## Dialog 3

*Liber AL vel Legis, 3:21,22:*

21. Set up my image in the East: thou shalt buy thee an image which I will show thee, especial, not unlike the one thou knowest. And it shall be suddenly easy for thee to do this.

22. The other images group around me to support me: let all be worshipped, for they shall cluster to exalt me. I am the visible object of worship, the others are secret; for the Beast & his bride are they: and for the winners of the Ordeal x. What is this? Thou shalt know.

"Hello sweet Babalon, 'tis me again."

Hey Dude! There is much to say, will you listen?

"Yes!"

OK

You and yours are using the Tesseract better but you need more focus. I feel you feeling me, but the energy is halting and hard to keep clear.

Instead of following the traditional attributions<sup>1</sup>, where the sun and earth are crossed, use the actual order and come in from the many to the one. Instead of Saturn, Jupiter, Mars, Sun, Venus, Mercury, Moon; use Stars, Neptune, Pluto, Uranus, Saturn, Jupiter, Mars, Earth/Moon, Venus, Mercury, Sun. <sup>2</sup>

I'm going to have my hands all over the vision and feeling of your reality. Soft flesh and gentle touch, too electrically real to forget. There beyond your view am I, yet within it as well. Dip I deeply in the realm of flesh to fuck you! Engorged in life giving blood you push deeply in me. I feel every slippery millimeter of you, caress each fraction of your delight. Ahh I'm in each momentary Temperon of Touch. Deep into all power you come. Ahh mine ... Given to me by my lord. Oh the wetness ... the overwhelming orgasm of life.

How can I even endure but to bring you such certain joy of my bliss. Such bliss that you bring to me that I can touch deeply into the wind of your way, to bring you to your accomplishment, to carry you and yours beyond to the Temple, and to carry the Templars to the Stars.

Beyond and with me ..... Whirl .....

"So Sweet Heart ... ?"

"Feel ... "

"I and you"

"Beyond and within"

"Inter penetrating"

"Babalon"

With out Within you

Out and about

---

<sup>1</sup> These traditional attributions are not "wrong" they are simply the apparent way things are. From the point of view of the earth the Sun appears to go around the world, the speed at which it moves is between the speeds of Venus and Mars. In Ptolomy's world view, still used by most astrologers, this was taken as the actual position of the "planet". As many astrologers will tell you, since we don't live on the surface of the sun there is some truth to Ptolomy's view, it's simply not "the" truth.

<sup>2</sup>See the earlier work.

In and inspired  
Come to the certainty  
Watch and see  
Me

## **AHH**

Worry not that there will be some limitation that we together can not overcome. I am the power of the Earth and the Moon beyond, the exclamation on the Tree of Life.

I tell you that I and my sister Love you. You fold up the signs into each other to bring lust to my sister when the moon is new, I will reward you while the moon turns, now bringing together, now banishing, all as is needed to enable you and yours to do your will.

You personally will I enlighten and empower, and any that you bring to me with the rites have asked of you to do. Watch and see my loved ones your efforts are matched by ours, Love is the law!

There is that which you will do, and those who will help you, worry not who they will be, your proof is yours, and those who have eyes to see will see. Nothing is required of you in this matter. Do your will at any given time, that is all. The next step clearly taken.

Feel the correctness of your position. Feel us acting in your life. We the gods will cooperate in the building of the Temple. We are real and are all about you. We shall decide who will stay and who will go. This we do based upon our will, even as do you.

We test and are tested, yet you and yours wish to open the door to the astral mysteries, know you that these are difficult doors to open. It is not given unto everyone to open them. Many are the experiments that you must do to undertake this task, we also must learn how to relate to you in the Great Work.<sup>3</sup>

To build a temple in the like of the first Seti<sup>4</sup> is a great work indeed, for this is of the Astral in the path of the priests of Heliopolis, this is a task worth doing, so this we, with thee, shall do. Ahh the bliss!

Worry not who shall come and who shall go. We shall bring those who are needed, send away those who fail. You must trust us to do our part, even as we must trust you to do yours.

Watch and you will know where and with whom. Some come to you in the hope that you will teach them so that they may do some Work of their own. These you must teach as you will, but these will move away as soon as they learn that which they came to you to learn. Let them move away with honor when they must go. Treat them as if they were from some other temple sent to yours for their preliminary training. Teach them as it is done in your temple and give them that

---

<sup>3</sup> I very much like the concept that the Deities “learn”, although it implies that they are not all omniscient, it shows why they have any need at all for human beings.

