NOTE. Op XIV & Dec 15 was devoted to Hermes.

Op XV Dec 20

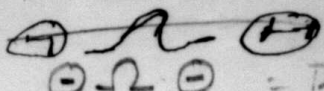

Op XVI Dec 22

Op XIV. The work was done in my newly consecrated temple where I had spent all the evening (from 9.0) invoking Thor & Hermes and making evocation calls. Also in reading the Hermes operations record of January 1914 in Paris --- I am proposing to make this new temple a Temple of Hermes by getting 8 people to assist and by making a circle on the floor with the idea of building up a great Mercurial force.

Op XVII Dec 27.

Re 19/4

The colloquy of V.V.V.V.V. that is to be a **Magus**  $9^{\circ} = 2^{\circ}$   
 of A. A. A. With the god   
 New York  in  $11^{\circ}$  78 An X  = ROR  
 $\frac{Y}{f}$  in  $9.50'$  78

This record should touch briefly on the causes of this work.

About Dec. 14 I came to the conclusion that  was Lord of New York, and began various invocations of him as best I could, notably by the O.T.O. method. I shall refer here, and after, to the record "De Arte Regia."

I did also certain Psalms, certain divinations, and have been doing thrice daily the old invocation "Majesty of Godhead de" as in Liber LXIV.

Also on going to bed, I have done Dharana on an imagined figure of Hermes now and again: or the Caduceus.

I have been exercised with regard to the question of the possibility of my attaining the grade of Magus in this life (after all!) and my very <sup>ind</sup>bluntness and impotence - which <sup>are</sup> at present considerable give me hope. I seem to have no creative power, or inspiration. I don't work at all: I do geomancy on all sorts of things. Its funny; I don't feel bad: but there's something radically wrong in all I do. Is this the Threshold?  
 Jan. 2. 1915. I have just done a IX <sup>to become a great Orator,</sup> invoked Tahuti, and delivered a sermon to the inhabitants of the Ten Thousand Worlds on the text "Oh my God! I swim in thine heart as a trout in a mountain torrent" [cf xx with denk Dewey, a Dutch protestant]
