

Update 5

93

>A.'.A.'. > Philosophy

Bataille: Death and Sensuality, Guilty, Theory of Religion (particularly good), and Laughter, Sacrifice, Nietzsche and Un-Knowing.

Greene: 48 Laws of Power

Hegel: Logik

James: Varieties of Religious Experience

Hume: Enquiry

Kant: Prolegomena

Nietzsche: The Antichrist, Will to Power, Thus Spake Zarathustra

The Questions of King Milinda

Spencer: First Principles

And finally I rounded off the folder with a copy of Diogenes' Lamp by Adam Weishaupt, yes, Illuminati founder Adam Weishaupt. It's the Masonic Book Club translation and mentions Crowley twice in the preface.

>A.'.A.'. > Crowley

Added the unabridged Germer edition of Magick Without Tears (Thanks Z!).

>Chaos > Carroll

Removed the short copy of Liber Kaos and replaced it with the full copy of 200+ pages.

This update should complete the Philosophy file, at least as far as far as core A.'.A.'. philosophy is concerned. I may end up sticking a few more files here if they're good or become available in electronic format.

So far, this completes the following folders:

>Chumbley

>LHP

>Chaos

>A.'.A.'. > Philosophy

The next step from here is probably going to be adding the York Rite degrees in Freemasonry, which should complete the folder, though work still needs put into Martinism.