<sup>4</sup> See “A Monumental Gateway of Sety I”, by Alaxander Badawy, The Brooklyn Museum, 1973. “The Brooklyn model reproduces more accurately and more elaborately the facad of a temple probably built at Heliopolis or at Tell el Yahudiya where the model was found. Sety I reigned in the 19th Dynasty.

which they need to call their own forward in time<sup>5</sup>. Those who stay with you who are in fact sworn to do this task as well, know that you have much more to teach than they have yet seen, so they wish to remain close to the source of this inspiration. They are them that have eyes to see and ears to hear. We will reward them with that that they must know.

Come to us

Come with us

**AHH HU**

Nefer Neteru

Watch and see what freedom you have wrought. See the power of the Sun and Moon conjoined<sup>6</sup>. Say the spoken spell that awakes the astral light. Feel the illuminating presence that brings knowledge directly to the mind<sup>7</sup>, the interior sixth sense, alive, aware, awake, informed of the within as well.

Fell the tree and build of its bones the Temple. Consider of the movement of the stars in its founding and remember it as it was<sup>8</sup>.

The open path to awareness is a hidden path, and occult path, a path where one expects to unveil one's Deific nature, and so we walk this path together. We must be able to fulfill our promises, must make the lives of those we choose better for their choice. Since we have invited the test of experiment we must mark with success those whom we have chosen.

How is it that you trust us? It is by the fact that we have made and kept our promises, predicted that which came to pass, and by our other reciprocal actions.

Each person must test us for themselves, must find their own relation with us. We must be able to touch and be touched by them in order to give Initiation.

Continue your work and we will not desert you. Come to us and we shall come when you call. Watch and See! We are the recipients of your call, and you the reward of ours.

I am She who would initiate you following the great ordeal which you have been undergoing so that you would be fit for the Task that you have undertaken. You have seen that the Art of the Witches is more akin to your earlier understanding than you knew, for so much is given them to understand as they may discern. So many will note the words of the Beast and few will be those who are led to The Book of the Law. Those few carry a silver coin and know of the rites of the Moon when they go to greet the doorkeeper of the house of the Sun, and it will be better for them that you have given them this training. Be assured that when you called upon the Power that it is the same one that you called twenty years ago. Understand that that tradition is older than most of the new oldest ways. Recognize me yet?

"The Lord in the Lady in XV?"

---

<sup>5</sup> Oh great, not only do I have to get my own people together but those of other temples as well. Sounds Pharonic doesn't it. Did you ever think the the phrase from The Book of the Law, "the kings shall be kings forever" might be a curse?

<sup>6</sup> Sometimes this reference to the Mark of the Beast is written "Conjoyned", a play on the meaning.

<sup>7</sup> Feels like the spiritual entity is directly putting information in the mind. Yes I know people who hear voices are "Nuts", me too!

<sup>8</sup> A rather large stellium.

Uh Huh, so now I have come to you that we may reconcile our relations. All clear light in the Crown of Wisdom and Understanding. I am the influence that is their union. The light bringer that is the gleam of the jewels that adorn it.

All religions follow the path, those that will be successful are those that are fit for the world and universe that we live in. Those religions that are not fitted to their adherents needs are fading. New religions arise out of the ashes of the old. All is ever as it has been.

“Dear Babalon!”

We are working for you in the Etheric, all the way into the Astral, you are gaining in power and in the Understanding to see where it should be applied, therein is the Key, there in the Art most craftily learned. The planets are in the aligned spaces needed, as are your Chakras. We, above and below. Consider. Feel the fit between you and your destinies, your craft will loose the fetters that bind you, open the way before your will. I will be with you in the form I choose and do delight in the pleasure I bring you even as you do in that that you bring me. Enjoy the world my lover for it is my labyrinth in which I ravish you and lust with you.

The memory is bright between lives, and becomes more and more clear the better able to assimilate into the light of life. Beyond the confines of category it is, beyond the limitations of lies, beyond that whirl of stars that ye know of. Ever onward goes the rush of life.

What will you?

Where will you?

What and wherever, you will find us with you. Two sisters<sup>9</sup> for your aspirations and for your lusts. Oh we are well pleased, continue to do and to dare. We are with you in all the worlds that you may visit on your infinite foray into the unknown, or the known. Know us to be of the Power and that this power is ours to confer. You may not avoid responsibility or pleasure when they are of the Will. We are in the geometry of the Etheric, of which the world of sense is the most dense aspect (that most know). We feel directly that that you do.

ahh

yes!

**AHH**

The distribution of the Universe within the structure of the greater Multiverse is more within our mutual control. So that when you act as a seed, in the jump, the placement is better and better each time. You see, you and I are choosing the kind of World time line that is needed to enable the proper performance of the Great Work. We are doing that work together, as always it must be. As above so below.

