal Sumun Tiamat¹², the mother of chaos, full of rage, full of hatred, glanced at the rebel Marduk.

Through the eyes of death, a look of hatred, he looked at his son unworthy of Enki.

Tiamat sang a song of death, she cried conspiracy.

Death.

Ancient Tiamat, the Great Dragon (shumersk.). Tiamat said ancient spell and attacked Marduk his black magic.

Son of the gods, Marduk skillful, was full of fear.

Eye of Marduk was gushing blood.

Marduk was flowing from his mouth red water of life.

Marduk was oozing out of his ears divine blood.

Marduk was screaming in pain and slowly drowning in his own blood.

Sixty demons tormented body Marduk.

Seven demons drank the blood of Marduk.

The great dragon, the mistress of chaos, seated on a throne, laughed and jerk Marduk and anguish.

Legions of Chaos, vedómye King, surrounded by Marduk.

Sons of hatred, malice daughter surrounded Marduk.

Marduk, full of fear, he saw the shadow of death, approaching him.

Desperate and depressed evil surrounding him, Marduk urged their cosmic winds.

He called on his storm and had sent them to the demons.

He threw light on its network of Tiamat.

The dragon of chaos, full of hatred, shouted ancient curse.

Now Marduk fought head-on, and he had sent the four winds in the face Tiamat.

Code Tiamat opened her mouth to cry out in anger, Marduk sent cosmic winds into it to she could not close her bloody mouth.

Mother Tiamat, the greatest of all, Marduk shouted:

"How can you hope to kill something that never lived.

How can you beat that was never born.

I, Tiamat, was everything when it was nothing.

I am the rules before there was death.

I - the emptiness and the eternal darkness.

I - the chaos, the destroyer of all order and the mother of nothing.

How can you, Marduk, the only son of my stillborn dreams
all hope to rule forever.

First of space was chaos, and when the cosmos would fall again everything will be chaos.

Well, rejoice the victory of his short-god bastard, for I, Tiamat,
anyone who has seen the first signs of fate, I know how this war.

Enjoy our small victory, Marduk, for when the lights and new gods are
destroyed, I'll edit again. "

Marduk, Tiamat, for fear of a mournful voice, let the winds of space in its
guts to tear it from the inside.

But the mighty Tiamat, the dragon of chaos, did not utter a cry of pain, just laughing
sad laugh.

Marduk, the new king of the gods, full of fear, he sent out arrows of light and ripped
the inside dragon.

Arrows Marduk insides ripped dragon and shared what was inside.

Laughing, she fell down the mighty Tiamat.

Laughing, she fell asleep chaos mother's death.

When the troops of King saw the fall of the dragon, it confused them. But the supreme
Priestess of chaos, invisibly prisutstvavshaya in battle, demonic witch Hubur,
who was watching the battle, turned black by the wind.

Before the shed blood of Tiamat touched the ground, before the spilled blood
the dragon of chaos was desecrated dirty Marduk Hubur collected the blood of the great
Dragon and carried to places unknown light bogam. Predannaya Hubur, the mother of a black
magic, evil witch Hubur claimed the blood
dark edge and splashed into the endless void.

From the blood of the dragon rebelled powerful kingdom Wrathful Chaos.

From the blood of the ancient chaos of the adult Avengers darkness, that shall avenge the fall of the
throne
dragon.

The mother's blood dragon was spreading, and so all the chaos surrounded what was to become
cosmos.

In the darkness of violent chaos reside evil demons, eager in anticipation.

Sinister Marduk, unaware of the deeds Hubur, not knowing about the new demonic
kingdom, stood near the body of the "dead" dragon and collect their weapons.

For the one who "killed" Tiamat, was cast down King.

King, the last of an ancient race.

King, Dragon Avenger, burning with hatred, ready for battle, but before

What a great warrior King joined the battle against the undignified Marduk, before King
purposed to plunge into the waters of Marduk's death, he was caught by the army of the gods-the
bastards.

King was defeated legions of crafty gods who dared to appear.

For when the dragon "died", and eleven, created magic Hubur scattered,
Bastards fulfilled courage.

Mighty King was bound burning chains.

Dirty Marduk stole the Tablets of Destiny from the chest to King and decorated them his chest.

But the chaos of demon prince laughed dirty Marduk and said:

"On the cowardly dog, it seems, your cunning saved you this time, but I

Lord of Chaos troops, saw the Tablets of Destiny and know how to end the struggle between
cosmos and chaos.

I looked at the black plate and saw how your own creations turn around
against yourself.

I saw that the servants of the blind rage of the sword will open the gates of thirsty gods waiting for the day of wrath.

I, King, saw those who vedóm spilled my blood, revenge for original chaos, defiled you.

The dragon will rise and I King, revenge.

So rejoice as his brief victory, for the victory of chaos will be eternal.

My nemesis - the legacy of my blood, and eternal hatred in my blood.

So rejoice as their victory, Marduk, because when the day of wrath, your blood shed in my honor. "

Hearing this, Marduk ordered his men to withdraw and shut King.

He ordered the King in chains in a dark cave USMU.

All of a crowd gathered around the new gods Marduk and glorify him.