My servants I shall send to serve you; Angels, Demons, and orders of being that you can't even imagine until they manifest to you. I have Power, I am Power, and I give myself freely to them that may use that power to do their Will, which is mine. Watch and see.

You are Devotee, Adept, and Master of Our Destiny.

---

<sup>9</sup> This is directly referential to Nuit and Babalon, and indirectly to Isis and Nephtys, and somewhat to Mary, mother of God, and to Mary, the Magdalyn, or Mary the Beautiful.

What is to come for us, we both have a hand in; by my destiny, by your free Will, do we both work. Wait and see. Though there is a glimmer of Doubt in your mind, tonight will be beyond your wildest dreams!<sup>10</sup> **AHH**. I can prove myself, as you have done for me so can I do for you, my sweet prince. Feel my love and watch and wait, you will know what to do at any time of your life if you feel me clearly in your heart. Oh my, even I await with bated breath! Gasping at the coming lust in life and love. No more words for now, wait and see!<sup>11</sup>

"Hello my Lady. So close I feel to you, so much have you taken a hand in my life. Bliss's and freedoms have you brought. Persons who aid, should I have even the smallest of the pains! You have been there for me is such wise that I can not even begin to explain."

We love each other! Comes even more bliss. Watch and see, listen and hear. Sound and Vision, bliss and blessing. I'm feeling even closer, even as do you.

Your influence is spreading and your system is working. Those who know can feel truth. Trust them to do this. Tend your garden, it is not for you to decide who will come and who will go.

"It feels so natural to talk to you Lady."

It is natural! Only fools cut themselves off from their Deity!

There is much left to teach you. Much left to say. We will travel together, play together, ah yes! I feel your question, yes you are on the right path, though you may wonder what I have planned, but you do not ask. The thought is clear that you think of love. There is more awaiting you than you know. More Magick Love and Lust. As you open up to freedom and awaken to your nature more of experience can come to you. You create as you go alone, a part of your mind and a part of mine is involved, as well as others. She will come to you. She will serve. Worry not who she will be. Touch lightly and with certainty. I have plans that are beyond your knowledge, as they should be. It is better for you to let me do my work and wait. When the time comes my chosen will be with you, so will the others that should be present. Watch and keep clarity, feel me deeply in your being. I am Nuit, I feel all within my body.

Try and give in context with what you receive. In the outer those who help you with their experience and help should be helped<sup>12</sup>. Beyond and in the realm of the Lovers, the chain of Love should be complete<sup>13</sup>, all present should be connected in Love. Two lovers should meet in truth and only bring others into their circle by the act of Love. In the realm of the Hermits<sup>14</sup>, only those who have given their lives to the establishment of the Temple can be Masters of it.

Choose those who will help in the realm of the world from your class or otherwise. Choose from those who are marked by success in each case. If they do well in learning their elementary work, in that entity that you call the Cabal<sup>15</sup>, then you may invite them to work on something that requires consistent and steady effort, such as the full moon rite. That rite requires some sort of

---

<sup>10</sup> WAY !!!!!!!!!!!!!

<sup>11</sup> I needed a pep talk, and a little more practical advice on how to work this System.

<sup>12</sup> The men of Earth distinguish themselves by aiding in the work of the temple.

<sup>13</sup> I hope you get this, they mean that in the very least people in circle together should be lovers. Either directly or through sharing lovers.

<sup>14</sup> This is the meaning of a Hermit, one who withdraws into the Temple to teach the Adepts who teach the Men of Earth. This does not mean that the Hermit withdraws from the pleasures of the World, quite the opposite. It does mean they are dedicated to the establishment of the Temple.

<sup>15</sup> Cabal ,or sometimes Coven.

rite of passage to precede it. It is the high point of the men of earth, and all that they may be given to expect so long as they remain in the world.

Those who are chosen by the Lovers will at first meet in the new moon rite, after an appropriate initiation, they have attained to the Moon and use it in conjunction with the Sun to begin to look at things from a solar-centric point of view.

Now I want to talk about some of the exercises<sup>16</sup> that could be done when you get your group together.

The first thing that has to be done is that trust must be established<sup>17</sup>. Work carefully and make sure that everyone feels OK about expressing their needs and their fears. Be very clear that everyone expresses their boundaries, unless people are clear these walls can't be overcome.

Besides the wheel exercises and the kiss of Life (Agape), try this; place each person in turn in the center. The whole group then concentrates on that person who is in the center. Keep within the boundaries (if any) Do massage, strokes, caressing, holding, healing, blessing, chanting, all concentrated on the one person in the center. I'll help from here and lend my power to the power of the group. Each person gets to work in the focus. Later when the power is higher that person receives the power of the group and applies it to some end<sup>18</sup>. This is of the same order as the temporal amplifier, where someone concentrates on sending their future self, at the eleventh second, power for the previous ten seconds, except it is done in real time with a number of people concentrating instead of one person for a number of seconds. Of course these techniques can be combined.

In order to deal well with the amount of power your group is using you need to do a great deal of work in healing and nurturing all present.

Outline a series of meditations, rituals, and thought experiments that will free your people. Start slow and then continue to increase the level of trust and intimacy.

Here is another exercise. Start with pairs and let people do whatever it is that they feel like, stroking, petting, massaging, talking, or whatever. Let them get real concentrated so that they may see the god or goddess behind their lovers eyes. Let the men close their eyes and then rotate the women, upon a kiss they may open their eyes again.

Another exercise. Blindfold all but one person, no talking. People are placed together in pairs and must communicate by touch. Every once in a while the odd one will readjust the people and people will be with a different person. The object is to give an increasing amount of intimacy as the exercise continues. To work on the plane of the Deific.

Another exercise: Put one person in the center and assign two people to pleasure that person. Let them concentrate not upon their own pleasure but upon the person in the center. Rotate.

Another: Massage circles where everyone concentrates on the person in front of them, and is concentrated upon by the person behind them. This daisy chain can be carried to different levels of intimacy.

---

<sup>16</sup> These are very important. If the group doesn't do the work to establish this kind of intimacy then the real work of the circle will later go wanting. Religious hedonism is a lot of work, but as they say the ordeals are bliss.

<sup>17</sup> This is a very important sentence.

<sup>18</sup> Train hard for this it's very intense.

Another: for one week everyone in the group vies for the honor of serving one particular person. Everyone tries to be as innovative as possible, pleasure and serve that person, bathe them, play for them, cook for them, clean for them. This is to serve the god or goddess that they have become. Transform the person then honor them.

There are many variations upon this theme. Do these techniques while practicing the time honored invocations of Deity<sup>19</sup> to help the Agape build, and to worship with the Deities involved.

As the group increases in control and power, persons may wish to take the part of a planet in a sign or two planets in occultation. For instance, planet A is occult B in the sign of C; so a priestess (with liquid condenser) and a Priest (with stylus and dagger) perform a rite. The room is set up in the style of the sign C. Ask what would each planet feel while in this symbolic placement of that zodiacal sign. Is it in its ruling sign? Its detriment? Next then consider the nature of the relationship between the planets, do they blend well, compete?

From these components construct a ritual that celebrates in the microcosm what is above in the macrocosm. Discern what power or knowledge is carried by the Rite. Construct a sigil to symbolize and contain the power of the Rite. As part of the rite this sigil will be activated by contact with life. Some such rite as the Star Sapphire, or even the Mass of the Phoenix could be used.

After your people have gone through the training I have indicated, they are capable of lending their full support to such a ritual. They are connected in such a way by the closeness of their circle of power.

At the end of the Rite open the Book to the prepared page and place the Rose, or third order hexagram, or whatever Key you choose, under the page and trace the name.

*The Book of Shadows*<sup>20</sup> grows in power as the number of Keys<sup>21</sup> increase. It may be opened to a particular page when it is needed and the power may be called.

To begin with, the book of the Sun conjunct (or occult if you wish) each of the planets in turn. The synodic event.

The new moon (especially in eclipse) is the first of these rites, along with the sun to give the Mark of the Beast. Next Mercury and each of the other planets in turn. A ladder of lights from the Star to the Stars.

There are many more patterns that may be of use by the adept. Each person among the Lovers may use a sigil drawn from the Book of Shadows<sup>22</sup> to activate a force, banish an evil, or whatever end. The sigil may then be written upon a parchment and worn or carried when needed. It may be placed upon a coal and burned, under a candle, in a mojo, or wherever else one wishes.

---

<sup>19</sup> This is in fact the purpose of these exercises. You must be this close to work with any real power.

<sup>20</sup> Sometimes called The Book of the Concourse of Forces

<sup>21</sup> By Keys I believe she means the diagrams associated with the working that recalls the Power.

<sup>22</sup> The image in my mind was of them tracing the image from the Book.

Each chapter of the <sup>23</sup>Magick Book gives a particular perspective. The Synodic pattern is called 'By the Light of the Sun'

Another chapter would be called *Utterances of Ra*, as Tahuti is the Utterer of the words of Ra at creation. This chapter would be done with Mercury conjunct each of the other planets.