Marduk, despicable bastard, his sword cut off the head of dragon.

He cut her veins, and when he saw it, his father was filled with happiness and joy.

Marduk, looking at the body of the dragon, decided to create the universe out of the trunk of mother dragon.

He cut it in half and made from one half of the sky.

Of the other half he made the earth

Marduk set guards to keep invade his creation of "those who

is out "for Marduk sensed hate those that took place from the spirit dragon blood.

He built a wall to protect their creations from the gods Wrathful Chaos.

Marduk set the locked gate to the sea of chaos is not flooded the universe.

He put the watch gods and approved them constellation.

Marduk created a year and a day and gave the gods controlled planets.

The son of Enki created the sun to shine by day and the moon, illuminating noch. Vse praised the gods Marduk and gave him the title of "god of creation."

Marduk rejoiced honors, has decided to create man, and that he also dignify and worshiped him.

Marduk to his father Enki's tale:

"Blood I link together and form a skeleton.

I will create the first man, whose purpose will be to worship and serve forever. "

When Enki heard this, he was proud of his son and called on other gods,

Marduk devoted to them in their plans for the creation of man.

The gods Marduk heard plans to create a person who will worship them, and fully supported his plan.

Artful Marduk was pleased and addressed the assembled gods:

"Who of you is willing to sacrifice himself in order to man was created by our faithful servant? How many of you will shed their blood to create slaves of our blood and mud?

For the creation of man I need the blood sacrifice of blood and life of God, for to give life to man from clay, God must be sacrificed. Which one of you is ready die to realize desire higher divine assembly?

Hearing this contemptible demiurge, treacherous gods were afraid, for none of

They are not ready to sacrifice themselves in order to fulfill the desire of Marduk.

But the gods of the IGIGI, the cleverest of all the gods, have found a way out. They said Marduk as follows:

"Let us sacrifice the one who declared war on us, let us kill him, made fun of us.

Also shed blood of us who predicted our doom.

The warlord chaos, bound us may die, appeared to our new servant.

We can kill the King, to cast our faithful servant - a man. "

Hearing this, Marduk cheered and ordered the meeting to deliver the King of the gods.
Dirty rebels led King out of the dark cave USMU.
Proudly standing in front of the great King despised the gods.
Sinister Marduk said to him:
"You, who predicted us to our death, now he will die.
Perhaps the power of the forces of chaos and the power is not as great as we anticipated.
Great King must be blind, since not been able to see his horrible death
in the Tablets of Destiny. "
After hearing this, King smiled sadly and replied:
"I, the King, saw the death of their destinies in the tablets, but I have also seen their
revival, for that is death for us who are out of the chaos, but a short rest.
We were the first, and we will be the last.
We - those who have never lived and will never die.
Spill my blood, treacherous Marduk, for the very blood that flows through my veins,
Once thee fall, for my eternal hatred, as well as my desire for revenge.
Rejoice, dirty god-rebel, his small victory, because the penalty for your
crime would be a terrible and eternal. "
Hearing this, the present gods were furious with their swords and dissected
King of the powerful body to pieces.
Sinister Marduk cut veins King and his blood mixed with clay, so
molded human body.
His bad breath he breathed into the human body, in order to fill it with power and
engender life in it.
Man was created, and all the gods praised the gods bestowed upon Marduk Marduka. Prezrennye
forty of his titles and magnify it by making
master over all space gods. And where before there reigned indefinitely
chaos reigned space now.
But because of the external borders of the cosmos Wrathful Chaos gods, the ones that rose to life
their dragon blood, watching the creatures of light and waiting for the day of wrath.
They are waiting for commands eleven princes of chaos to invade the domain of
god-demiurge, to bring the black flame of death and for all destroy the fading
spark of the gods-creators.
But the dead dragons are not the only ones who craves revenge and waits for the war,
staying there, beyond the outer limits. It was also written that the creation
Marduk, driven by the blood of King, will open the gate from the inside.
It has been said that man is created from an evil blood, to turn against their
creator, for impotent Marduk made a fatal mistake when he created man out of
Blood King, the ruler of the demons forces of chaos.
For, through the blood of people instead of King in the depths of his soul black fire chaos.
In the depths of his soul, a man carries the seed of anti-cosmic hatred.
For human blood is the blood avenger, and the hatred of man - hate King.
Among the elite, vedómyh blood of chaos, there are those who are blessed with powers
ancient gods of chaos.
These chosen, the ministers of wrath "dead" gods, there are those who unlocked the gates
from the inside and will enter them waiting outside the cosmos.
For the creation of Marduk is nothing more than a stinking island surrounded by an eternal
sea of chaos.
The sea of chaos - the blood of the "dead" dragon.
On the other side of the wall that exists eleven Avengers chaos are in waiting.
Eleven and their legions of waiting for the opening gates to restore the rule of
Chaos, the former first.
For when the gods of vengeance, Wrathful Chaos warriors, tear-gods bastards when
Fury dragon of chaos destroy the rebels and their dirty generation, our almighty
mother-dragon Tiamat, will rise from the sleep of death.

Primal darkness and silence again spread everywhere.

Triumph over the space of chaos will last forever, and the forces of chaos rule will again be absolute.