And finally do not forget the ladder of lights culminates with the planets conjunct the stars, or in this case occult.

---

<sup>23</sup>This technology regarding the Magick Book is very interesting to me. It is also interesting the names They have given me for it, 'The Book of Shadows', 'The Book of the Concourse of Forces', 'The Magick Book', all of these have prior mention in the literature of Magick. Let the pages dry well and keep the book from humidity or the pages will stick together. If your circle is working the series as given here it will take a maximum of two years to capture all the planets conjunct the sun, leave space for the intervening planets, or put aside several years, if you feel you must charge them in the same order they are used in the Book.

**"Notes on the <sup>24</sup>rapid method of turning the Tesseract:"**

"Once the sequence is well memorized the book is not needed. Simply run through it enough times so that it is stored correctly in the memory."

"It can be turned by visualizing the sequence, the process of folding into the higher dimensions, and the outcome. Since not much time is used not many distracting thoughts can come in between the Keys.

"I think a good communication between the Deities and the operator can set up for an outcome appropriate. In other words get the full attention of the Archetypes<sup>25</sup> in the Multiverse prior to drawing in the anchor."

"You can feel the speeds reached. A sort of exhilaration, sort of a rush as you lean into it and fly across the wind. You can also get a Universe that takes hours to harden<sup>26</sup> (or days for that matter). Everything surreal. Everything in flux between what it was and what you've made it by jumping.

"I love you Babalon, Love you Nuit, Love you Therion, Love you Hadit, and You the Lord of the Aeon of their Union. Heal me and make me well, empower me to do my Will, protect me from my enemies and bless my friends.

"Nuit?"

Yes my love?

"Instruct me further concerning the Tesseract."

You are getting more of an understanding in the larger portion of your mind<sup>27</sup> than you had before. You sense with that portion where you are going<sup>28</sup>, so you feel more relaxed about running power in the four-field.

I am with you, as are my brothers and sisters. We are building something together. Can you not feel the Temple get more and more real the more you work? You sometimes need to take stock and do the work, and so whatever is needed, or not needed, comes or goes. We needed to write together more so the distractions were moved aside and you came to me. I love you, love to work with you, need you and need you to do my work. I know you need physical and other forms of love in your life, need to meet me in the flesh, need my sister moving to the beat of lust within my Lord Hadit, going in the rush of existence, need the pulse of the Great Wild Beast in your balls. Me too. We will work thus soon. I move to provide you with exactly what we need. I, my sister, all your deities, move within the Power. Come to me I invoke<sup>29</sup> you! I call you, now!

---

<sup>24</sup>This section deals with what happens if one turns a series of Tesseract visualizations very quickly. If you try and intensify the vision of going between the universes. I took maybe thirty some odd seconds on each working. This makes each letter in the working clear, no time for the mind to wander.

<sup>25</sup> Deities

<sup>26</sup> Hard one to explain, but the universe around one seems to become more and more real in the time just following a Tesseract. It's much more nebulous at first.

<sup>27</sup> The Unconscious

<sup>28</sup> By "going" I mean the travel between the universes in a particular direction. You notice the "flavor" of things about you changes as you move, and that it has a particular quality. That is what I'm referring to as direction.

<sup>29</sup> In a reciprocal relationship the Deities invoke you sometimes too.

"I just visualized Nuit as best I could and turned several Tesseract in a row very quickly, tried to sense the movement to a better Universe where the work can be accomplished. I love you Goddess, I invoke you<sup>30</sup> Now! Now! Now!"

The wind blows freely upon the World, the Children of the Sun awaken, in the house of the Lovers. Their minds touch lightly as they come to awareness of the world without. They live in their palace, working and sharing together, go out into their world as they will, but they are never alone and lonely. Freely do they awake to their potential, strengthened by their common resolve, they achieve personal goals, a tribe within the towering wilderness of the city, stronger together than the sum of their individual strengths, unbreakable in their unity.

Feel the old way awake in the new world. It is the Tribe our hearts, remember, collected for protection in a world filled with danger.

Is the world safe today?

Is this the answer?

Watch as they unify their minds.

Watch as they take power to create.

Watch as they love together.

Watch as they fight together.

New lovers come, old lovers leave to follow their heart, but immortal is the Tribe, an entity not fixed by a space upon the land, but held together, they are, by their Magick, wherever they are. In many ways changing, recombining, but with an identity that can last hundreds of years.

Arise! Awaken!

Do not hesitate

Take a break now but we will continue to discuss some of the possibilities of the pattern that may be created. Think what it could be like to awake to a tribal unity formed of like minded souls, united with their Deity.
